Dear Mr. Blazel and Mr. Queensland:

I am pleased to submit the Wisconsin Department of Health Services (DHS) Annual Report on Rehabilitation Review Requests in accordance with Wis. Stat. § 50.065(5g). As created by 1997 Wisconsin Act 27, this provision established requirements to strengthen protections for children and vulnerable adults in organized care settings. The provisions require, among other things, that designated entities conduct background checks on all new and existing staff and bar them from employing anyone who has committed certain crimes or acts. The Department of Health Services, the Department of Children and Families (DCF) and certain child care providers, counties, and local school boards must perform checks on a provider before issuing a license or other credential. Individuals who have committed prohibited crimes or acts may apply to DHS and/or DCF, counties, or school boards for a waiver of the employment or licensing ban upon evidence of rehabilitation.

Wisconsin Stat. § 50.065(5g) directs DHS to submit an annual report to the legislature that specifies the number of persons who have sought waivers of employment or licensing bans by requesting to demonstrate that they have been rehabilitated. The report must also specify the number of requests that were approved and the reasons for the success or failure of the requests. Attached is the DHS report for 2022.

Questions about this report should be referred to the DHS Chief Legal Counsel Sandra Rowe at 608-266-0355.

Sincerely,

A handwritten signature in black ink, reading "Debra K. Standridge".

Debra K. Standridge  
Deputy Secretary
