Programs Providing Funds for this Objective

Preventive Health and Health Services Block Grant 2013-2015: \$3,253

Agency Funds for this Objective:

Data Source for Measurement

Agency report to be entered into an electronic data collection tool to be provided by the WI Division of Public Health.

Baseline for Measurement

The Pepin County Health Department has participated at a basic level in Community of Practice events and has completed a department strategic plan. Due to limited staff capacity, local agency policy and procedures have not been aligned with or considered in regards to Public Health Accrediation Standards. This is a new initiative.

Context

Public Health Accrediation is based on standards that health departments can put into practice to ensure that they are continuously improving services to keep their communities healthy. Updating and revising policies and practice to align with accreditation standards will drive our department to continuously improve our performance and the quality of service we offer.

Context Continued

Input Activities

Pepin County Health Department staff will participate in Community of Practice events, familiarize staff with the PHAB Standards and Measurements, and work to update/revise policy and procedure.
