Introduction	1
Purpose	1
Value Statement	4
Goal	5
Organization	6
Limitations	7
Abbreviations and Definitions of Terms	8
Improving Existing Surveillance Methods	14
Goal 1: Identify TB suspects early	14
Goal 2: Ensure immediate reporting of each TB case and suspect case to the local health officer or the Wisconsin TB Program	16
Goal 3: Identify any outbreak or any other unusual occurrence of TB disease in Wisconsin	18
Goal 4: Target surveillance for TB infection and disease	19
Improving Disease Treatment Methods	21
Goal 5: Active TB cases in Wisconsin will be treated with appropriate and adequate therapy based on the American Thoracic Society (ATS) and Centers for Disease Control and Prevention (CDC) guidelines	21
Goal 6: Drug susceptibility testing will be performed and documented on all initial TB isolates and repeated as clinically indicated	23
Goal 7: For each case of active TB, there will be documented improvement based on clinical, laboratory, and/or radiologic findings and documented adherence to therapy until completion	23
Goal 8: Laboratory results will be reported promptly	25

Improving Case Prevention Methods	27
Goal 9: Stop the transmission of tuberculosis	27
Goal 10: Identify and treat newly infected contacts	29
Goal 11: Treat other identified infected persons	31
Goal 12: Identify, evaluate and treat locally identified high risk groups	32
Improving Program Evaluation Methods	35
Goal 13: Define and redefine process and outcome standards	35
Goal 14: Measure performance toward meeting process and outcome standards	36
Goal 15: Analyze evaluation results and modify intervention and strategies to meet process and outcome standards	37
