Each year schools must report to the local health department the aggregate compliance total, by school, on or before the 40th school day.

Instructions and Compliance Definitions for School Report to Local Health Departments

Section A: Identification of School						
<p>Each School Report to Local Health Department should include the aggregate results for only one school. Each school has a unique identification number assigned by DPI. That unique identification number is represented by two codes: the LEA code (which is also the district code) and the DPI school code. Therefore, each School Report to Local Health Department should include results for only one LEA code-school code combination. In Section A, please report both the DPI LEA (district) code and the DPI school code for this school. Please note that both codes are each 4 digits long, including leading zeros. You can search for your school's codes using the following links.</p> <ul style="list-style-type: none"> • Public schools: https://apps4.dpi.wi.gov/SchoolDirectory/Search/PublicSchoolsSearch • Private schools: https://apps4.dpi.wi.gov/SchoolDirectory/Search/PrivateSchoolsSearch <p>In the "search text" field, type all or part of the name of your school. Private school search results will immediately include the LEA (district) code and the school code. These are the codes that should be entered in Section A.</p> <p>When public schools search for their name, they will immediately see the school code. However, to view the LEA (district) code, public schools will need to click on the name of the school.</p>
