

## ENC\_DM\_1.22.8.0 Release Notes

## LTCare Encounter Data Mart Universe

## Purpose/Background

A new 'End Date' object was created for improved ease of use of the reference SPC objects.

## New Data Object

The new 'End Date' object is located in the *Reference > Service Grouping Rules* class folder. The End Date indicates the date the Service Grouping rule was end-dated in the data warehouse. Rules with null end date values are currently active.
