Context

During our Community Assessment, the number one needs problem was Mental Health. Along with partners in our community, we will train, educate, and implement the Teen Intervene Program (Hazelden) which uses motivational interviewing techniques to reduce risky behaviors including alcohol and drug misuse. This will target middle school, high school, and late teens in our community. The measurement of success will be determined if this program is implemented and used by the schools in our area. As of today, there has not been a teen that has successfully completed this program.
