**2014 DPH Consolidated Contract Addendum**

This contract addendum is specific to Waushara County Health Department whose principal business address is 230 West Park Street, PO Box 837, Wautoma WI, 54982-0837. The contact for the GRANTEES Contract Administrator is:

Patti Wohlfeil  
230 West Park Street, PO Box 837  
Wautoma WI, 54982-0837

Telephone: 920/ 787-6590  
Fax: 920/ 787-6511  
E-mail: pattiw.parkstreet@co.waushara.wi.us

**Section 6.D Funding Controls**

Payments through June 30, 2014 are limited to 6/12<sup>th</sup> of the contract with the balance paid after July 1, 2014 based on reported costs up to the contract level. This applies only to the following Profile IDs:

Profile IDs Subject to 6/12 <sup>th</sup> Funding Controls			
Profile ID	Name	Profile ID	Name
103010	Regional Radon Information Centers	157720	Childhood Lead
151734	Oral Health Supplement	159320	MCH
151735	Oral Health Mouth Rinse	159321	Reproductive Health
152002	Reproductive Health SLOH	159327	Family Planning
152020	Family Health-Women's	181012	Tobacco Prevention & Control Program
157000	WWWP		

Payments through September 30, 2014 are limited to 9/12<sup>th</sup> of the contract with the balance paid after October 1, 2014 based on reported costs up to the contract level. This applies only to Profile ID 154710.

**Section 34.A Special Provisions**

**1. Contract Period**

The contract period for Profile 159220 is limited to January 1, 2014 through August 31, 2014. No expenses incurred after August 31, 2014 will be reimbursed. The contract period for all other Profile IDs is January 1, 2014 through December 31, 2014.

**2. Final Report Dates**

The due date of the final fiscal report for Profile 154710 shall be sixty (60) days after the Grant Agreement Period ending date. Expenses incurred during the Grant Agreement period on Profile 154710, but reported later than sixty (60) days after the period ending date, will not be recognized, allowed or reimbursed under the terms of this Grant Agreement.

## **Contract Agreement Addendum: Exhibit I**

### **Program Quality Criteria**

Generally high program quality criteria for the delivery of quality and cost-effective administration of health care programs have been, and will continue to be, required in each public health program to be operated under the terms of this contract.

This Exhibit contains only applicable quality criteria for this contract.

## Contract Agreement Addendum: Exhibit I

Contract #: 24217

Agency: Waushara County Health Department

Contract Year: 2014

### Program: Preventive Health and Health Services Block Grant Program Quality Criteria

- 1) Assessment and surveillance of public health to identify community needs and to support systematic, competent program planning and sound policy development with activities focused at both the individual and community levels.
  - A) Involvement of key policymakers and the general public in the development of comprehensive public health plans.
  - B) Development and implementation of a plan to address issues related to access to high priority public health services for every member of the community.
  - C) Identification of the scientific basis (evidence base) for the intervention.
- 2) Delivery of public health services to citizens by qualified health professionals in a manner that is family centered, culturally competent, and consistent with the best practices; and delivery of public health programs for communities for the improvement of health status.
  - A) There are no separate sub-criterion to this Quality Criteria Category.
- 3) Record keeping for individual focused services that assures documentation and tracking of client health care needs, response to known health care problems on a timely basis, and confidentiality of client information.
  - A) There are no separate sub-criterion to this Quality Criteria Category.
- 4) Information, education, and outreach programs intended to address known health risks in the general and certain target populations to encourage appropriate decision making by those at risk and to affect policy and environmental changes at the community level.
  - A) Provision of public information and education, and/or outreach activities focused on high-risk populations that increase awareness of disease risks, environmental health risks, and appropriate preventive activities.
  - B) Provision of public information and education and/or outreach activities should utilize strategies that have a scientific basis (best-practices) for delivery methods to assure maximum impact on the selected population.
  - C) All materials produced with PHHS Block Grant funds must include the following statement: "This publication was made possible by the PHHS Block Grant from the Centers for Disease Control and Prevention."
- 5) Coordination with related programs to assure that identified public health needs are addressed in a comprehensive, cost-effective manner across programs and throughout the community.
  - A) There are no separate sub-criterion to this Quality Criteria Category.
- 6) A referral network sufficient to assure the accessibility and timely provision of services to address identified public health care needs.
  - A) There are no separate sub-criterion to this Quality Criteria Category.
- 7) Provision of guidance to staff through program and policy manuals and other means sufficient to assure quality health care and cost-effective program administration.
  - A) Provision of written policy and program information about the current guidelines, standards, and recommendations for community and/or clinical preventive care.

## Contract Agreement Addendum: Exhibit I

Contract #: 24217

Agency: Waushara County Health Department

Contract Year: 2014

- 8) Financial management practices sufficient to assure accurate eligibility determination, appropriate use of state and federal funds, prompt and accurate billing and payment for services provided and purchased, accurate expenditure reporting, and, when required, pursuit of third-party insurance and Medical Assistance Program coverage of services provided.
  - A) Program-specific data collection, analysis, and reporting to assure program outcome goals are met or to identify program management problems that need to be addressed.
- 9) Data collection, analysis, and reporting to assure program outcome goals are met or to identify program management problems that need to be addressed.
  - A) There are no separate sub-criterion to this Quality Criteria Category.

## Contract Agreement Addendum: Exhibit I

Contract #: 24217

Agency: Waushara County Health Department

Contract Year: 2014

### Program: Radon Indoor Radon RICs Program Quality Criteria

- 1) Assessment and surveillance of public health to identify community needs and to support systematic, competent program planning and sound policy development with activities focused at both the individual and community levels.
  - A) Contractee must assess surveillance data (including their own data) for prevalence of homes with elevated indoor radon exposures in their regions. The Division of Public Health (DPH) radon zip-code map and database are at [www.lowradon.org](http://www.lowradon.org).
- 2) Delivery of public health services to citizens by qualified health professionals in a manner that is family centered, culturally competent, and consistent with the best practices; and delivery of public health programs for communities for the improvement of health status.
  - A) Cultural competence and other qualifications of persons delivering radon services must be the same as those of employees of local health agencies, such as environmental sanitarians and public health nurses.
- 3) Record keeping for individual focused services that assures documentation and tracking of client health care needs, response to known health care problems on a timely basis, and confidentiality of client information.
  - A) Contractee must maintain a database of measurements carried out by the public with agency assistance and, to the extent possible, follow cases of elevated exposures to promote appropriate interventions and outcomes. However, the ability to follow-up may be limited in some instances, since indoor radon is not regulated in Wisconsin and because detectors and mitigation services are available from the private sector.
- 4) Information, education, and outreach programs intended to address known health risks in the general and certain target populations to encourage appropriate decision making by those at risk and to affect policy and environmental changes at the community level.
  - A) Contractee must serve as a resource for information in their region, and provide referrals when requested for technical information they can't provide. This enables residents to understand the lung cancer risk from radon, test their homes for radon, interpret test results and follow-up testing, and obtain effective radon mitigation services where appropriate.
- 5) Coordination with related programs to assure that identified public health needs are addressed in a comprehensive, cost-effective manner across programs and throughout the community.
  - A) Contractee must coordinate outreach with other public health programs in their agency, adjusting services so as to fit into appropriate priorities among groups with other health needs.
  - B) Contractee must participate in radon outreach training by their regional Radon Information Center, and coordinate outreach for the Radon Action Month media blitz in January with them.
- 6) A referral network sufficient to assure the accessibility and timely provision of services to address identified public health care needs.
  - A) Contractee must use the referral network consisting of their Regional Radon Information Center, nationally certified radon mitigation contractors, and Web sites for fast access to DPH and EPA radon information and literature. The DPH Web site is [www.lowradon.org](http://www.lowradon.org).
- 7) Provision of guidance to staff through program and policy manuals and other means sufficient to assure quality health care and cost-effective program administration.

## Contract Agreement Addendum: Exhibit I

Contract #: 24217

Agency: Waushara County Health Department

Contract Year: 2014

- A) Contractee must provide guidance on radon testing and mitigation following US EPA policies as recommended in EPA's booklets: Citizen's Guide to Radon, Consumer's Guide to Radon Reduction, and Home Buyers and Seller's Guide to Radon, which are readable and downloadable through the US EPA radon web site and the DPH radon web site.
  - B) Contractee must meet criteria of cost-effective program administration in state and local statutes, ordinances and administrative rules.
- 8) Financial management practices sufficient to assure accurate eligibility determination, appropriate use of state and federal funds, prompt and accurate billing and payment for services provided and purchased, accurate expenditure reporting, and, when required, pursuit of third-party insurance and Medical Assistance Program coverage of services provided.
- A) Considerations of eligibility determination, pursuit of third-party insurance and Medical Assistance coverage do not apply to radon outreach funded by DPH.
- 9) Data collection, analysis, and reporting to assure program outcome goals are met or to identify program management problems that need to be addressed.
- A) Contractee must review results of radon measurements they have facilitated. To the extent funded and practicable, Contractee must follow cases where elevated screening tests are reported, to ensure appropriate follow-up testing is done, and to ensure that every opportunity for radon mitigation by sub-slab depressurization is given. However, because indoor radon is not regulated in Wisconsin and because detectors and mitigation services are available from the private sector, the ability to follow-up may be limited in some instances.
  - B) Contractee's report to the radon program in DPH must be sent by email, so it can be included in the DPH report to US EPA, which requires electronic reporting.

## **Contract Agreement Addendum: Exhibit II**

### **Program Objectives**

(A) Contract Funds, Program/Objective Values, and Other Contract Details

(B) Objective Details

## Contract Agreement Addendum: Exhibit II(A)

Contract #: 24217

Agency: Waushara County Health Department

Contract Year: 2014

	<b>Childhood Lead</b>	<b>Program Total Value \$3,455</b>	
1	Throughout the 2014 contract period, residents from the jurisdiction of the Waushara County Health Department will receive lead poisoning prevention and intervention services that are provided according to federal and state guidelines.		\$3,455
	<b>Immunization</b>	<b>Program Total Value \$8,422</b>	
1	By December 31, 2014, 68% children residing in Waushara County Health Department jurisdiction who turn 24 months of age during the contract year will complete 4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hepatitis B, 1 Varicella and 4 Pneumococcal Conjugate (PCV) vaccination by their second birthday.		\$8,422
	<b>MCH</b>	<b>Program Total Value \$13,830</b>	
1	By December 31, 2014, The Keeping Kids Alive Initiative will be implemented by the Waushara County Health Department in collaboration with community partners.		\$13,830
	<b>Oral Health</b>	<b>Program Total Value \$1,310</b>	
1	Template Objective 1		\$1,310
	School-Based Fluoride Supplement Program: By December 31, 2014, (insert number) children ages 6 months through 16 years from non-fluoridated communities will participate in a dietary fluoride supplement program administered by (insert name) Health Department.		
	<b>Oral Health - Mouthrinse</b>	<b>Program Total Value \$1,302</b>	
1	Template Objective 1		\$1,302
	School-Based Fluoride Mouthrinse Program: By December 31, 2014, (insert number) children ages 6 years or older from non-fluoridated communities will participate in a weekly school-based fluoride mouthrinse program administered by (insert name) Health Department.		
	<b>Prevention</b>	<b>Program Total Value \$2,454</b>	
1	By August 31, 2014, Waushara County Health Department will conduct one activity to prepare for voluntary accreditation by developing an agency strategic plan.		\$2,454
	<b>Radon-RICs</b>	<b>Program Total Value \$8,127</b>	
1	This objective is for calendar year 2014.		\$0
2	This objective is for calendar year 2014.		\$8,127
		<b>Total of Contract Objective Values</b>	\$38,900
		<b>Total of Contract Statement Of Work Values</b>	\$0

## Contract Agreement Addendum: Exhibit II(B)

Contract #: 24217

Agency: Waushara County Health Department

Contract Year: 2014

Program: Childhood Lead Consolidated

Objective #: 1 of 1

Objective Value: \$3,455

### Objective: Primary Details

#### Objective Statement

Throughout the 2014 contract period, residents from the jurisdiction of the Waushara County Health Department will receive lead poisoning prevention and intervention services that are provided according to federal and state guidelines.

**Deliverable Due Date:** 01/31/2015

#### Contract Deliverable (Evidence)

A report to document the extent to which assurance of each of the three follow-up components of this objective was provided, specifically: 1) the number of children with a capillary blood lead level greater than or equal to 5 micrograms per deciliter and the number who received a venous confirmation test; 2) the number of families with children with a venous blood lead level greater than or equal to 5 micrograms per deciliter and the number who received a home visit to provide information on lead poisoning prevention and treatment, and 3) the number of children with a venous blood lead level greater than or equal to 5 micrograms per deciliter and the number of environmental lead hazard investigations conducted on their primary residence and/or secondary properties, including accompanying work orders and property clearance. For evaluation purposes, those children whose families are non-responsive to outreach or moved from the jurisdiction before appropriate follow-up services could be provided can be removed from this cohort.

#### Programs Providing Funds for this Objective

Childhood Lead Consolidated: \$3,455

#### Agency Funds for this Objective:

#### Data Source for Measurement

An agency-generated report.

#### Baseline for Measurement

We have a contract with WIC which is housed in Family Health/LaClinica to provide lead tests which we do the follow up on. We vary in the number of children with high lead levels each year. Any child about zero gets sent a letter with information. Parents above 5 get a call and a home visit. We often have one or more families that need our nurse or environmental specialist that have lead risk assessor training. This past year we have two (one remaining from the previous year) and then we assisted our neighbor Waupaca County with a case in New London.

#### Context

There is no designated value range for this objective; it is automatically accepted if the entire Childhood Lead Poisoning Prevention Program (CLPPP) allocation is \$6000 or less. If the allocation is greater than \$6000 and the agency wants to select this objective, negotiation for the value of this objective is required. This assurance objective is intended to assure that the local health department is providing a comprehensive childhood lead poisoning prevention program. For this objective, a home visit will be conducted for all children with one or more venous blood lead levels greater than or equal to 5 micrograms per deciliter. For this objective, an environmental lead hazard investigation will be conducted for all children with one or more venous blood lead levels greater than or equal to 5 micrograms per deciliter. This environmental lead hazard investigation includes a risk assessment of the property, issuance of work orders to address the identified lead hazards, and a clearance report indicating that the hazards have been controlled. The intent is to provide early environmental intervention in response to a lead poisoned child to prevent more severe lead poisoning. The environmental lead hazard investigation can include a child's primary residence and pertinent secondary properties. The procedure for the investigation is outlined in Chapter 9 of the WCLPPP Handbook for Local Health Departments (<http://www.dhs.wisconsin.gov/lead/doc/WCLPPPHandbook.pdf>, 2002), and is conducted at lower blood lead levels than required by state statute (Wis Stat 254). Also see new reference: *Low Level Lead Exposure Harms Children: A Renewed Call for Primary Prevention* (CDC Advisory Committee on Childhood Lead Poisoning Prevention, January 4, 2012, ([http://www.cdc.gov/nceh/lead/ACCLPP/Final\\_Document\\_030712.pdf](http://www.cdc.gov/nceh/lead/ACCLPP/Final_Document_030712.pdf)).

#### Context Continued

#### Input Activities

We follow all the rules of a comprehensive program. In our mutual agreement with WIC and while providing health checks with UMOS we offer at least 200 lead tests to children per year besides what our local providers offer. We follow up on any lead above zero with information and steps progressing based on level. We have two lead risk assessors, one nurse and one environmental sanitarian. We have experience in home visits, testing for lead and following up with licensed/certified contractors.

## Contract Agreement Addendum: Exhibit II(B)

**Contract #:** 24217  
**Program:** Immunization

**Agency:** Waushara County Health Department  
**Objective #:** 1 of 1

**Contract Year:** 2014  
**Objective Value:** \$8,422

### Objective: Primary Details

#### Objective Statement

By December 31, 2014, 68% children residing in Waushara County Health Department jurisdiction who turn 24 months of age during the contract year will complete 4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hepatitis B, 1 Varicella and 4 Pneumococcal Conjugate (PCV) vaccination by their second birthday.

**Deliverable Due Date:** 01/31/2015

#### Contract Deliverable (Evidence)

A Wisconsin Immunization Registry (WIR) generated population based standard benchmark report documenting the number of children in Waushara County Health Department jurisdiction who turned 24 months of age in 2014 contract year. Reports should be run with a 45 day buffer to ensure that all updated data has been received by the WIR. If the objective is not met, include a report of the accountability targets and the progress achieved including the activities and interventions conducted; include any barriers that may have been identified.

For your information the cohort of children for this objective is:

Date of Birth 01/01/2012- 12/31/2012

Criteria for the 2014 End of the Year Report:

The date of birth for End of Year Benchmark: 01/01/2012 ; 12/31/2012

Evaluation date: 01/01/2015

Run date: 02/15/2015

#### Programs Providing Funds for this Objective

Immunization: \$8,422

#### Agency Funds for this Objective:

#### Data Source for Measurement

Wisconsin Immunization Registry Records.

#### Baseline for Measurement

The 2012 end of year population based standard benchmark report will be used to determine the baseline for the 2014 population based objective. There is no percentage increase for 2014. Health departments need to meet or exceed the baseline percentage.

For the baseline the following parameters will be used to run the benchmark report:

Birthdate Range: 01/01/2010 thru 12/31/2010

Evaluation Date: 01/01/2013

Run Date: After: 02/15/2013

Baseline run as above was 68%. We did a QI plan for 2013 on immunizations due to low % with no increase in percentage. We have adopted many of our processes in order to continue to attempt to increase our numbers.

#### Context

Children will be assessed using the standard benchmark report for having 4 DTaP, 3 Polio, 1 MMR, 3 Hib 3 Hepatitis B, 1 varicella and 4 Pneumococcal Conjugate (PCV) vaccination by 24 months of age. Progress towards reaching 90% will be measured using a WIR Benchmark report. Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that a child has moved out of your jurisdiction, you cannot remove them from your cohort.

#### Context Continued

## Contract Agreement Addendum: Exhibit II(B)

**Contract #:** 24217  
**Program:** Immunization

**Agency:** Waushara County Health Department  
**Objective #:** 1 of 1

**Contract Year:** 2014  
**Objective Value:** \$8,422

### Input Activities

The Wisconsin Immunization Program recommends the following activities to help ensure success of this objective:

- Contacting parents of infants without immunization histories
- Tracking
- Coordination of immunization services with other LHD programs
- Sharing information with area physicians
- Requesting that information is entered into the WIR.
- Reminder/recall

The Wisconsin Immunization Program requires a minimum of 3 attempts to personally contact a responsible party.

Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that a child has moved out of your jurisdiction you cannot remove them from your cohort.

Reminder/recall activity is not listed in a particular order and we suggest you use the method that is the most successful for your community:

- Letter
- Phone call
- Home visit
- Email
- Text message

Additional interventions/activities are in an addendum to the Immunization Program Boundary Statement. These are suggested interventions/activities that LHD's may want to consider in order to achieve this objective.

Our immunization team of coordinator, nurse and secretary participated in a QI plan on immunizations in 2013 in the attempt to increase our rates without success. We send out letters to all birth parents in our county and at 6 months telling them and then reminding them about immunizations and their importance. We follow our WIR stats monthly and the coordinator does follow up letters and phone calls to families. We have a transient group of hispanics, but if anything find them to be very well immunized. We do have many Amish and Mennonites who pick and chose to vaccinate. We work with them and make special home visits to vaccinate those that will. As do many places we deal with the antivaccine group. As a small rural county, with no pediatricians, we find that many families get their urgent care done in this county and well care done elsewhere. Lastly, we do have a weekly newspaper column and we are trying to put more vaccine preventable news articles in the paper, we certainly use our school newsletters when possible as we have three nurses in three school systems.

### Objective: Risk Profile

## Contract Agreement Addendum: Exhibit II(B)

Contract #: 24217

Agency: Waushara County Health Department

Contract Year: 2014

Program: Maternal and Child Health Block Grant

Objective #: 1 of 1

Objective Value: \$13,830

### Objective: Primary Details

#### Objective Statement

By December 31, 2014, The Keeping Kids Alive Initiative will be implemented by the Waushara County Health Department in collaboration with community partners.

**Deliverable Due Date:** 01/31/2015

#### Contract Deliverable (Evidence)

Reporting forms are available at: <http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems>

1. A completed baseline assessment of agency core competencies by January 31, 2014, updated throughout the year and completed by marking "Final for Contract Year" by January 31, 2015.
2. Documentation of participation in the MCH Annual Conference.(Nov. 5&6 2014 in Wisconsin Dells).
3. Documentation of participation in the webinar series: Data-driven Approach to Early Childhood System-building (4 sessions, 90 minutes each).
4. A completed Partnership Report for the Focus Area(s) that directly aligns with the objective.
5. A completed (KKA)Planning, Implementation, and Sustainability Report.

#### Programs Providing Funds for this Objective

Maternal and Child Health Block Grant: \$13,830

#### Agency Funds for this Objective:

#### Data Source for Measurement

Reporting forms are available at: <http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems>

1. SPHERE Report of the MCH Core Competencies.
2. MCH Conference Attendee List
3. Webinar Evaluation
4. SPHERE Partnership Report to include data from the following tab/screen: Partnership Tool. Data entry on this screen includes Partner Representation and Contribution of Partnership.
5. KKA Planning, Implementation, and Sustainability Report.
6. Data entered in the national data base.

#### Baseline for Measurement

Include the applicable items that were completed in 2013 for the Baseline for

Measurement:

CDR/FIMR team was established. Health Department is Lead Member of the review team. The Health Department offered an Awareness of the Initiation of a Child Death Review Team day on May 30th in Wautoma to county agencies and stakeholders. The team then met once on Sept 17th with 17 members in attendance. Cases were reviewed. Prevention strategies were discussed.

Assessment conducted. Assessment results: One case was a child with special needs (new case, complete autopsy still pending) but no prevention noted. Second case was an old case or distracted new driver resulting in severe injury times two and one death.

Prevention activities were discussed for distracted driving.

## Contract Agreement Addendum: Exhibit II(B)

**Contract #:** 24217

**Agency:** Waushara County Health Department

**Contract Year:** 2014

**Program:** Maternal and Child Health Block Grant

**Objective #:** 1 of 1

**Objective Value:** \$13,830

-Data entry. Data is being entered into national data base.

-Plan for prevention based on review findings. Briefly describe plans to move recommendations to action.

### Context

Wisconsin Keeping Kids Alive Initiative Goal: To establish a sustainable, coordinated system to identify causes of all fetal, infant and child deaths, resulting in preventive strategies for community action. See <http://www.chawisconsin.org/kka.htm>

Note: preventive interventions will be implemented via the Healthiest Families Initiative.).

Local infant/child death review teams are part of public health surveillance and are critical to better understanding how and why a child died. We have statistics on how many children die and from what causes, <http://www.dhs.wisconsin.gov/health/injuryprevention>, but often know little about the circumstances leading up to the child's death. These multidisciplinary teams review and acknowledge all child deaths from a prevention standpoint.

In Wisconsin, the Division of Public Health (DPH) works with the Children's Health Alliance of Wisconsin (the Alliance) in an effort to assure all fetal, infant and child deaths have the opportunity to be reviewed with an emphasis on prevention. Current Child Death Review (CDR) teams are expected to follow the Wisconsin Model, known as Keeping Kids Alive in Wisconsin (outlined in the following manual: <http://www.chawisconsin.org/documents/CDRFinal10.13.08.pdf>). Counties will be expected to work with the Alliance and DPH to explore opportunities to review fetal and infant deaths (prior to 2015) to integrate the National Fetal and Infant Mortality Review (NFIMR) recommendations ([www.nfimr.org](http://www.nfimr.org)) into their reviews.

The Fetal and Infant Mortality Review (FIMR) is an action-oriented community process that continually assesses, monitors, and works to improve service systems and community resources for women, infants, and families. Through the review of all fetal and infant deaths we can both better understand the maternal and infant health and social risk factors contributing to these deaths and identify potential protective factors. The FIMR process brings private health care providers, public health, and community service providers together with the intention of examining the current systems that support families during pregnancy, infancy, preconception and interconception.

Local Health Departments may choose this objective to:

1. Initiate a new CDR/FIMR Team in their community where one previously did not exist

(taking into consideration fetal deaths along with infant and child deaths)

2. Assess the fidelity of an existing CDR Team to the Keeping Kids Alive in Wisconsin

Model

3. Assess the ability of the community, with an existing CDR Team, to review fetal deaths
4. Implement and evaluate a plan to address issues brought forth from one of the above assessments

## Contract Agreement Addendum: Exhibit II(B)

**Contract #:** 24217

**Agency:** Waushara County Health Department

**Contract Year:** 2014

**Program:** Maternal and Child Health Block Grant

**Objective #:** 1 of 1

**Objective Value:** \$13,830

Communities choosing this objective are expected to follow the Keeping Kids Alive model. It is anticipated that most communities can develop and implement a new CDR/FIMR team following this model within two years. Additional time may be negotiated as deemed appropriate.

Local public health departments will each participate in training and technical assistance, identification of new community partners and utilization of the Keeping Kids Alive Model.

The WI Healthiest Families Initiative will be utilized to assess the community's current prevention efforts and move review recommendations to action.

### **Context Continued**

Required Primary Activities: Local public health departments will complete the following activities. Moving to the Wisconsin Healthiest Families objective for prevention activities may be undertaken at any time, as the community sees fit.

#### Initiation of a New Team

1. Work with staff at the Alliance to receive training on the development and implementation of a death review team and use of the data collection system.
2. Identify and recruit appropriate partners to form a death review team.
3. Implement death reviews in accordance with the Keeping Kids Alive in Wisconsin model, including entering all deaths into the data collection system.
4. Select the Wisconsin Healthiest Families objective to support review recommendations moving to action within your community.

#### Improvement of a Current Team

1. Utilize the standardized tool created by the Alliance to complete an assessment of the current review teams, fidelity to the Keeping Kids Alive Model and ability to incorporate fetal death reviews into the current structure.
2. Implement and evaluate strategies to improve the death review team according to needs identified in the assessment.
3. Select the Wisconsin Healthiest Families objective to support review recommendations moving to action within your community.

### **Input Activities**

1. Complete an initial 2014 agency assessment of MCH Core Competencies and enter in SPHERE by January 31, 2014; review at mid-year; and update in SPHERE by contract reporting deadline.
2. Participate in education to support the ongoing development of MCH Core Competencies.
3. Identify existing and new community partners, their contributions, and level of collaboration via the Partnership Tool in SPHERE.
4. Participate in training and technical assistance as well as the annual MCH Conference and the Keeping Kids Alive Summit.

## Contract Agreement Addendum: Exhibit II(B)

**Contract #:** 24217

**Agency:** Waushara County Health Department

**Contract Year:** 2014

**Program:** Maternal and Child Health Block Grant

**Objective #:** 1 of 1

**Objective Value:** \$13,830

5. Utilize the Keeping Kids Alive in Wisconsin model including entering data into the data collection system.
6. Participate in MCH Program evaluation efforts throughout the contract year.
7. Complete the webinar series: Data-driven Approach to Early Childhood System-building (4 sessions, 90 minutes each).
8. Utilize the standardized tool created by the Alliance to complete an assessment of the current review teams, fidelity to the Keeping Kids Alive Model.
9. Assess for additional partners needed for team. Continue to assess and review for appropriate prevention activities.

## Contract Agreement Addendum: Exhibit II(B)

**Contract #:** 24217  
**Program:** Oral Health

**Agency:** Waushara County Health Department  
**Objective #:** 1 of 1

**Contract Year:** 2014  
**Objective Value:** \$1,310

### Objective: Primary Details

**Objective Statement**

Template Objective 1

School-Based Fluoride Supplement Program: By December 31, 2014, (insert number) children ages 6 months through 16 years from non-fluoridated communities will participate in a dietary fluoride supplement program administered by (insert name) Health Department.

**Deliverable Due Date:** 01/31/2015

**Contract Deliverable (Evidence)**

A report to document, by age and community, the number of children who participated in a dietary fluoride supplement program administered by (insert name) Health Department.

**Programs Providing Funds for this Objective**

Oral Health: \$1,310

**Agency Funds for this Objective:**

**Data Source for Measurement**

SPHERE Community Report to include the data from the following screens: Community Activity (all appropriate fields) and Fluoride Supplement (no detail screen).

**Baseline for Measurement**

**Context**

The target population for this program is children from age 6 months to 16 years. The children targeted must not have access to fluoridated water or have natural fluoride levels at or above certain concentration levels for specific age groups. Water sources must be tested to determine the fluoride content prior to determining the dosage for dietary fluoride supplements. In other words, this program is targeted to children in non-fluoridated communities or rural areas with low natural fluoride in the water.

## Contract Agreement Addendum: Exhibit II(B)

Contract #: 24217

Agency: Waushara County Health Department

Contract Year: 2014

Program: Oral Health - Flouride Mouthrinse

Objective #: 1 of 1

Objective Value: \$1,302

### Objective: Primary Details

#### Objective Statement

Template Objective 1

School-Based Fluoride Mouthrinse Program: By December 31, 2014, (insert number) children ages 6 years or older from non-fluoridated communities will participate in a weekly school-based fluoride mouthrinse program administered by (insert name) Health Department.

**Deliverable Due Date:** 01/31/2015

#### Contract Deliverable (Evidence)

A report to document, by age and community, the number of children who participated in a school-based fluoride mouthrinsing program administered by (insert name) Health Department.

#### Programs Providing Funds for this Objective

Oral Health - Flouride Mouthrinse: \$1,302

#### Agency Funds for this Objective:

#### Data Source for Measurement

SPHERE Community Report to include the data from the following screens: Community Activity (all appropriate fields) and Fluoride Mouthrinse (no detail screen).

#### Baseline for Measurement

#### Context

School-based fluoride mouthrinsing programs are evidence-based prevention strategies that prevent dental caries (cavities). The children targeted by this objective are usually first through sixth graders; however, it is also appropriate for seventh and eighth graders. School-based fluoride mouthrinsing programs are not indicated in fluoridated communities or where the natural fluoride level is at an appropriate level.

## Contract Agreement Addendum: Exhibit II(B)

**Contract #:** 24217

**Agency:** Waushara County Health Department

**Contract Year:** 2014

**Program:** Preventive Health and Health Services  
Block Grant

**Objective #:** 1 of 1

**Objective Value:** \$2,454

### Objective: Primary Details

#### Objective Statement

By August 31, 2014, Waushara County Health Department will conduct one activity to prepare for voluntary accreditation by developing an agency strategic plan.

**Deliverable Due Date:** 09/30/2014

#### Contract Deliverable (Evidence)

A report entered into an electronic data collection tool that describes:

1. Description of strategies implemented and outcomes measured
2. Challenges or barriers to success
3. Actions to address challenges
4. Indicate and describe if Prevention funded activities were used to obtain additional funding, donations or in-kind contributions

#### Programs Providing Funds for this Objective

Preventive Health and Health Services Block Grant: \$2,454

#### Agency Funds for this Objective:

#### Data Source for Measurement

Agency report to be entered into an electronic data collection tool to be provided by the WI Division of Public Health.

#### Baseline for Measurement

Waushara County has a strategic plan that outdates and needs to be revised in 2014. We are planning to be accreditation ready in 2014 and if funding is found will apply for National Accreditation in 2014. We will be focusing on the Naccho guide to local health department strategic planning.

#### Context

Local public health agencies selecting this objective will conduct one of the following activities to prepare for voluntary accreditation by:

- working on the accreditation prerequisite of developing an agency strategic plan.
- developing a Performance Management Plan
- developing a Quality Improvement Plan
- conducting a Quality Improvement project
- developing processes, a database, and/or record-keeping systems to meet public health accreditation documentation standards.
- completing an agency accreditation readiness self-assessment.
- updating and revising agency policies and procedures

## Contract Agreement Addendum: Exhibit II(B)

Contract #: 24217

Agency: Waushara County Health Department

Contract Year: 2014

Program: Radon Indoor Radon RICs

Objective #: 1 of 2

Objective Value: \$0

### Objective: Primary Details

#### Objective Statement

This objective is for calendar year 2014.

**Deliverable Due Date:** 01/31/2015

#### Contract Deliverable (Evidence)

Six-month reports, emailed by 7/31/14 and 1/31/15 to the Division of Public Health, document the activities and progress toward the negotiated annual target quantities specified in the Context section of this contract. Each report should be emailed as a single file, with all documents, photographs, etc. incorporated in the file, as required for our reports to US EPA.

#### Programs Providing Funds for this Objective

#### Agency Funds for this Objective:

#### Data Source for Measurement

Agency records:

Report of DHS bi-annually on the: number of media responses to news releases and other outreach with journal publications and broadcasts: journal and/or broadcast station names; the dates, lengths, and scanned images or the media's website versions of the stories. For Outreach to Professional, Trade and Other Groups needing to know about radon for their work: names of meetings and shows, venues, dates, attendance, and supporting information like announcements and agendas. For Response to Requests for Radon Information and Consulting: A tally of public requests from all channels: telephone, email, walk-in, etc. For Radon Proficiency Certification: Who at the agency is currently certified for radon measurement and mitigation proficiency. For Training and Stocking of Cooperating Local Agencies: A list of local public health agencies in the region and how they are trained and stocked with handouts, detectors and literature as appropriate, with brief information on what they have done. For Statewide and Regional Meetings: meetings RIC staff attended. For Database Development: Summary of measurement results added to the database. Field Site Visits: Number of sites visited.

#### Baseline for Measurement

#### Context

These activities shall be completed in 2014: 1) OUTREACH VIA MEDIA: Staff will have issued news releases and other public outreach, stimulating reports on radon risk, testing, and mitigation in major journal and broadcast media. Some of the outreach will have been done during January (National Radon Action Month), for synergy with outreach by other LPHAs, WI DPH and US EPA. Media interviewing the RIC will have been encouraged to also contact local businesses and residents for their radon stories; and to include the RIC telephone number and state website address, [www.lowradon.org](http://www.lowradon.org). 2) OUTREACH TO PROFESSIONAL AND TRADE GROUPS: Presentations will have been delivered by staff at meetings, shows, or conferences of groups that need to deal with radon as part of their work, such as realtors, home builders, code officials and health professionals. 3) RESPONSE TO REQUESTS FOR RADON INFORMATION: Respond to public requests for radon information and consulting. 4) RADON PROFICIENCY CERTIFICATION: National proficiency certification for radon measurement and mitigation will have been maintained by at least one staff working on radon, unless they have attended all recent annual RIC meetings, in which case after eight years of an individual being certified they may let their certification lapse. 5) TRAINING AND STOCKING OF COOPERATING LOCAL AGENCIES: Staff will train cooperating local public health agencies in their region as interest arises and help with follow-up for elevated measurement results as needed. 6) MEETINGS: Staff will attend statewide conference calls and meetings of RICs and DPH. 7) DATABASE DEVELOPMENT: Staff will have add new results of radon measurements that they facilitated to a database. 8) FIELD SITE VISITS: Staff will visit sites to consult and become informed about challenging radon mitigations or measurements as funding and schedules permit.
