

SYMPTOMATIC URINARY TRACT INFECTION (SUTI) IN LTCF (NON-CATHETER-ASSOCIATED – CRITERIA 3a)(NHSN LTCF UTI protocol <http://www.cdc.gov/nhsn/pdfs/ltc/lcf-uti-protocol-current.pdf>)

Resident Name		Record No.									
Date of Admission	Date of Review	Date of Event (First signs/symptoms, or specimen collection date, whichever is first)									
<input type="checkbox"/> Signs and symptoms of UTI develop > 2 calendar days after admission.											
<input type="checkbox"/> Resident does not have an indwelling urinary catheter in place, nor was it removed within the 2 calendar days prior to date of event.											
AND											
Resident has at least two of the following signs and symptoms (new and/or marked increase):											
<input type="checkbox"/> <table style="width: 100%; border: none;"> <tr> <td style="width: 33%;"><input type="checkbox"/> Costovertebral angle pain or tenderness</td> <td style="width: 33%;"><input type="checkbox"/> Incontinence</td> <td style="width: 33%;"></td> </tr> <tr> <td><input type="checkbox"/> Suprapubic tenderness</td> <td><input type="checkbox"/> Urgency</td> <td></td> </tr> <tr> <td><input type="checkbox"/> Visible (gross) hematuria</td> <td><input type="checkbox"/> Frequency</td> <td></td> </tr> </table>			<input type="checkbox"/> Costovertebral angle pain or tenderness	<input type="checkbox"/> Incontinence		<input type="checkbox"/> Suprapubic tenderness	<input type="checkbox"/> Urgency		<input type="checkbox"/> Visible (gross) hematuria	<input type="checkbox"/> Frequency	
<input type="checkbox"/> Costovertebral angle pain or tenderness	<input type="checkbox"/> Incontinence										
<input type="checkbox"/> Suprapubic tenderness	<input type="checkbox"/> Urgency										
<input type="checkbox"/> Visible (gross) hematuria	<input type="checkbox"/> Frequency										
AND											
At least one of the following laboratory results:											
<input type="checkbox"/> <table style="width: 100%; border: none;"> <tr> <td style="width: 50%;"><input type="checkbox"/> Voided urine culture with no more than 2 species of microorganisms, at least one of which is a bacteria of $\geq 10^5$ CFU/ml</td> <td style="width: 50%;"></td> </tr> <tr> <td><input type="checkbox"/> Positive culture from straight in/out catheter specimen with any number of microorganisms, at least one of which is a bacteria of $\geq 10^2$ CFU/ml</td> <td></td> </tr> </table>			<input type="checkbox"/> Voided urine culture with no more than 2 species of microorganisms, at least one of which is a bacteria of $\geq 10^5$ CFU/ml		<input type="checkbox"/> Positive culture from straight in/out catheter specimen with any number of microorganisms, at least one of which is a bacteria of $\geq 10^2$ CFU/ml						
<input type="checkbox"/> Voided urine culture with no more than 2 species of microorganisms, at least one of which is a bacteria of $\geq 10^5$ CFU/ml											
<input type="checkbox"/> Positive culture from straight in/out catheter specimen with any number of microorganisms, at least one of which is a bacteria of $\geq 10^2$ CFU/ml
