#### Agency Funds for this Objective:

#### Data Source for Measurement

Agency report to be entered into an electronic data collection tool to be provided by the WI Division of Public Health.

#### Baseline for Measurement

This is a new initiative.

#### Context

Describe why this objective was chosen and the expected outcome measure(s).

Our Community Health Improvement Plan, 2014-2019 Healthiest Oak Creek, highlighted the need to reduce distracted driving in the City of Oak Creek through awareness based activities. Additionally, due to the loss of a pre-existing Child Passenger Safety program in our community and the high volume of calls for a child passenger safety seat check the Oak Creek Health Department recognizes the need for such a program and plans to implement services for Oak Creek residents. A current staff member is a Certified Child Passenger Safety Technician and will implement the program.

#### Context Continued

#### Input Activities

CDC strongly encourages Preventive Health and Health Services Block Grant funds be used only on evidence based strategies, best practices or promising practices. Describe the strategies/practices to be used and identify the associated web links as available.

Utilize the National Highway Traffic Safety Administration (NHTSA) campaign "One text or call could wreck it all" to increase awareness of distracted driving in the City of Oak Creek.
