

Providing the Latest Health Care Benefit Information to ForwardHealth Members

Some Copays for Medicaid Services Will Start Again on July 1, 2020

Do you normally pay \$1-\$3 at the pharmacy or for health care visits? This payment is called a copay.

From January 1, 2020, to June 30, 2020, you did not have to pay copays for prescriptions or health care services while we made changes to the copay system.

Starting July 1, 2020, you may be asked to pay a copay for Medicaid Services.

There Will Be Limits to the Copay Amount You Pay Each Month

If you have copays, federal law limits the amount you pay for services each month. This limit will be based on your income and who in your household has copays.

Before July 1, 2020, you will get a letter letting you know if you have a copay limit and how much it is.

What Happened:

From January 1, 2020, to June 30, 2020, you did not have to pay copays while we made changes to the copay system.

What Is Happening:

Starting July 1, 2020, you may be asked to pay a copay for Medicaid services.

The information provided in this ForwardHealth Update is published in accordance with Social Security Act §§ 1916 and 1916A.

If you reach your copay limit before the end of the month, we will send you a letter telling you the date you reached your limit. After you reach your limit, you will not have to pay copays the rest of the month after the date listed. You may still have a copay for any prescriptions you filled before the date listed in the letter. If you pay a monthly premium, your premium will also count toward your copay limit.

We will track your copay limits, copays, and premiums. You do not have to take any action unless you disagree with your copay limit amount.

Other Costs

The following costs are not considered copays and do not count toward the copay limit. You will continue to pay these if they apply to you:

- Monthly costs while living in a nursing home
- Costs for services you get through Family Care or other programs that allow someone to live and care for you in your home

We will track your copay limits, copays, and premiums. You do not have to take any action unless you disagree with the copay limit amount.

Groups Without Copays: No More Copays for Children and Former Foster Care Youth

Starting July 1, 2020, children age 18 and younger will not have copays for prescriptions or health care services. Also, any youth who were in foster care on or before their 18th birthday and who enroll in BadgerCare Plus will not have copays until their 26th birthday.

If your child is enrolled in the Children's Long-Term Support Waiver Program, they may stay in the program until they turn 21. Once your child turns 19, they may have copays.

The people in these groups will not have copays:

- Children in foster care
- Children in adoption assistance
- Children in the Katie Beckett program
- American Indians or Alaska Natives of any age or income level who get or have gotten health items or services from an American Indian health care provider or by referral under contract health services
- People getting hospice care

The information provided in this ForwardHealth Update is published in accordance with Social Security Act §§ 1916 and 1916A

- Nursing home residents
- Members enrolled in Wisconsin Well Woman Medicaid
- Members who enroll by Express Enrollment

The information provided in this ForwardHealth Update is published in accordance with Social Security Act §§ 1916 and 1916A.
