2014 DPH Consolidated Contract Addendum

This contract addendum is specific to North Shore Health Department whose principal business address is 4800 West Green Brook Drive, Brown Deer WI, 53129. The contact for the GRANTEES Contract Administrator is:

Jamie Berg
4800 West Green Brook Drive
Brown Deer WI, 53129

Telephone: 414/ 371-2980
Fax: 414/ 371-2988
E-mail: jberg@browndeerwi.org

Section 6.D Funding Controls

Payments through June 30, 2014 are limited to 6/12th of the contract with the balance paid after July 1, 2014 based on reported costs up to the contract level. This applies only to the following Profile IDs:

Profile IDs Subject to 6/12 th Funding Controls			
Profile ID	Name	Profile ID	Name
103010	Regional Radon Information Centers	157720	Childhood Lead
151734	Oral Health Supplement	159320	MCH
151735	Oral Health Mouth Rinse	159321	Reproductive Health
152002	Reproductive Health SLOH	159327	Family Planning
152020	Family Health-Women's	181012	Tobacco Prevention & Control Program
157000	WWWP		

Payments through September 30, 2014 are limited to 9/12th of the contract with the balance paid after October 1, 2014 based on reported costs up to the contract level. This applies only to Profile ID 154710.

Section 34.A Special Provisions

1. Contract Period

The contract period for Profile 159220 is limited to January 1, 2014 through August 31, 2014. No expenses incurred after August 31, 2014 will be reimbursed. The contract period for all other Profile IDs is January 1, 2014 through December 31, 2014.

2. Final Report Dates

The due date of the final fiscal report for Profile 154710 shall be sixty (60) days after the Grant Agreement Period ending date. Expenses incurred during the Grant Agreement period on Profile 154710, but reported later than sixty (60) days after the period ending date, will not be recognized, allowed or reimbursed under the terms of this Grant Agreement.

Contract Agreement Addendum: Exhibit I

Program Quality Criteria

Generally high program quality criteria for the delivery of quality and cost-effective administration of health care programs have been, and will continue to be, required in each public health program to be operated under the terms of this contract.

This Exhibit contains only applicable quality criteria for this contract.

Contract Agreement Addendum: Exhibit I

Contract #: 24186

Agency: North Shore Health Department

Contract Year: 2014

Program: Preventive Health and Health Services Block Grant Program Quality Criteria

- 1) Assessment and surveillance of public health to identify community needs and to support systematic, competent program planning and sound policy development with activities focused at both the individual and community levels.
 - A) Involvement of key policymakers and the general public in the development of comprehensive public health plans.
 - B) Development and implementation of a plan to address issues related to access to high priority public health services for every member of the community.
 - C) Identification of the scientific basis (evidence base) for the intervention.
- 2) Delivery of public health services to citizens by qualified health professionals in a manner that is family centered, culturally competent, and consistent with the best practices; and delivery of public health programs for communities for the improvement of health status.
 - A) There are no separate sub-criterion to this Quality Criteria Category.
- 3) Record keeping for individual focused services that assures documentation and tracking of client health care needs, response to known health care problems on a timely basis, and confidentiality of client information.
 - A) There are no separate sub-criterion to this Quality Criteria Category.
- 4) Information, education, and outreach programs intended to address known health risks in the general and certain target populations to encourage appropriate decision making by those at risk and to affect policy and environmental changes at the community level.
 - A) Provision of public information and education, and/or outreach activities focused on high-risk populations that increase awareness of disease risks, environmental health risks, and appropriate preventive activities.
 - B) Provision of public information and education and/or outreach activities should utilize strategies that have a scientific basis (best-practices) for delivery methods to assure maximum impact on the selected population.
 - C) All materials produced with PHHS Block Grant funds must include the following statement: "This publication was made possible by the PHHS Block Grant from the Centers for Disease Control and Prevention."
- 5) Coordination with related programs to assure that identified public health needs are addressed in a comprehensive, cost-effective manner across programs and throughout the community.
 - A) There are no separate sub-criterion to this Quality Criteria Category.
- 6) A referral network sufficient to assure the accessibility and timely provision of services to address identified public health care needs.
 - A) There are no separate sub-criterion to this Quality Criteria Category.
- 7) Provision of guidance to staff through program and policy manuals and other means sufficient to assure quality health care and cost-effective program administration.
 - A) Provision of written policy and program information about the current guidelines, standards, and recommendations for community and/or clinical preventive care.

Contract Agreement Addendum: Exhibit I

Contract #: 24186

Agency: North Shore Health Department

Contract Year: 2014

- 8) Financial management practices sufficient to assure accurate eligibility determination, appropriate use of state and federal funds, prompt and accurate billing and payment for services provided and purchased, accurate expenditure reporting, and, when required, pursuit of third-party insurance and Medical Assistance Program coverage of services provided.
 - A) Program-specific data collection, analysis, and reporting to assure program outcome goals are met or to identify program management problems that need to be addressed.
- 9) Data collection, analysis, and reporting to assure program outcome goals are met or to identify program management problems that need to be addressed.
 - A) There are no separate sub-criterion to this Quality Criteria Category.

Total of Contract Statement Of Work Values	\$0

Contract Agreement Addendum: Exhibit II(B)

Contract #: 24186

Agency: North Shore Health Department

Contract Year: 2014

Program: Childhood Lead Consolidated

Objective #: 1 of 1

Objective Value: \$2,532

Objective: Primary Details

Objective Statement

Template Objective 1

By December 31, 2014, 940 children at risk for lead poisoning who reside in the jurisdictions of the North Shore Health Department will receive an age-appropriate blood lead test.

Deliverable Due Date: 01/31/2015

Contract Deliverable (Evidence)

A report to document the number of unduplicated children at risk for lead poisoning residing in the jurisdictions of the North Shore Health Department who received a blood lead test at the appropriate ages: age 1 and age 2, or, if no prior test was done at age 1 or 2, between the ages 3 to 5.

Programs Providing Funds for this Objective

Childhood Lead Consolidated: \$2,532

Agency Funds for this Objective:

Data Source for Measurement

An agency-generated report; or a SPHERE Individual/Household Report, including information from the Lead-testing screen.

Baseline for Measurement

The number of tests done in 2012 or the year-to-date 2013 target population.

Context

Acceptable value for this objective is up to \$18 per blood lead test. Children at highest risk for lead poisoning are those eligible or enrolled in the Medicaid or WIC Program, those living or spending time in pre-1950 housing or pre-1978 housing that is undergoing renovation, or those with a sibling with lead poisoning. Age appropriate blood lead tests are done at around 12 months and around 24 months, or at least once between the ages of 3 to 5 years if the child has no previous test documented. Local health departments should seek third party reimbursement for testing Medicaid-enrolled children by billing Medicaid fee-for-service or the appropriate managed care organization. See new reference: CDC Advisory Committee on Childhood Lead Poisoning Prevention (ACCLPP) ; ;Low Level Lead Exposure Harms Children: A Renewed Call for Primary Prevention; (http://www.cdc.gov/nceh/lead/ACCLPP/Final_Document_030712.pdf, CDC, January 4, 2012) and the WCLPPP Handbook for Local Health Departments (<http://www.dhs.wisconsin.gov/lead/doc/WCLPPPHandbook.pdf>, 2002).

Context Continued

Input Activities

Blood lead levels will be done at the North Shore Health Department on children up to age five. The North Shore Health Department will do follow-up on all children who have elevated blood lead levels (5 mg/dL or higher), and lead hazard investigations will be done in homes of children who have blood lead levels over 10 mg/dL. Follow-up will be done with children, whether they were tested at the health department or at a different location. The majority of our housing is pre-1950, so the North Shore Health Department will encourage parents with young children to be tested. North Shore Health Department will also have available a HEPA vacuum for residents to use. In addition, we will be following up on complaints about contractors improperly removing potential lead paint from either the interior or exterior of properties.

Objective: Risk Profile

Objective Value: \$2,532

Conditions of Eligibility for an Incentive

--

Contract Agreement Addendum: Exhibit II(B)

Contract #: 24186
Program: Immunization

Agency: North Shore Health Department
Objective #: 1 of 1

Contract Year: 2014
Objective Value: \$13,253

Objective: Primary Details

Objective Statement

LHD Template Objective

By December 31, 2014, 65% children residing in the jurisdictions of the North Shore Health Department who turn 24 months of age during the contract year will complete 4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hepatitis B, 1 Varicella and 4 Pneumococcal Conjugate (PCV) vaccination by their second birthday.

Deliverable Due Date: 01/31/2015

Contract Deliverable (Evidence)

A Wisconsin Immunization Registry (WIR) generated population based standard benchmark report documenting the number of children in the jurisdictions of the North Shore Health Department who turned 24 months of age in 2014 contract year. Reports should be run with a 45 day buffer to ensure that all updated data has been received by the WIR. If the objective is not met, include a report of the accountability targets and the progress achieved including the activities and interventions conducted; include any barriers that may have been identified.

For your information the cohort of children for this objective is:

Date of Birth 01/01/2012- 12/31/2012

Criteria for the 2014 End of the Year Report:

The date of birth for End of Year Benchmark: 01/01/2012 ; 12/31/2012

Evaluation date: 01/01/2015

Run date: 02/15/2015

Programs Providing Funds for this Objective

Immunization: \$13,253

Agency Funds for this Objective:

Data Source for Measurement

Wisconsin Immunization Registry Records.

Baseline for Measurement

The 2012 end of year population based standard benchmark report will be used to determine the baseline for the 2014 population based objective. There is no percentage increase for 2014; health departments need to meet or exceed the baseline percentage.

For the baseline the following parameters will be used to run the benchmark report:

Birthdate Range: 01/01/2010 thru 12/31/2010

Evaluation Date: 01/01/2013

Run Date: After: 10/17/2013

Context

Children will be assessed using the standard benchmark report for having 4 DTaP, 3 Polio, 1 MMR, 3 Hib 3 Hepatitis B, 1 varicella and 4 Pneumococcal Conjugate (PCV) vaccination by 24 months of age. Progress towards reaching 90% will be measured using a WIR Benchmark report. Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that a child has moved out of your jurisdiction, you cannot remove them from your cohort.

Context Continued

Input Activities

Contract Agreement Addendum: Exhibit II(B)

Contract #: 24186
Program: Immunization

Agency: North Shore Health Department
Objective #: 1 of 1

Contract Year: 2014
Objective Value: \$13,253

The Wisconsin Immunization Program recommends the following activities to help ensure success of this objective:

- Contacting parents of infants without immunization histories
- Tracking
- Coordination of immunization services with other LHD programs
- Sharing information with area physicians
- Requesting that information is entered into the WIR.
- Reminder/recall

The Wisconsin Immunization Program requires a minimum of 3 attempts to personally contact a responsible party.

Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that a child has moved out of your jurisdiction you cannot remove them from your cohort.

Reminder/recall activity is not listed in a particular order and we suggest you use the method that is the most successful for your community:

- Letter
- Phone call
- Home visit
- Email
- Text message

Additional interventions/activities are in an addendum to the Immunization Program Boundary Statement. These are suggested interventions/activities that LHD's may want to consider in order to achieve this objective.

Data Source for Measurement

A SPHERE reports to include data from the following tab/screens: MCH Core Competencies. MCH Conference Attendee List. Webinar evaluation. SPHERE Community Report to include data from the following screens: Community Activity (all appropriate fields), Intervention: Health Teaching; Subintervention: Life Course Framework. SPHERE Partnership Report to include data from the following tab/screen: Partnership Tool (Data entry on this screen includes partner representation and contribution of partnership). Community Logic Model.

Baseline for Measurement

As of late October, 55 car seat safety checks have been completed by the North Shore Health Department.

Expand car seat safety checks across Bayside, Brown Deer, Fox Point, Glendale, River Hills, Shorewood, and Whitefish Bay.

Our coalition has been in much communication, especially with requesting referrals for car seat safety checks.

Staff has attended monthly Safe Kids Coalition meetings.

Staff participated in numerous safety events such as National Night Outs, Bayshore Safety Day, a school education event with parents, and a grand opening of a Baby Depot.

Car seat installation information was provided to area car dealerships.

Staff also did a powerpoint presentation to the public on a Saturday at a local library to provide education on the importance of a correctly installed booster seat.

Contract Agreement Addendum: Exhibit II(B)

Contract #: 24186

Agency: North Shore Health Department

Contract Year: 2014

Program: Maternal and Child Health Block Grant

Objective #: 1 of 1

Objective Value: \$15,849

Context

Note: This work will be accomplished over multiple years with progressive steps negotiated annually. The populations to be served are all infants and children, children and youth with special health care needs, and expectant and parenting families with young children with a special focus on those at risk for poor health outcomes.

All local health departments need to propose reasonable use of their allocated MCH dollars. Those agencies receiving greater allocations of MCH dollars will be expected to provide multiple steps, focus areas, input activities, and/or objectives.

Goal: To assure that all families in Wisconsin have access to a coordinated, integrated and sustainable system of services and supports focused on health promotion and prevention. For more information go to:
<http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems>.

Focus Areas: The focus areas for the Wisconsin Healthiest Families Initiative includes: family supports, child development, mental health, and safety and injury prevention. Go to
<http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems/WHFdefinitions.htm> for definitions. Agencies need to identify separate objectives for each focus area selected.

Framework: Key concepts of the Life Course Framework link to the Wisconsin Healthiest Families Initiative. The focus is on early childhood because it is a critical, sensitive period with life-long impacts on health. The objective promotes a plan for a community system that supports early childhood health and development that can build on protective factors and reduce risk factors for young children and families. Collaborations with community partners are important because the broader community environment strongly affects the capacity to be healthy. The lead for this work may vary from one community to the next and from one focus area to the next. Strengths of community partners should be promoted and supported through strategies identified by the collaborating partners. It is expected that education and/or training and utilization of the Life Course Framework concepts will be provided and implemented on an ongoing basis with community partners.

Outcomes: See sample outcomes at: <http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems/WHFdefinitions.htm>.

Context Continued

Steps: The Wisconsin Healthiest Families Initiative will be implemented in collaboration with community partners. Sequential steps will be implemented to complete: 1) assessment, 2) plan, 3) implementation, and 4) evaluation and sustainability. These steps will be completed over multiple years. Reporting documents for these steps are located at:
<http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems>.

Step 1: Assessment - Complete a community, population focused assessment that identifies the community program needs or other resources related to family supports, child development, mental health, and/or safety and injury prevention within the agency's jurisdiction. Assessment of multiple focus areas can be reported on one Assessment Findings form.

Step 2: Plan - In collaboration with community partners, develop a plan that addresses the strengths and gaps identified in the

Contract Agreement Addendum: Exhibit II(B)

Contract #: 24186

Agency: North Shore Health Department

Contract Year: 2014

Program: Maternal and Child Health Block Grant

Objective #: 1 of 1

Objective Value: \$15,849

assessment completed in Step 1. The plan should promote integrated, multi-sector service systems to assure services are easily accessed by expectant families and families with infants and young children, with special focus on those at risk for poor health outcomes. Coalitions/collaboratives will identify strategies and specific activities that map out their process to complete the initiative. The plan will be reported as a Community Logic Model (with one logic model submitted for each focus area) and must reflect the activities of the agency and partners.

Step 3: Implementation ζ The agency and partners will implement strategies and activities identified in the plan completed in Step 2 to strengthen the system of early childhood services. Step 3 will be reported on the Implementation Report with one report submitted for each focus area addressed by the agency and partners.

Step 4: Evaluation and Sustainability ζ Evaluate the impact on the community of the strategies and activities implemented and identify how this system will be sustained long term.

REQUIRED SUPPORT ACTIVITIES:

Required activities to support assessment, planning, implementation, and evaluation and sustainability steps include the following:

ζ Complete an initial agency assessment of MCH Core Competencies and enter in SPHERE by January 31, 2014; review at mid-year; and update in SPHERE by contract reporting deadline.

ζ Participate in education to support the ongoing development of MCH Core Competencies.

ζ Identify existing and new community partners, their contributions, and level of collaboration via the Partnership Tool in SPHERE.

ζ Provide and implement education and/or training and utilization of the Life Course Framework on an on-going basis with community partners and enter in SPHERE.

ζ Participate in MCH Program evaluation efforts throughout the contract year.

ζ Participate in training and technical assistance as negotiated, as well as the 2014 MCH Conference.

ζ Complete the webinar series: Data-driven Approach to Early Childhood System-building (4 sessions, 90 minutes each).

Input Activities

Required activities to support assessment, planning, implementation, and evaluation and sustainability steps include the following:

- Complete an initial agency assessment of MCH Core Competencies and enter in SPHERE by January 31, 2014; review at mid-year; and update in SPHERE by contract reporting deadline.

- Participate in education to support the ongoing development of MCH Core Competencies.

- Identify existing and new community partners, their contributions, and level of collaboration via the Partnership Tool in SPHERE.

- Provide and implement education and/or training and utilization of the Life Course Framework on an on-going basis with community partners and enter in SPHERE.

- Participate in MCH Program evaluation efforts throughout the contract year.

Contract Agreement Addendum: Exhibit II(B)

Contract #: 24186

Agency: North Shore Health Department

Objective Value: \$15,849

- Participate in training and technical assistance as negotiated, as well as the 2014 MCH Conference.
- Complete the webinar series: Data-driven Approach to Early Childhood System-building (4 sessions, 90 minutes each).

We will toward increasing capacity to assure all children are properly secured in child passenger safety seats on every vehicle ride:

- continue offering car seat installation safety checks and providing education to new parents, families, grandparents, and babysitters/nannies
- participate in core training including state meetings to improve core competencies
- identify new and existing community partners; identify partners, contributions, and collaboration levels.
- extend collaboration outreach with potential partners such as Safe Kids Coalition (i.e. distracted while driving); North Shore Health Department staff will participate in monthly meetings and activities
- work toward expanding beyond car seat safety checks; provide information and education on crib recalls and resale shop monitoring for infant items that have been recalled
- provide education on different types of protective helmets for people to wear during activities/for various sports
- send at least one staff member to become trained in helmet fitting for both children and adults, and offer helmet fittings throughout the year for different sports (bikes, snowboarding, skiing, rollerblading, etc)
- If local police departments have bike rodeos this year, we will offer to be there for helmet fittings
- Contact all 7 school districts, recreation departments, PTO's, and health classes to identify education opportunities for injury prevention

Preventive Health and Health Services Block Grant: \$3,092

Agency Funds for this Objective:

Data Source for Measurement

Agency report to be entered into an electronic data collection tool to be provided by the WI Division of Public Health.

Baseline for Measurement

This is a new initiative.

Context

The North Shore Health Department chose this objective because we have started working on our CHIPP and hope to have it completed in 2014. Since our consolidation, we do not have a CHIPP that encompasses all 7 North Shore communities, and previous CHIPPS were done more than 5 years ago. Therefore, completing our CHIPP this year is a priority.

Context Continued

Input Activities

In 2013, the North Shore Health Department began working on our CHIPP. We started to gather data, but it is very difficult to find data broken down to the local level instead of county data. We have reviewed the County Health Rankings, however our communities are not adequately represented in this data because Milwaukee County is very diverse. We are still in the process of gathering health information and data, and community input. We recently developed an online survey for residents to give us input. Survey questions focus on quality of life, perceived health issues, access to care, and overall health needs of the communities. The survey is available until several more weeks. In 2014, we plan to evaluate the survey data and correlate it with the other data we have collected. From there, we will determine our focus areas for our plan. We hope to have the plan written in 2014.
