IV. ADDITIONAL STANDARDS FOR ADULT DAY CARE PROGRAMS LOCATED IN A MULTI-USE FACILITY

To assure that adult day care programs are community based, the following goal and standards have been developed for programs which are part of multi-use facilities.

GOAL: The adult day care setting is typical of or strongly resembles the locations where adults in that community customarily congregate for social, recreational or association activities (e.g., clubs, church halls, private homes, lodges, restaurants). The building is consistent with the environment in terms of size, architectural style and type (urban vs. rural) and would be attractive and inviting to members of that community. The setting, programs and physical environment will enhance the dignity and individual respect of participants.

ARE LOCATED). THERE ARE NO EXCEPTIONS TO THE FOLLOWING CRITERIA.				
(1) External Setting				
(a) Names, location, signage and promotional materials connote a community-based program rather than a health care facility or institution;				
(b) Access to the nursing home and access to the day care program must be distinct, that is, have separate entrances (this would not preclude a shared lobby as long as neither nursing home residents nor day care participants infringe on others' program/living areas); and				
(c) Adult day care participants do not share outdoor space at the same time as nursing home residents are using the space.				
(2) Interior Setting				
(a) Decor and furnishings reflect non-institutional settings, home-like or club-like (such as a senior center or community center) or a hospitality service (resort or lodge);				
(b) Decor and activities are age appropriate;				
(c) Staff wear street clothes, not uniforms, unless performing medical procedures (as is common practice in facilities, not connected to a nursing home);				
(d) Adult day care program space shall be separate from living areas, shall be in addition to space required for other programs, and shall meet the requirements of III.D.(4) and (5); and				
(e) Spaces designated for program activities, toileting and exercise / ambulation are distinctly part of the adult day care area and limited to use by the adult day care participants. Adult day care participants may be provided personal care (bathing, grooming, other hands-on assistance) or therapy in space also used by nursing home residents provided that the adult day care services are scheduled at different times from nursing home residents.				
(3) Integrity of the Adult Day Care Program				
(a) Day care participants have separate dining facilities from the nursing home residents;				
(b) Activities are unique to the adult day care program and are not part of the calendar of events and activities planned for the nursing facility;				
(c) Transportation for adult day care participants is provided separately from that provided to nursing home residents (unless the transportation is contacted through another entity);				

STANDARD	COMPLIANCE			COMMENTS
	Yes	No	N/A	
(d) The sharing of staff is included in the adult day care program statement;				
(e) On a routine basis, separate staff are maintained both by the day care program and nursing facility. No staff member may be concurrently assigned to the program and nursing facility (day care staff have only day care participants as their responsibility during their hours of day care assignment). Nursing home staff assigned to the day care program meet requirements in II. and have been trained and oriented in accordance with II.D;				
(f) Staff are permanently assigned to adult day care to allow development and continuity of relationships and are not rotated on a routine basis to service in the nursing home;				
(g) Staff are trained in and the program is directed towards promotion of participant independence. Adaptive equipment is used to enable individuals to function as independently as possible;				
(h) The adult day care program is responsive to the family/caregiver needs including such things as information, referrals, assistance with home care or respite arrangements, hours of service to meet caregiver need, etc.; and				
(i) The program staff are directed to work cooperatively with community care managers, including: responding to needs identified in the assessment and care plan, communicating information with care manager, responding to consumer satisfaction feedback, adjusting individualized day care services to be responsive to a comprehensive care package.				
(4) Community Interaction. This section provides examples to further explain the intent of Program Services (I.D.).				
(a) Participants join in community activities outside of the day care center on at least a bi-monthly basis; in addition to any "special" community activities;				
(b) Community residents are involved in day care center activities, at least bi-monthly, e.g., intergenerational activities, hosting local group meetings;				
(c) Activities available provide ample opportunity to express an individual's personality and interests (see I.C. and I.D.); and				
(d) Opportunities are provided to sustain or reclaim community involvement identified in the individualized assessment and designated in the service plan (e.g., banking, hair care, health, laundry care, shopping, dining out) as being important to the individual.				

STANDARD	COMPLIANCE			COMMENTS

(2) The evaluation process shall include: a review of the existing program; survey results from participants, families, and referral sources; program modification that responded to changing needs of participants; and proposed program and administrative improvements. A written report which summarizes the evaluation findings, improvement goals and implementation plan shall remain on file at the site.				
VI. LAWS AND CODES				
(1) Non-compliance with any federal, state, and local laws/codes that govern the operation of the facility, including, but not limited to, space, heating, plumbing, ventilation and lighting systems, fire safety, sanitation and wage and hour requirements may result in revocation of certification.

(3) Non-compliance with these standards may result in revocation of certification and ineligibility for Medicaid Waiver funds.				
VII. EXCEPTIONS/VARIANCES TO THE STANDARDS

A request for an exception or variance shall be in writing, shall be sent to the Department of Health Services and shall include justifications for the requested action and a description of any provisions planned to meet the intent of the standard.
