¹I/DD = Intellectual Disability or Developmental Disability

²FE = Frail Elderly

³PD = Physical Disability

On January 9, 2017, the Department of Health Services (DHS) implemented an enhancement to the Adult Long Term Care Functional Screen (LTCFS) known as target group automation. This enhancement created updated logic for target group determinations. As part of this process, DHS decided to change the way that it assigned a target group for people with physical disabilities (PD) age 65 or older. Those individuals are now assigned to the frail elder (FE) target group in the LTCFS. This reassignment occurs at the time functional eligibility is calculated or recalculated on or after January 9, 2017.

Over the course of 2017, all people who have a physical disability and are age 65 or older will be assigned to the FE target group. The data in the enrollment report has started to reflect this change with the PD target group numbers decreasing while the FE numbers increase. People in the intellectual/developmental disability (I/DD) target group remain in the I/DD target group regardless of age.
