Contract Objective Details - Complete

Contract #: 24160

Agency: Franklin Health Department

Contract Year: 2014

Program: Preventive Health and Health Services
Block Grant 2013-2015

Objective #: 1 of 2

Objective Value: \$580

Objective: Primary Details

Objective Statement (Template Objective)

Template Objective 9- National Public Health Standards

By August 31, 2015, City of Franklin Health Department will conduct one activity to prepare for voluntary accreditation by conducting a Quality Improvement project.

Deliverable Due Date: 10/31/2015

Contract Deliverable (Evidence)

A report entered into an electronic data collection tool that describes:

1. Strategies implemented and outcomes measured
2. Challenges or barriers to success
3. Actions to address challenges
4. If Prevention funded activities were used to obtain additional funding, donations or in-kind contributions

Programs Providing Funds for this Objective

Preventive Health and Health Services Block Grant 2013-2015: \$580

Agency Funds for this Objective:

Data Source for Measurement

Agency report to be entered into an electronic data collection tool to be provided by the WI Division of Public Health.

Baseline for Measurement

This is a new initiative. Baseline data will be derived from the WI Immunization Registry. A target population will be selected as part of the quality improvement project.

Context

Voluntary Accreditation is not currently a long-term goal in the Franklin Health Department. However, Quality Improvement training was recently completed by the health department staff. In addition, continuous quality improvement processes have been identified as a best practice by the National Public Health Accreditation Board. The health department staff will identify an achievable and measurable improvement project in a performance area in order to improve the health of the community. The project may include community immunization rates and focus on implementation of the AFIX model which the DHS Immunization Program is promoting.

Context Continued

Input Activities

Local public health agencies selecting this objective will conduct one of the following activities to prepare for voluntary accreditation by conducting a Quality Improvement project

Objective Statement (Template Objective)

Template Objective 13- Injury Prevention

By August 31, 2015, the City of Franklin Health Department will implement one evidence based strategies to prevent or reduce injuries.

Deliverable Due Date: 10/31/2015

Contract Deliverable (Evidence)

A report entered into an electronic data collection tool that describes:

1. Strategies implemented and outcomes measured
2. Challenges or barriers to success
3. Actions to address challenges
4. If Prevention funded activities were used to obtain additional funding, donations or in-kind contributions

Programs Providing Funds for this Objective

Preventive Health and Health Services Block Grant 2013-2015: \$1,540

Agency Funds for this Objective:

Data Source for Measurement

Agency report to be entered into an electronic data collection tool to be provided by the WI Division of Public Health.

The Franklin Health Department will enter a report into an electronic data collection tool to be provided by the WI Division of Public Health.

Baseline for Measurement

In 2012 182 children participated in the helmet/bike rodeo event.

In 2013 150 children registered for the helmet/bike rodeo event which has cancelled due to in climate weather. 95 children attended the re-scheduled helmet/bike rodeo event.

In 2014 152 children attended the helmet/bike rodeo event.

Context

Describe why this objective was chosen and the expected outcome measure(s).

The injury prevention strategy chosen is a bicycle helmet event. The City of Franklin Health Department has taken the lead role and collaborated with the Franklin Police Department as well as community partners to conduct an annual bike rodeo for the several years. Part of the bike rodeo is a bike helmet for children participants. In addition, each bike will be checked for functional safety and the children participates in a skills course where 6-9 biking skills are taught, demonstrated, and practiced with the children. The goal of 150 elementary school-aged participants has been established by the planning committee for the June 6, 2015 event. There are approximately 2,000 elementary aged children in the City of Franklin.

Agency: Franklin Health Department

Contract Year: 2014

Program: Preventive Health and Health Services
Block Grant 2013-2015

Objective #: 2 of 2

Objective Value: \$1,540

Context Continued

The Wisconsin Department of Health reports that bicycle helmet use saves \$29 for every \$1 spent on helmet use. In Wisconsin, unintentional injury, including bicycle accidents, is the leading cause of death for ages 1-34 years. The Wisconsin Department of Transportation reported that in 2011, bicycles were involved in 950 crashes including injuries and twelve deaths. Bike crashes account for approximately 1% of total crashes

Input Activities

The Franklin Health Department will be the lead agency to plan, promote conduct, and evaluate a bike helmet event during the Spring or Summer of 2015. The health department will also engage community partners to collaborate on this community injury prevention event. [Evidence suggests that strong partnerships create strong communities.]

CDC strongly encourages Preventive Health and Health Services Block Grant funds be used only on evidence based strategies, best practices or promising practices. Describe the strategies/practices to be used and identify the associated web links as available. Potential links to strategies for this objective include but are not limited to:
