

Year 2015 Template Objectives for Immunization

Legend

A Objective Statement	D Input Activities	G For Your Information
B Deliverable	E Base Line for Measurement	
C Context	F Data Source for Measurement	

1.

A. Tribal Template Objective

By September 30, 2015, xx% children residing in (insert name of tribe) jurisdiction who turn 24 months of age during the contract year will complete 4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hepatitis B, 1 Varicella and 4 Pneumococcal Conjugate (PCV) vaccination by their second birthday.

- B. A Wisconsin Immunization Registry (WIR) generated population based standard benchmark report documenting the number of children in (insert name of tribe) jurisdiction who turned 24 months of age in 2015 contract year. Reports should be run with a 45 day buffer to ensure that all updated data has been received by the WIR. If the objective is not met, include a report of the accountability targets and the progress achieved including the activities and interventions conducted; include any barriers that may have been identified.

For your information the cohort of children for this objective is:

Date of Birth 10/01/2012 - 09/30/2013

Criteria for the 2015 End of the Year Report:

The date of birth for End of Year Benchmark: 10/01/2012 - 09/30/2013

Evaluation date: 10/01/2015

Run date: 11/15/2015

- C. Children will be assessed using the standard benchmark report for having 4 DTaP, 3 Polio, 1 MMR, 3 Hib 3 Hepatitis B, 1 varicella and 4 Pneumococcal Conjugate (PCV) vaccination by 24 months of age. Progress towards reaching 90% will be measured using a WIR Benchmark report. Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that a child has moved out of your jurisdiction, you cannot remove them from your cohort.

Guidelines for determining increase needed for progress towards 2015 goals:

2013 Calendar Year Baseline Required Increase:

50-59% - 5% Above Baseline;

60-69% - 4% Above Baseline;

70-79% - 3% Above Baseline;

80-85% - 2% Above Baseline;

86-89% - 1% Above Baseline;

> 90 - Maintain.

Agencies should consult with their Regional Immunization Program Advisor for assistance in determining activities and interventions that will help them achieve the required increase for their population assessment.

C.

- D. The Wisconsin Immunization Program recommends the following activities to help ensure success of this objective:

Year 2015 Template Objectives for Immunization

Legend

A Objective Statement	D Input Activities	G For Your Information
B Deliverable	E Base Line for Measurement	
C Context	F Data Source for Measurement	

- Contacting parents of infants without immunization histories
- Tracking
- Coordination of immunization services with other LHD programs
- Sharing information with area physicians
- Requesting that information is entered into the WIR.
- Reminder/recall

The Wisconsin Immunization Program requires a minimum of 3 attempts to personally contact a responsible party.

Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that a child has moved out of your jurisdiction you cannot remove them from your cohort.

Reminder/recall activity is not listed in a particular order and we suggest you use the method that is the most successful for your community:

- Letter
- Phone call
- Home visit
- Email
- Text message

Additional interventions/activities are in an addendum to the Immunization Program Boundary Statement. These are suggested interventions/activities that LHD's may want to consider in order to achieve this objective.

- E. The 2013 end of year population based standard benchmark report will be used to determine the baseline for the 2015 population based objective.

For the baseline the following parameters will be used to run the benchmark report:

Birthdate Range: 10/01/2010 through 9/30/2011

Evaluation Date: 10/01/2013

Run Date: After 11/15/2013

- F. Wisconsin Immunization Registry Records.

- G. Criteria for the Mid-Year Report:

There will not be a mid-year review for 2015. The criteria below are provided for those who choose to run a mid-year benchmark.

The date of birth for Mid-Year Benchmark: 10/01/2012 - 03/31/2013

Evaluation date: 04/01/2015

Run date: 04/01/2015

2.

A. LHD Template Objective

By December 31, 2015, xx% children residing in (insert health department) jurisdiction who turn 24 months of age during the contract year will complete 4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hepatitis B, 1 Varicella and 4 Pneumococcal Conjugate (PCV) vaccination by their second birthday.

- B. A Wisconsin Immunization Registry (WIR) generated population based standard benchmark report documenting the number of children in (insert health department) jurisdiction who turned 24 months of age in 2015 contract year. Reports should be run with a 45 day buffer to ensure that all updated data has been received by the WIR. If the objective is not met, include a report of the accountability targets and the progress achieved including the activities and interventions conducted; include any barriers that may have been identified.

For your information the cohort of children for this objective is:

Date of Birth 01/01/2013- 12/31/2013

Criteria for the 2015 End of the Year Report:

The date of birth for End of Year Benchmark: 01/01/2013 - 12/31/2013

Evaluation date: 01/01/2016

Run date: 02/15/2016

- C. Children will be assessed using the standard benchmark report for having 4 DTaP, 3 Polio, 1 MMR, 3 Hib 3 Hepatitis B, 1 varicella and 4 Pneumococcal Conjugate (PCV) vaccination by 24 months of age. Progress towards reaching 90% will be measured using a WIR Benchmark report. Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that a child has moved out of your jurisdiction, you cannot remove them from your cohort.
