

# Covered Services

*...in Wisconsin's Long-Term Care Programs*

The following chart is a **partial** listing of long-term care and health related services. The chart indicates whether the service is included in the specific program's benefit package. The services that a person actually receives are based on assessed needs and other program specific requirements. Some services may require prior authorization.

\*With the help of an interdisciplinary team, participants in a Family Care or Family Care Partnership also known as Partnership program choose their long-term care providers (and their health care providers in Family Care Partnership) from the network offered by the Managed Care Organization (MCO).

\*\*IRIS participants purchase services, supports and goods within an individualized budget amount. Participants make purchases and hire service providers directly, or with the help of an employment agency.

Note: Individuals living in a nursing home cannot receive IRIS services.

Note: Individuals who have a diagnosis of **End Stage Renal Disease** are ineligible to enroll in Partnership, unless these individuals are enrolling in a Managed Care Organization (MCO) that has a federally authorized exemption to this rule. Only one MCO, Community Care Inc., has a federally authorized exception to enroll individuals with End Stage Renal Disease at this time. Individuals who have a diagnosis of End Stage Renal Disease may enroll in PACE.

Note: **Estate Recovery** provisions apply for Family Care, Partnership and IRIS. Estate Recovery provisions do not apply for PACE. In addition, individuals who choose PACE do not pay prescription co-pays or deductibles.

Note: To be eligible for Partnership, you must be enrolled in every part of Medicare which you are eligible for.
