Eligibility for 100% Federal Medical Assistance Percentage (FMAP)
June 10, 2010

Any Medicaid covered service provided through an IHS facility to a Medicaid eligible individual who is eligible for IHS services under federal law, qualifies for FFP at the 100% FMAP rate. Individuals who are eligible for IHS services are described in the following provisions of federal rules and the IHS Manual:

42 CFR § 136.12 Persons to whom services will be provided.

(a) In general. Services will be made available, as medically indicated, to persons of Indian descent belonging to the Indian community served by the local facilities and program. Services will also be made available, as medically indicated, to a non-Indian woman pregnant with an eligible Indian's child but only during the period of her pregnancy through postpartum (generally about 6 weeks after delivery). In cases where the woman is not married to the eligible Indian under applicable state or tribal law, paternity must be acknowledged in writing by the Indian or determined by order of a court of competent jurisdiction. The Service will also provide medically indicated services to non-Indian members of an eligible Indian's household if the medical officer in charge determines that this is necessary to control acute infectious disease or a public health hazard.

(2) Generally, an individual may be regarded as within the scope of the Indian health and medical service program if he/she is regarded as an Indian by the community in which he/she lives as evidenced by such factors as tribal membership, enrollment, residence on tax-exempt land, ownership of restricted property, active participation in tribal affairs, or other relevant factors in keeping with general Bureau of Indian Affairs practices in the jurisdiction.
