DCTS Information Memo 2019-06

To: Subscribers of the DCTS Information Memo Email Distribution List

From: Rose Kleman, Administrator

## Comprehensive Statewide Assessment for Crisis Services

The Department of Health of Services (DHS) wants to better understand the strengths and needs of Wisconsin's crisis intervention system. One part of this effort is a survey of county managers. The Comprehensive Statewide Assessment for Crisis Services survey is for county human services directors, county behavioral health managers, and county crisis supervisors. Area Administration staff will contact each county by November 6, 2019, with information on how to take the survey. County staff will have until November 18, 2019, to complete the survey. It is important that each county provide responses to the survey questions. Area Administration staff also will contact each county to carry-out follow-up activities to wrap-up the survey process.

The data collected through this survey process will be analyzed by the Division of Care and Treatment Services and presented to the Crisis Services Workgroup, a group studying Wisconsin's crisis intervention system that includes staff from the Division of Care and Treatment Services and representatives from the Wisconsin County Human Service Association.

A report on the survey results will be published to the DHS website in early 2020.
