# Home Health Outcome and Assessment Information Set

## OASIS - C

November 4, 10, 12, 2009

### Program Intent

OASIS (Outcome and Assessment Information Set), the federally mandated dataset for Medicare-certified home health agencies, is transitioning to a completely revised dataset, OASIS-C, on January 1, 2010. OASIS data is a key component underpinning quality measures, payment, and the survey process for home health providers, and accurate information is necessary to provide reliable results. This program will introduce new and seasoned home health agency staff to the new dataset questions, and will provide each individual attending with accurate policy and clinical information about OASIS-C.

### Program Content

This program will provide participants with the following information related to the new OASIS-C dataset, and its use:

- OASIS Changes for January 2010
- Review of OASIS-C Items
- Introduction of new Process Measures
- Application of OASIS-C to Quality Reports

### Intended Audience

The intended audience includes:

- Home Health Agency clinical staff that have responsibility for completing OASIS assessments.
- Home Health agency administrative and supervisory staff with responsibilities including oversight of OASIS and OASIS-related quality reporting.
- Other health professionals who have an interest in OASIS - C.

### Faculty – Division of Quality Assurance

Chris Benesh, OASIS Automation Coordinator  
Mary Jo Sutton, OASIS Education Coordinator

### Schedule

Registration:	7:30 am – 8:00 am	Luncheon:	12:00 pm – 1:00 pm
Program:	8:00 am – 12:00 pm	Program ends:	4:30 pm
