**GREEN LAKE COUNTY HEALTH AND HUMAN SERVICES – HEALTH UNIT PASSES REVIEW
BY STATE HEALTH OFFICIALS**

MADISON—Dr. Seth Foldy, State Health Officer, today announced that the Green Lake County Health and Human Services (HHS) – Health Unit has successfully passed the state’s health department review. As a result, Green Lake County HHS - Health Unit will maintain their Level II status.

“The hard-working staff of the Green Lake County HHS – Health Unit help make their community a healthier and safer place to live,” said Foldy. “Their department has an actively engaged and supportive Health Advisory Board, and does an excellent job of providing a number of quality public health services to the community.”

The Wisconsin Department of Health Services is required to formally review the operations of all 92 Wisconsin local health departments at the county or municipality level at least every five years. The review establishes the health department as a level I, II or III agency. A level I agency meets the minimum requirements and a level III agency meets the maximum requirements established for a local health department.

Green Lake County HHS - Health Unit provides services important to the community, such as:

- Wisconsin Well Woman Program
- Food Safety and Recreational Facility Inspection Program
- Childhood Safety and Wellness Program
