Objective Statement (Template Objective)

Template Objective 13- Injury Prevention

By August 31, 2015, Iron County Health Department will implement two (2) evidence based strategies to prevent or reduce injuries. These will include bike safety and water safety.

Deliverable Due Date: 10/31/2015

Contract Deliverable (Evidence)

A report entered into an electronic data collection tool that describes:

1. Strategies implemented and outcomes measured
2. Challenges or barriers to success

Agency Funds for this Objective:

Data Source for Measurement

Agency report to be entered into an electronic data collection tool to be provided by the WI Division of Public Health.

Baseline for Measurement

Water safety/life jackets is a new initiative and bike safety is a long standing program. 50 life jackets will be given out and children and parents will be offered water safety programming. 100 helmets will be given out to head start, kindergarten and 3rd grade students in Iron County along with bike safety programming by a certified law enforcement officer.

Context

The Iron County Health Department has been partnering with the schools, law enforcement, and Dairy Queen to offer this evidence-based safety program since the 1990's. Program evaluations document parental approval of this program and evidence that children wear the helmets they receive after the program.

The Mercer Lions/Lioness approached me to partner with them to provide water safety training and life jackets to children this summer. I have contacted the DNR and they will partner with us to provide the safety education.

Context Continued

Input Activities

The ICHD in collaboration with local partners will offer a bike safety program for children this spring and a water safety program this summer.
