

IM-RMS Reporting

CARS vs IM-RMS Reconciliation Guide

The following CARS and IM-RMS Direct Reporting Profiles should always have the same year-to-date amounts.

Subgroup		CARS	IM-RMS Direct Reporting	Comment
Collections	Medicaid Subrogation Collections	291	400291	These lines should be reported as negative amounts unless you are making a correction.
	Voluntary Medical Refunds	909	400909	
Funeral and Cemetery	W2 Funeral and Cemetery	103	400143	Starting in 2006, these are state only entries. Since Counties are no longer responsible for submitting these costs to CARS, the state will reconcile these profiles
	Non-W2 Funeral and Cemetery	104	400144	
MA Transportation	MA Transportation Contract/Conveyance	131	400131	Only the conveyance costs for MA transportation must be equal in the two systems. This is because counties may or may not report administrative costs on profile 132/400132 plus the RMS will allocate shared costs to 400132.
FSET	FSET Transportation and Reimb	233 plus 234	400233	These FSET CARS reporting profiles are always direct expenses for the FSET program. Both state and locally matched expenses are claimable for federal reimbursement.
	FSET Retention Services	235 plus 236	400235
