Kenosha County Division of Health (KCDOH) mobilize staff to provide services to children who may otherwise not be able to access these services. KCDOH collaborates with schools to reach parents and obtain permission forms for providing these oral health services for children during their school day.

In 2014-2015, KCDOH School Nurses implemented the oral health screening and dental varnish program in 13 elementary schools for 5 year old kindergarten and first grade classes in Kenosha Unified School District (KUSD). Parents signed a permission form for the school year and then were asked at each clinic time if they wanted they child to receive the dental varnishing. Clinics were scheduled three times at each school site. A total of 1,245 dental varnish applications were done and 333 referrals were made to seek additional dental care.

#### Input Activities

CDC requires Preventive Health and Health Services Block Grant funds to be used on evidence-based strategies, best practices or promising practices. Describe the strategies/practices to be used and identify the associated web links as available. Potential links to strategies for this objective can be found on the 2014-2016 Preventive Health and Health Services Block Grant Program Boundary Statement.

The following early childhood oral health preventive services are considered best practice:

1. Anticipatory guidance for parents and other caregivers.
2. An oral health risk assessment for infants and children ages 6 months through 6 years.
3. Up to 4 fluoride applications (based on risk determination).
4. Referral to a dentist if necessary.
