DCTS Information Memo 2016-07

To: Subscribers of the DCTS Information Memo Email Distribution List

From: Patrick Cork, Administrator

Survey on Buprenorphine Prescriber Recruitment Practices

The Division of Care and Treatment Services (DCTS) is collaborating with the NIATx Center at UW-Madison to research and improve buprenorphine prescribing capacity in Wisconsin.

The NIATx Center has created a short survey for addiction treatment providers. ([Take the survey.](#)) This is the initial survey for this project. Addiction treatment providers who complete the survey may be eligible to participate in an NIATx technical assistance collaborative and research project to expand buprenorphine prescriber capacity.

UW-Madison will be the only entity to directly observe the survey results and, beyond the level of need expressed for buprenorphine prescribing capacity, the rest of the data will be summarized before being reported to other parties.

For more information, contact Julie Horst at jhorst@wisc.edu or call 608-265-6322.
