ADRC of Wisconsin

Aging and Disability Resource Centers

Activity Reporting for 2012

Wisconsin Department of Health Services
Division of Long Term Care
Bureau of Aging and Disability Resources
Office for Resource Center Development
P-00317 (08/2013)

Aging and Disability Resource Centers (ADRC)

Aging and Disability Resource Centers (ADRCs) provide information, advice, and access to a wide variety of services for older people and adults with disabilities, and serve as the entry point for publicly funded long-term care through the state's Family Care, IRIS, PACE and Partnership programs.

ADRC services are available to individuals, their families and caregivers. ADRCs also take referrals from and provide information to physicians, hospital discharge planners, and other professionals who work with older individuals or adults with disabilities. Services are provided via telephone, home visits, or at the center location.

This report provides a statistical profile of the consumers of and services provided by Wisconsin's ADRCs in 2012, including:

- The number of times consumers contacted an ADRC for assistance.
- Who originated the contact – the individual, their family or caregiver, an agency or service provider, or the ADRC.
- Who was served – people who are elderly, adults with physical disabilities and adults with developmental disabilities.
- The type of service provided by the ADRC.

Data shown in this report reflects activity by the 38 ADRCs which were operating in 2012 serving 69 counties and 5 tribes. Section I provides a summary of statewide ADRC activity and Section II provides a summary of activity for each ADRC.

A useful resource, ADRC Activity Reporting Requirements and Definitions, provides detailed information regarding activity reporting specifics, and was developed to support consistent reporting of ADRC activities.

This report does not include Disability Benefit Specialist (DBS) or Elderly Benefit Specialist (EBS) program statistics, as these ADRC services are tracked separately. The DBS and EBS information can be accessed via the links listed below.

SECTION I

Aging & Disability Resource Centers

Summary of Statewide Activity in 2012

STATEWIDE ACTIVITY

Table I: Estimated Population 2010

Wisconsin population estimates are provided in Table I, including the numbers and percentages of individuals age 18 and over, and those age 60 and over. Estimates in 2010 indicate Wisconsin's population to be 5,686,986 with 76.4% of the population age 18 and over, and 19.2% of the population age 60 and over.

I. Estimated Population 2010					
	Total	Age 18+	% Age 18+	Age 60+	% Age 60+
Wisconsin	5,686,986	4,347,494	76.4%	1,091,139	19.2%

Source: U.S. Bureau of the Census, Census 2010 SF1

Table II: Total Number of Contacts

A contact represents an individual interaction or conversation that has occurred between ADRC staff and a person who contacts the ADRC (e.g., an individual with a problem/concern about him/herself or concern about another person). A contact may occur in person, including home visits and walk-ins, over the telephone, via e-mail or through written correspondence where information is exchanged.

An individual may contact the ADRC multiple times; each interaction is counted as a contact.

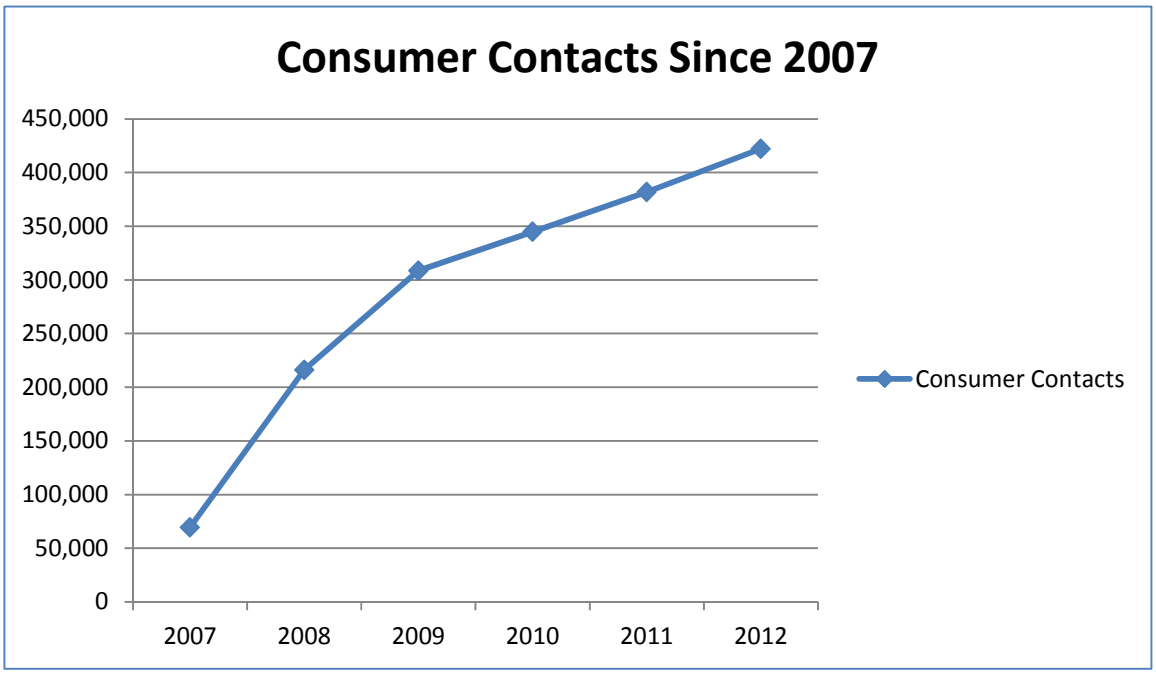
For all quarters in 2012, 38 ADRCs serving 69 Wisconsin counties and five tribes reported a total number of contacts to be 422,052, compared with 381,781 reported contacts in 2011. This represents more than a 10% increase in contacts over the previous year.

This yearly total figure averages to 35,171 contacts per month for ADRCs in 2012, compared with 31,815 average contacts per month reported in 2011.

II. Total Number of Contacts 2012				
Month	Total #		Month	Total #
January	35,804		July	35,706
February	32,479		August	38,871
March	35,019		September	33,276
April	35,606		October	40,108
May	36,138		November	35,069
June	33,308		December	30,668
				422,052

Table III: Historical Number of Contacts

The table below shows historical data from the previous six years. ADRCs have been reporting data since 2007 when there were just 18 ADRCs in operation. Since 2007 the number of ADRCs has **more than doubled** and consumer contacts are more than **six times** as many as they were in 2007.



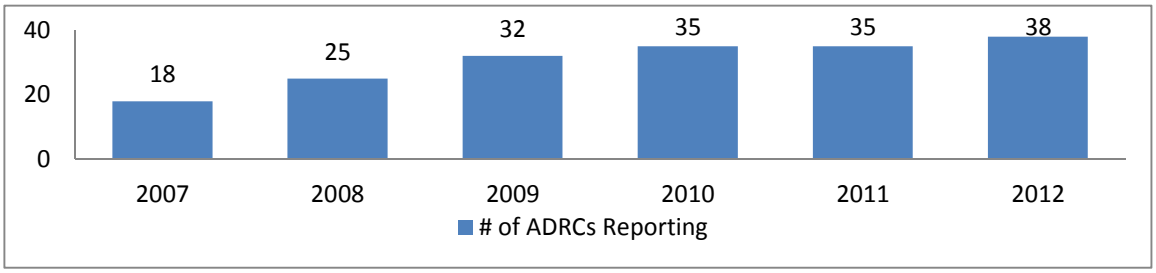


Table IV: Number of Contacts by Who Made Contact by Age of Consumer

For each contact, ADRCs were asked to identify who initiated contact with the ADRC from the following choices for Caller Type:

1) ADRC Originated – Not Preadmission Consultation
2) ADRC Originated – Preadmission Consultation - Community Based Residential Facility (CBRF), Nursing Home (NH), Residential Care Apartment Complex (RCAC)
3) Agency or Service Provider
4) Caregiver
5) Other
6) Relative, Guardian, or Friend
7) Self

Data reported in Table IV shows that the most frequent initiator of contact was the ADRC, which reflects that the ADRC is providing follow-up service to determine if the inquirer's needs were met and if additional information and assistance were needed. The second most frequent type of contact are those initiated by an individual seeking assistance on his/her own behalf (25%).

While 64% of contacts are about individuals age 60 and over, assistance is provided to approximately 5% of contacts where the age is unknown.

IV. Number of Contacts by Who Made Contact by Age of Consumer					
Who Made Contact	**Under 60 Yrs**	**60 and Over**	**Unknown**	**Total #**	**Total %**
ADRC-not PAC	41,856	96,968	1,943	140,767	33%

ADRC PAC-NH	318	1,741	84	2,143	<1%
ADRC PAC-RCAC	28	70	4	102	<1%
Agency, Service Provider	17,101	39,422	2,819	59,342	14%
Caregiver	6,646	18,315	1,640	26,601	6%
Other	7,952	14,874	1,544	24,370	6%
Relative, Guardian, Friend	12,270	44,756	4,713	61,739	15%
Self	44,674	52,304	9,803	106,781	25%
Total #	130,866	268,621	22,565	422,052	
Total %	31%	64%	5%		

Note:

PAC = Preadmission Consultation
CBRF = Community Based Residential Facility
NH = Nursing Home
RCAC = Residential Care Apartment Complex

***There was a change in preadmission consultation requirements as of March 21, 2011, resulting in lower numbers than in previous years for those contacts**.

Table V: Number of Activities Provided by Age of Consumer

In this category, ADRC staff are instructed to select as many activities as apply to the particular contact. In other words, it is possible that one contact with an individual consumer resulted in more than one activity or service being provided at that time. Because more than one activity per contact can be selected, the total number of activities exceeds the total number of contacts. Therefore, the percent of all contacts involving each activity cannot be summed to equal 100%. In the ADRC activity category, 16 choices are available for selection and summarized as shown in the table below.

Table V shows that over 70% of the activity performed by ADRCs was information and assistance. Providing information and assistance includes listening to the inquirer, assessing his or her needs, and helping the inquirer to connect with service providers or gain information to meet the identified needs The next most frequent activity was Follow-up at 21%. This is follow-up activity initiated by the ADRC to determine if the inquirer's needs were met and if additional information or assistance are needed. The third most frequently selected activity was Options Counseling at 15%. Options counseling is an interactive decision-support process whereby consumers are assisted to evaluate and weigh their long-term care service options (e.g., assistance evaluating housing options, assistance sorting through home care and personal care options, etc.).

V. Number of Activities Provided by Age of Consumer

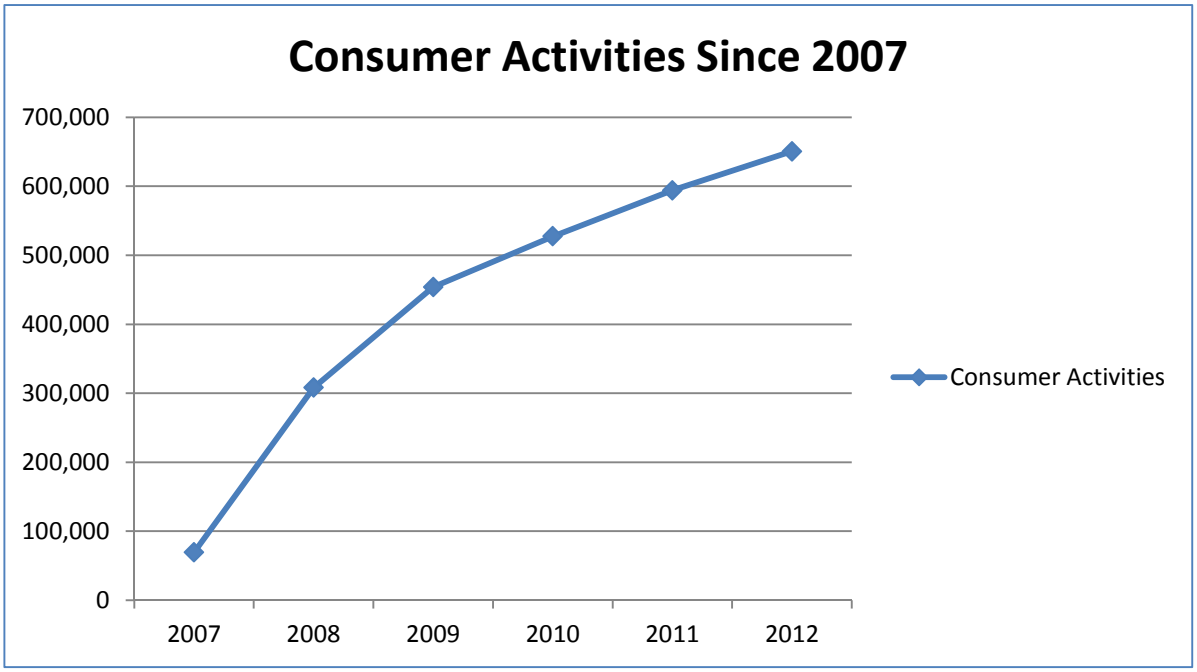
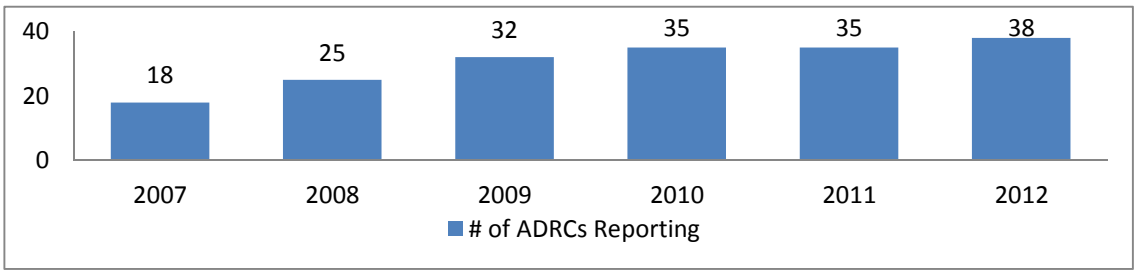
Table VI: Historical Number of ADRC Activities Provided

Over the past six years, ADRC activities or services provided to an ADRC consumer has ranged from 69,356 in 2007 to 650,469 in 2012. Over that time period, activities have increased more than **nine times** as many as they were in 2007.





This chart shows the ADRCs that submitted data for each quarter of the year.
