Annual Update to Income Thresholds for Determining Whether a Child or Tax Dependent is Expected to Be Required to File a Tax Return

CROSS REFERENCE

- BadgerCare Plus Eligibility Handbook, [Section 2.8 MAGI Income Counting Rules](#)
- Operations Memos [17-57](#), [18-35](#)

EFFECTIVE DATE

January 1, 2019

PURPOSE

The purpose of this operations memo is to announce annual updates to the income thresholds used under modified adjusted gross income (MAGI) budgeting rules when determining whether a child or tax dependent is expected to be required to file a return.

BACKGROUND

As described in [BadgerCare Plus Eligibility Handbook, Section 2.8 MAGI Income Counting Rules](#), the countable income of all eligible or counted members within a BadgerCare Plus assistance group (AG) is used in the eligibility determination for that AG with one exception:

[I]f a group member is a child or tax dependent of a counted or eligible member within the same assistance group, his or her income is only counted if he or she is “expected to be required” to file a tax return for the current year. If the tax dependent or child chooses to file a tax return when he or she is not required to, his or her income will not be counted. Tax dependents’ and children’s income is only counted when they are “expected to be required” to file a tax return.

Children and tax dependents are only required to file a tax return if they have more taxable income than the filing thresholds set by the Internal Revenue Service each year. On November 16, 2018, the IRS published the 2019 filing thresholds, which will be:

- \$1,100 in taxable unearned income
- \$12,200 in taxable earned income

POLICY

The following thresholds for being expected to file a return for the 2019 tax year are effective January 1, 2019:

- \$1,100 in taxable unearned income
- \$12,200 in taxable earned income

If the child or tax dependent of another member in the same AG expects to have less annual taxable income for 2019 than the amounts indicated above, his or her income is not included in the eligibility determination for the AG.

As a reminder, for purposes of determining whether a child or tax dependent is above the \$1,100 threshold for taxable unearned income, the following should be excluded: child support, Supplemental Security Income (SSI), Social Security, worker's compensation, veterans benefits, money from another person, and educational aid.

Note: Social Security income and educational aid are countable income types even though they are not included when determining if the child or tax dependent is expected to be required to file a tax return. If the child or tax dependent expects to have other income above the thresholds, any Social Security income or countable education aid received by the child or tax dependent would be included in the eligibility determination for any AG in which the child is counted.

These thresholds will continue to be updated on an annual basis.

CARES

CARES Worker Web (CWW), ACCESS, and the verification checklist will be updated on January 1, 2019, to reflect the new thresholds. The paper BadgerCare Plus application will be updated at a future date.

The Tax Filing Details page in CWW will reflect the new thresholds for begin months of January 2019 and later. If the answer to the question, "Will the child/tax dependent earn over ~~\$1,100~~ \$12,200 in earnings or ~~\$12,200~~ \$1,100 in unearned income in the next tax year?" on the Tax Filing Details page is "Yes," CARES will count the income of that child or tax dependent.
