SECTION C: Laboratory Test(s) Related to Diagnosis: Use a single line to report information on each test. There is enough space to report four results on each case report form. If reporting more than four positive tests on the same individual, use an additional form and attach it to the original form.

Test Type(s): Indicate the type of test used to confirm diagnosis. Example: (GC-LCR, CT-EIA, GC-AMA VDRL, FTA-ABS)

Specimen source: Indicate anatomical specimen collection site. Example: (Cervix, urethra, blood, or urine)
