Wisconsin Healthcare Account Quality Management System

Level 3 – LTCare Data Warehouse

DSS/DW – Release Notes FS_ADT_DM_1.24.0.0

Active Flag - Flag that specifies whether or not an account is active.

Certified Screener Flag - Indicates whether a specific user is a certified screener or not. Possible values are 'Y' or 'N'. Only screeners who are certified ('Y') will be able to work on a functional screen.

Old FSIA User ID - This user ID is what the user used to log into the old FSIA application when security was managed by CWA. The field is necessary for user validation when converting old users into the new system.

Previously Accessed Indicator - Indicates whether a user has logged into the FSIA application before or is this the first time (linking their new WAMS account to their old FSIA User ID).

User Type - The type of user.

WAMS Login ID - The WAMS Login ID.

WAMS User ID - The WAMS User ID.

New Screen Entered By Information

(FSIA- XXXX Functional Screen Attributes > XXXX Screener Information -> **XXXX Screen Entered By Information**

- **Active Flag**
- **Certified Screener Flag**
- **Old FSIA User ID**
- **Previously Accessed Indicator**
- **User Type**
- **WAMS Login ID**
- **WAMS User ID**
