#### Context

The 2 evidence based strategies that will be implemented in Jackson County include expanding QPR to seniors and carrying out a mindfulness curriculum in at least 1 JC school. QPR training has been implemented with all teachers and high school students in 2 of the high schools in Jackson County. One additional school has had all teachers trained, however students have not yet been trained but the intention is to train them in the near future. As QPR training has not really gone beyond youth it is the intention of the Health Department and the community to expand this to Seniors in the community as persons over 55 have a high rate of suicide in Jackson County. This will begin in 2015.

Mindfulness training will be implemented due to the request of youth during QPR classes to assist them and their families with understanding how to cope and the need to provide coping skills. Taking Care of You is one mindfulness curriculum that has been implemented in a few schools in WI and one that we are hoping to implement in Jackson County.
