**Key:**

<sup>1</sup> Infectious diseases designated as notifiable at the national level.

<sup>2</sup> Wisconsin or CDC follow-up form is required. Local health departments have templates of these forms in the Epinet manual.

<sup>3</sup> High-risk assessment by local health department is needed to determine if patient or member of patient's household is employed in food handling, day care or health care.

<sup>4</sup> Source investigation by local health department is needed.

<sup>5</sup> Immediate treatment is recommended, i.e., antibiotic or biologic for the patient or contact or both.
