The Wisconsin Well Woman Program (WWWP) provides preventive health screening services to women with little or no health insurance coverage. WI Well Woman pays for mammograms, Pap tests and certain other health screenings. The program pays for certain screenings for some of the most common women's health concerns: Blood Pressure, Breast Cancer, Cervical Cancer, Cholesterol Levels, Diabetes, Depression, Osteoporosis, and Domestic Abuse.

Covered services are available from participating health care providers at no cost to Well Woman clients. There is no premium, co-payment or deductible for the Well Woman Program. Not all covered services are available from every provider.

To be eligible, a woman must be age 35 through 64 and have an income that is within the program guideline limits and not have health insurance, or the insurance they have doesn't cover routine check-ups and screening or you are unable to pay the deductible or co-payment.
