**FOND DU LAC COUNTY HEALTH DEPARTMENT PASSES
REVIEW BY STATE HEALTH OFFICIALS**

MADISON—Dr. Seth Foldy, State Health Officer, today announced that the Fond du Lac County Health Department has successfully passed the state's health department review. As a result, the Fond du Lac County Health Department will maintain their Level II status.

“The hard-working staff of the Fond du Lac County Health Department help make their community a healthier and safer place to live,” said Foldy. “Their department has an actively engaged and supportive Board of Health, and does an excellent job of providing a number of important public health services and programs that address the needs of the county.”

The Wisconsin Department of Health Services is required to formally review the operations of all 92 Wisconsin local health departments at the county or municipality level at least every five years. The review establishes the health department as a level I, II or III agency. A level I agency meets the minimum requirements and a level III agency meets the maximum requirements established for a local health department.

Fond du Lac County Health Department provides services important to the community, such as:

- Women, Infant and Children (WIC) Program
- Agent Inspection Program for Division of Public Health and Dept. of Agriculture, Trade and Consumer Protection
- Tobacco Control Program
