Number	Indicator	Response
<b>BX.1</b>	<p><b>Payment risks between the state and plans</b></p> <p>Describe service-specific or other focused PI activities that the state conducted during the past year in this managed care program. Examples include analyses focused on use of long-term services and supports (LTSS) or prescription drugs or activities that focused on specific payment issues to identify, address, and prevent fraud, waste or abuse. Consider data analytics, reviews of under/overutilization, and other activities. If no PI activities were performed, enter "No PI activities were performed during the reporting period" as your response. "N/A" is not an acceptable response.</p>	<p>Capitation payments against date of death reviews are completed. EVV soft launch to allow home visit supportive home care and personal care worker time validation. Will not conduct actual audits until hard launch and vendor compliance requirements are in place. Other data analytics and reviews will be implemented after the DHS MLTSS system rewrite that is in process goes live. Once implemented there will be the ability to scrub the data for targeted anomalies.</p>
<b>BX.2</b>	<p><b>Contract standard for overpayments</b></p> <p>Does the state allow plans to retain overpayments, require the return of overpayments, or has established a hybrid system? Select one.</p>	<p>State has established a hybrid system</p>
<b>BX.3</b>	<p><b>Location of contract provision stating overpayment standard</b></p> <p>Describe where the overpayment standard in the previous indicator is located in plan contracts, as required by 42 CFR 438.608(d)(1)(i).</p>	<p>Art. VIII.D.30, Art XIII.K.1.g, Art XIV.B.4, Art XIV.F.5.c., Art XIV.C.6.g, XVII.B.4</p>
<b>BX.4</b>	<p><b>Description of overpayment contract standard</b></p> <p>Briefly describe the overpayment standard (for example, details on whether the state allows plans to retain overpayments, requires the plans to return overpayments, or administers a hybrid system) selected in indicator B.X.2.</p>	<p>Include in Program Integrity Quarterly Reporting overpayments recovered and retained by MCO versus those returned to the SMA because the plan is not permitted to retain them, and identify those due to potential fraud.</p>
<b>BX.5</b>	<p><b>State overpayment reporting monitoring</b></p>	<p>The SMA tracks satisfaction and timeliness of compliance with the reporting requirements.</p>

Describe how the state monitors plan performance in reporting overpayments to the state, e.g. does the state track compliance with this requirement and/or timeliness of reporting?

The regulations at 438.604(a)(7), 608(a)(2) and 608(a)(3) require plan reporting to the state on various overpayment topics (whether annually or promptly). This indicator is asking the state how it monitors that reporting.

---

**BX.6**

**Changes in beneficiary circumstances**

Describe how the state ensures timely and accurate reconciliation of enrollment files between the state and plans to ensure appropriate payments for enrollees experiencing a change in status (e.g., incarcerated, deceased, switching plans).

This is an automated function in the Forward Health System and used to produce the monthly capitation. The plan reports enrollment changes such as deaths, incarcerations, and disenrollments to the local income maintenance agency. The data is updated in the system which then updates the SMA MMIS program to produce Capitation payments and capitation adjustments. Updates to the enrollee's functional screen and annual financial eligibility reviews or as required updates are used to maintain accurate enrollment records in the SMA MMIS

## **Topic V. Availability, Accessibility and Network Adequacy**

### **Network Adequacy**

Number	Indicator	Response
C1V.1	<p><b>Gaps/challenges in network adequacy</b></p> <p>What are the state's biggest challenges? Describe any challenges MCPs have maintaining adequate networks and meeting access standards. If the state and MCPs did not encounter any challenges, please enter "No challenges were encountered" as your response. "N/A" is not an acceptable response.</p>	Two of the main challenges are limited numbers of providers in rural regions/counties, and the caregiver workforce shortage.
C1V.2	<p><b>State response to gaps in network adequacy</b></p> <p>How does the state work with MCPs to address gaps in network adequacy?</p>	<p>MCPs provided explanations on similar services that can be provided to meet member needs. For the caregiver workforce shortage, there have been rate increases provided through state and federal assistance with ARPA. The state has implemented the Wiscaregiver career program which prepares job seekers to enter the caregiving workforce. The program teaches essential skills that direct care workers can use from one employer to another without the need for re-training. This will help employers officially recognize workers' skills and will help professionalize their career. The goal is to certify at least 10,000 new workers in the profession of direct care.</p>

## **Access Measures**

Describe the measures the state uses to monitor availability, accessibility, and network adequacy. Report at the program level.

Revisions to the Medicaid managed care regulations in 2016 and 2020 built on existing requirements that managed care plans maintain provider networks sufficient to ensure adequate access to covered services by: (1) requiring states to develop quantitative network adequacy standards for at least eight specified provider types if covered under the contract, and to make these standards available online; (2) strengthening network adequacy monitoring requirements; and (3) addressing the needs of people with long-term care service needs (42 CFR 438.66; 42 CFR 438.68).

42 CFR 438.66(e) specifies that the MCPAR must provide information on and an assessment of the availability and accessibility of covered services within the MCO, PHIP, or PAHP contracts, including network adequacy standards for each managed care program.

An appeal is “resolved” at the plan level when the plan has issued a decision, regardless of whether the decision was wholly or partially favorable or adverse to the beneficiary, and regardless of whether the beneficiary (or the beneficiary’s representative) chooses to file a request for a State Fair Hearing or External Medical Review.	<b>Community Care, Inc. reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, enter “N/A”.

The appeal and critical incident do not have to have been “related” to the same issue - they only need to have been filed by (or on behalf of) the same enrollee. Neither the critical incident nor the appeal need to have been filed in relation to delivery of LTSS — they may have been filed for any reason, related to any service received (or desired) by an LTSS user.

To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those enrollees had filed an appeal during the reporting year, and whether the filing of the appeal preceded the filing of the critical incident.

of critical incidents filed within the reporting year by (or on behalf of) LTSS users who previously filed grievances in the reporting year. The grievance and critical incident do not have to have been “related” to the same issue - they only need to have been filed by (or on behalf of) the same enrollee. Neither the critical incident nor the grievance need to have been filed in relation to delivery of LTSS - they may have been filed for any reason, related to any service received (or desired) by an LTSS user.

If the managed care plan does not cover LTSS, the state should enter “N/A” in this field.

Additionally, if the state already submitted this data for the reporting year via the CMS readiness review appeal and grievance report (because the managed care program or plan were new or serving new populations during the reporting year), and the readiness review tool was submitted for at least 6 months of the reporting year, the state can enter “N/A” in this field.

To calculate this number, states or managed care plans should first identify the LTSS users for whom critical incidents were filed during the reporting year, then determine whether those enrollees had filed a grievance during the reporting year, and whether the filing of the grievance preceded the filing of the critical incident.
