

What is Prenatal Care Coordination?

Prenatal Care Coordination is a Medicaid and BadgerCare Plus benefit that helps pregnant women get the support and services they need to have a healthy baby.

Prenatal Care Coordination services include:

- Help getting the health care you need.
- Personal support.
- Information on good eating habits and health practices.
- Information and help finding needed services in your community.

How do I know if this service is for me?

The care coordinator will help you by asking about your:

- Current and previous pregnancy.
- Health history.
- Relationships.
- Worries.

If you are eligible, the care coordinator will help you get the services you need. There is no copayment for this service.

Questions that a care coordinator can help you with:

When should I go to the doctor?

How will I get to the doctor?

What are signs of labor?

How does this work if I am in an HMO?

What community services are available to me?

What will my baby need?

Why is Medicaid and BadgerCare Plus doing this?

Pregnancy is a time of change, every woman can use help with:

- Planning for a healthy pregnancy, birth, and beyond.
- Getting ready for a new baby.
- Lifestyle changes.

A care coordinator can help you during these times.

A care coordinator will listen to your concerns and answer your questions. A care coordinator will work with you one on one to provide a personalized, confidential plan of care.

Where can I find a prenatal care coordinator?

Contact one of the following to find a care coordinator near you:

- Local public health department.
- Maternal and Child Health Hotline at **1-800-722-2295 (Voice/TTY)**
