2015 DPH Consolidated Contract Addendum

This contract addendum is specific to Taylor County Health Department whose principal business address is 224 S Second St, Medford, WI 54451. The contact for the GRANTEE’S Contract Administrator is:

Ms Patty Krug
224 S Second St
Medford, WI 54451

Telephone: 715/ 748-1410
Fax: 715/ 748-1417
E-mail: patty.krug@co.taylor.wi.us

Section 6.D Funding Controls

Funding controls are summarized below. The [2015 Consolidated Contract Overview](#) contains current funding controls for all Profile IDs that are part of the consolidated contract.

Payments through June 30, 2015 are limited to 6/12th of the contract with the balance paid after July 1, 2015 based on reported costs up to the contract level. This applies only to the following Profile IDs:

Profile IDs Subject to 6/12 th Funding Controls			
Profile ID	Name	Profile ID	Name
103010	Regional Radon Information Centers	159320	MCH
151734	Oral Health Supplement	159321	Reproductive Health
151735	Oral Health Mouth Rinse	159327	Family Planning
152002	Reproductive Health SLOH	181005	TPCP-WIS-WINS
152020	Family Health-Women's	181012	Tobacco Prevention & Control Program
157720	Childhood Lead		

Payments through September 30, 2015 are limited to 9/12th of the contract with the balance paid after October 1, 2015 based on reported costs up to the contract level. This applies only to Profile ID 154710.

Section 34.A Special Provisions

1. Contract Period

The contract period for Profile 157000 (Well Woman) is limited to January 1, 2015 through June 30, 2015. No expenses incurred after June 30, 2015 will be reimbursed. The [2015 Consolidated Contract Overview](#) contains current funding periods for all Profile IDs that are part of the consolidated contract.

2. Final Report Dates

The due date of the final fiscal report for Profile 150327 (Radon Outreach) shall be sixty (60) days after the Grant Agreement Period ending date. Expenses incurred during the Grant Agreement period on Profile 150327, but reported later than sixty (60) days after the period ending date, will not be recognized, allowed or reimbursed under the terms of this Grant Agreement.

The [2015 Consolidated Contract Overview](#) contains final report due dates for all Profile IDs that are part of the consolidated contract.

Contract Agreement Addendum: Exhibit I

Program Quality Criteria

Generally high program quality criteria for the delivery of quality and cost-effective administration of health care programs have been, and will continue to be, required in each public health program to be operated under the terms of this contract.

This Exhibit contains only applicable quality criteria for this contract.

Contract Agreement Addendum: Exhibit I

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

Program: Immunization Program Quality Criteria

- 1) Assessment and surveillance of public health to identify community needs and to support systematic, competent program planning and sound policy development with activities focused at both the individual and community levels.
 - A) Contractees must assure reported vaccine preventable diseases (VPD) are investigated and controlled as detailed in the most current edition Wisconsin Disease Surveillance Manual (EPINET) and/or written disease-specific guidance from DPH (e.g. Pertussis Guidelines). Local Health Departments (LHDs) should maintain regular contact with local required reporters of VPDs to encourage and assure prompt reporting. Contractees should solicit the help of the Wisconsin Immunization Program when needed to help assure that an adequate system is in place to report and investigate VPD.
 - B) Contractees must annually formally evaluate immunization delivery and the use of vaccine preventable disease surveillance systems and improve the use of those systems in their jurisdictions where needed (e.g., the Wisconsin Electronic Disease Surveillance System (WEDSS)).
 - C) Contractees must work in collaboration with the Wisconsin Immunization Program to increase the use of existing electronic data collection systems for vaccine record keeping and vaccine preventable disease data systems.
- 2) Delivery of public health services to citizens by qualified health professionals in a manner that is family centered, culturally competent, and consistent with the best practices; and delivery of public health programs for communities for the improvement of health status.
 - A) Contractees must assure the delivery of immunization services in a safe, effective and efficient manner as detailed in the Wisconsin Immunization Program Policies and Procedures Manual and in section 252, HFS 145, Wis. Admin. Code. Contractees must assure the immunization of children is consistent with Healthy People 2020 goals.
- 3) Record keeping for individual focused services that assures documentation and tracking of client health care needs, response to known health care problems on a timely basis, and confidentiality of client information.
 - A) Contractees must use the Wisconsin Immunization Registry (WIR) or an electronic immunization population-based data system that links with the WIR. The data system must have a tracking and recall function to identify children whose immunization records are behind schedule according to the ACIP recommendations. Tracking and recall shall be conducted at least every other month as required by the Wisconsin "Policies and Procedures Manual for Immunization Programs".
 - B) Contractees immunization practice must assure the immunization of children, and share children's immunization records with parents or guardians, schools and day care centers and other healthcare providers as provided by the Wisconsin School Immunization Law HFS 144 (section 252).
- 4) Information, education, and outreach programs intended to address known health risks in the general and certain target populations to encourage appropriate decision making by those at risk and to affect policy and environmental changes at the community level.
 - A) Contractees must engage in community partnerships to identify and address the needs of high-risk populations, reduce racial and ethnic health disparities, and to educate families and the community on the importance of immunizations.

Contract Agreement Addendum: Exhibit I

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

- 5) Coordination with related programs to assure that identified public health needs are addressed in a comprehensive, cost-effective manner across programs and throughout the community.
 - A) Contractees must coordinate immunization services with local child healthcare (service) providers: e.g., WIC projects, Medical Assistance programs, and other local public health programs to assess the immunization status of, refer, and provide immunization services to under-immunized children.
- 6) A referral network sufficient to assure the accessibility and timely provision of services to address identified public health care needs.
 - A) Contractees must develop relationships among public and private healthcare providers to facilitate access by children and families to immunization services. Contractees should work with these providers to assure that current immunization guidelines are followed.
 - B) The LHD should promote the medical home concept by referring vaccine recipients to their medical home provider for subsequent immunizations and coordinate with this medical provider to assure adherence to the recommended immunization schedule.
 - C) LHDs should promote the exchange and sharing of immunization data using immunization registries.
 - D) The LHD will assure adequate surveillance, prompt reporting and epidemiologic follow-up of vaccine preventable diseases. When prompt reporting of a vaccine preventable disease does not occur, the LPHD will formally address the issue with the reporting agency to assure that reports are made according to the latest EPINet Manual.
- 7) Provision of guidance to staff through program and policy manuals and other means sufficient to assure quality health care and cost-effective program administration.
 - A) Contractees will ensure program staff is competent in current immunization program policy and processes, including that provided through the Centers for Disease Control and Prevention (CDC) distance learning course and CDC updates.
 - B) The LHD will follow the Wisconsin "Policies and Procedures Manual for Immunizations" developed and distributed by the Wisconsin Immunization Program, unless otherwise agreed upon; as well as Immunization Policy Memos issues periodically issued from the Wisconsin Immunization Program. The LHD must have written policies on the proper handling and storage of state-supplied vaccine as required by the Vaccines for Children (VFC) Program. These policies must be reviewed with all immunization program related staff on at least an annual basis.
- 8) Financial management practices sufficient to assure accurate eligibility determination, appropriate use of state and federal funds, prompt and accurate billing and payment for services provided and purchased, accurate expenditure reporting, and, when required, pursuit of third-party insurance and Medical Assistance Program coverage of services provided.
 - A) Billing for payment of childhood immunization services is not required under this section.
 - B) LHDs must assure that parents of children who are on Medical Assistance will not be charged a vaccine administration fee or be requested to make a donation for vaccine or vaccine related services. Administration fees cannot be mandatory and clients must be informed that failure to pay the administration fee or make a donation does not preclude them from receiving state-supplied vaccine. This information must be added to immunization advertising materials used by the LHD for state supplied

Contract Agreement Addendum: Exhibit I

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

vaccines. The message must be given to the client in a way and in a language the client understands.

- C) Grantees must screen for insurance eligibility in accordance with current DPH guidelines for state supplied vaccines.
- 9) Data collection, analysis, and reporting to assure program outcome goals are met or to identify program management problems that need to be addressed.
- A) Contractees must collect and analyze agency and available private provider immunization data for children 12-35 months of age, school immunization law reports and other available population-based information needed to identify strengths and weaknesses in local delivery systems and plan improvements. Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis.
 - B) LHDs will utilize the WIR for immunization level data analysis.
 - C) LHDs and Tribes will assure staff competence with the WIR system. LHD and Tribal health staff must attend at least one Regional WIR User Group Meetings or Wisconsin VFC Workshops where WIR is included in the agenda. Attendance at these meetings is necessary for staff to maintain a thorough working knowledge of the functionality of the WIR.

Contract Agreement Addendum: Exhibit I

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

Program: Radon Indoor Radon RICs Program Quality Criteria

- 1) Assessment and surveillance of public health to identify community needs and to support systematic, competent program planning and sound policy development with activities focused at both the individual and community levels.
 - A) Contractee must assess surveillance data (including their own data) for prevalence of homes with elevated indoor radon exposures in their regions. The Division of Public Health (DPH) radon zip-code map and database are at www.lowradon.org.
- 2) Delivery of public health services to citizens by qualified health professionals in a manner that is family centered, culturally competent, and consistent with the best practices; and delivery of public health programs for communities for the improvement of health status.
 - A) Cultural competence and other qualifications of persons delivering radon services must be the same as those of employees of local health agencies, such as environmental sanitarians and public health nurses.
- 3) Record keeping for individual focused services that assures documentation and tracking of client health care needs, response to known health care problems on a timely basis, and confidentiality of client information.
 - A) Contractee must maintain a database of measurements carried out by the public with agency assistance and, to the extent possible, follow cases of elevated exposures to promote appropriate interventions and outcomes. However, the ability to follow-up may be limited in some instances, since indoor radon is not regulated in Wisconsin and because detectors and mitigation services are available from the private sector.
- 4) Information, education, and outreach programs intended to address known health risks in the general and certain target populations to encourage appropriate decision making by those at risk and to affect policy and environmental changes at the community level.
 - A) Contractee must serve as a resource for information in their region, and provide referrals when requested for technical information they can't provide. This enables residents to understand the lung cancer risk from radon, test their homes for radon, interpret test results and follow-up testing, and obtain effective radon mitigation services where appropriate.
- 5) Coordination with related programs to assure that identified public health needs are addressed in a comprehensive, cost-effective manner across programs and throughout the community.
 - A) Contractee must coordinate outreach with other public health programs in their agency, adjusting services so as to fit into appropriate priorities among groups with other health needs.
 - B) Contractee must participate in radon outreach training by their regional Radon Information Center, and coordinate outreach for the Radon Action Month media blitz in January with them.
- 6) A referral network sufficient to assure the accessibility and timely provision of services to address identified public health care needs.
 - A) Contractee must use the referral network consisting of their Regional Radon Information Center, nationally certified radon mitigation contractors, and Web sites for fast access to DPH and EPA radon information and literature. The DPH Web site is www.lowradon.org.
- 7) Provision of guidance to staff through program and policy manuals and other means sufficient to assure quality health care and cost-effective program administration.

Contract Agreement Addendum: Exhibit I

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

- A) Contractee must provide guidance on radon testing and mitigation following US EPA policies as recommended in EPA's booklets: Citizen's Guide to Radon, Consumer's Guide to Radon Reduction, and Home Buyers and Seller's Guide to Radon, which are readable and downloadable through the US EPA radon web site and the DPH radon web site.
 - B) Contractee must meet criteria of cost-effective program administration in state and local statutes, ordinances and administrative rules.
- 8) Financial management practices sufficient to assure accurate eligibility determination, appropriate use of state and federal funds, prompt and accurate billing and payment for services provided and purchased, accurate expenditure reporting, and, when required, pursuit of third-party insurance and Medical Assistance Program coverage of services provided.
- A) Considerations of eligibility determination, pursuit of third-party insurance and Medical Assistance coverage do not apply to radon outreach funded by DPH.
- 9) Data collection, analysis, and reporting to assure program outcome goals are met or to identify program management problems that need to be addressed.
- A) Contractee must review results of radon measurements they have facilitated. To the extent funded and practicable, Contractee must follow cases where elevated screening tests are reported, to ensure appropriate follow-up testing is done, and to ensure that every opportunity for radon mitigation by sub-slab depressurization is given. However, because indoor radon is not regulated in Wisconsin and because detectors and mitigation services are available from the private sector, the ability to follow-up may be limited in some instances.
 - B) Contractee's report to the radon program in DPH must be sent by email, so it can be included in the DPH report to US EPA, which requires electronic reporting.

Contract Agreement Addendum: Exhibit I

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

Program: Wisconsin Well Woman Program Quality Criteria

- 1) Assessment and surveillance of public health to identify community needs and to support systematic, competent program planning and sound policy development with activities focused at both the individual and community levels.
 - A) There are no separate sub-criterion to this Quality Criteria Category.
- 2) Delivery of public health services to citizens by qualified health professionals in a manner that is family centered, culturally competent, and consistent with the best practices; and delivery of public health programs for communities for the improvement of health status.
 - A) The following information applies only to breast cancer screening: 1) Each coordinating agency must ensure it focuses its breast cancer screening outreach efforts on women ages 50-64. Seventy-five percent of women receiving mammograms should be between the ages of 50 and 64. 2) Each coordinating agency must document attempts to contact annually 100% of the women enrolled in the program, where rescreening is clinically indicated, to arrange mammography rescreening examinations, and must assure that at least 50% of these women are rescreened for breast cancer. 3) Each coordinating agency must follow the program standards for median days between abnormal mammography results and final diagnosis for women enrolled in the program. The median days between an abnormal mammography result and final diagnosis shall be less than 60 days, with not more than 25% over 60 days. 4) Each coordinating agency must document attempts to follow-up 100% of the women reported to have abnormal or suspicious breast cancer screening findings to assure they understand the need for further evaluation and to assist and refer them for appropriate diagnosis and treatment.
 - B) The following information applies only to cervical cancer screening: 1) Each coordinating agency must follow the program standards for median days between abnormal Pap smear results and final diagnosis for women enrolled in the program. The median days between an abnormal Pap smear result and final diagnosis shall be less than 60 days, with no more than 25% over 60 days. 2) Each coordinating agency must document attempts to follow-up 100% of the women reported to have abnormal or suspicious cervical cancer screening findings to assure they understand the need for further evaluation and to assist and refer them for appropriate diagnosis and treatment.
- 3) Record keeping for individual focused services that assures documentation and tracking of client health care needs, response to known health care problems on a timely basis, and confidentiality of client information.
 - A) Each coordinating agency must maintain a paper system or a computerized tracking database of women from its county enrolled in the program. At a minimum, the database should include annual eligibility determination, results of screening services provided, documentation of follow-up in situations of abnormal screening results, and recommended rescreening dates.
- 4) Information, education, and outreach programs intended to address known health risks in the general and certain target populations to encourage appropriate decision making by those at risk and to affect policy and environmental changes at the community level.
 - A) Each coordinating agency must document contacts made to recruit new WWWP clients with special emphasis on women 50-64 years of age. The agency must provide information and education about covered services and rescreening at appropriate intervals.

Contract Agreement Addendum: Exhibit I

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

- 5) Coordination with related programs to assure that identified public health needs are addressed in a comprehensive, cost-effective manner across programs and throughout the community.
 - A) There are no separate sub-criterion to this Quality Criteria Category.
- 6) A referral network sufficient to assure the accessibility and timely provision of services to address identified public health care needs.
 - A) Each coordinating agency is responsible for recruiting new providers to the WWWP as needed.
 - B) Women diagnosed with breast and/or cervical cancer will be referred to Well Woman Medicaid as appropriate.
 - C) Each coordinating agency must document contacts with each of its WWWP providers as needed, but at least quarterly, to access program status, identify needs, and share information.
- 7) Provision of guidance to staff through program and policy manuals and other means sufficient to assure quality health care and cost-effective program administration.
 - A) There are no separate sub-criterion to this Quality Criteria Category.
- 8) Financial management practices sufficient to assure accurate eligibility determination, appropriate use of state and federal funds, prompt and accurate billing and payment for services provided and purchased, accurate expenditure reporting, and, when required, pursuit of third-party insurance and Medical Assistance Program coverage of services provided.
 - A) Each coordinating agency must ensure accurate eligibility determination whether completed by the local coordinating agency or the provider.
 - B) Each coordinating agency must document attempts to ensure that billing problems between the providers and the fiscal agent are resolved.
 - C) Each coordinating agency is responsible for educating clients on program-covered services and client responsibility for non-covered services.
 - D) Each coordinating agency is responsible for educating providers on the WWWP and billing practices.
- 9) Data collection, analysis, and reporting to assure program outcome goals are met or to identify program management problems that need to be addressed.
 - A) There are no separate sub-criterion to this Quality Criteria Category.

Objective Statement

Template Objective 5 - Comprehensive Follow-up for Blood Lead Levels >10 micrograms per deciliter

Throughout the 2015 contract period, residents from the jurisdiction of the Taylor County Health Department will receive lead poisoning prevention and intervention services at a blood lead level greater than or equal to 10 mcg/dL.

Deliverable Due Date: 10/31/2016

Contract Deliverable (Evidence)

A report to document the extent to which assurance of each of the three follow-up components of this objective was provided, specifically: 1) the number of children with a capillary blood lead level greater than or equal to 10 micrograms per deciliter and the number who received a venous confirmation test; 2) the number of families with children with a venous blood lead level greater than or equal to 10 micrograms per deciliter and the number who received a home visit to provide information on lead poisoning prevention and treatment, and 3) the number of children with a venous blood lead level greater than or equal to 15 micrograms per deciliter and the number of environmental lead hazard investigations conducted on their primary residence and/or secondary properties, including accompanying work orders and property clearance. For evaluation purposes, those children whose families are non-responsive to outreach or moved from the jurisdiction before appropriate follow-up services could be provided can be removed from this cohort.

Programs Providing Funds for this Objective

Childhood Lead Consolidated: \$2,279

Agency Funds for this Objective:

Data Source for Measurement

An agency-generated report.

Baseline for Measurement

2014, we have had one child with greater than venous 10 who we continue to follow.

Context

There is no designated value range for this objective. This objective is intended to assure that the local health department is providing a comprehensive childhood lead poisoning prevention program and individual interventions for children with high (or moderate?) level lead exposure. For this objective, a home visit is required for all children with one or more venous blood lead levels greater than or equal to 10 micrograms per deciliter. For this objective, an environmental lead hazard investigation is required for all children with one or more venous blood lead levels greater than or equal to 15 micrograms per deciliter. This environmental lead hazard investigation includes a risk assessment of the property, issuance of work orders to address the identified lead hazards, and a clearance report indicating that the hazards have been controlled. The intent is to provide early environmental intervention in response to a lead poisoned child to prevent more severe lead poisoning. The environmental lead hazard investigation can include a child's primary residence and pertinent secondary properties. The procedure for the investigation is outlined in Chapter 7 of the WCLPPP Handbook (rev. 2014), and is conducted at lower blood lead levels than required by state statute (Wis Stat 254).

Context Continued

Input Activities

Our agency will follow the recommended guidelines for those children identified 10 or greater venous blood leads.

Objective Statement

LHD Template Objective

By December 31, 2015, 71% children residing in Taylor County Health Department jurisdiction who turn 24 months of age during the contract year will complete 4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hepatitis B, 1 Varicella and 4 Pneumococcal Conjugate (PCV) vaccination by their second birthday.

Deliverable Due Date: 02/15/2016

Contract Deliverable (Evidence)

A Wisconsin Immunization Registry (WIR) generated population based standard benchmark report documenting the number of children in Taylor County Health Department jurisdiction who turned 24 months of age in 2015 contract year. Reports should be run with a 45 day buffer to ensure that all updated data has been received by the WIR. If the objective is not met, include a report of the accountability targets and the progress achieved including the activities and interventions conducted; include any barriers that may have been identified.

For your information the cohort of children for this objective is:

Date of Birth 01/01/2013- 12/31/2013

Criteria for the 2015 End of the Year Report:

The date of birth for End of Year Benchmark: 01/01/2013 - 12/31/2013

Evaluation date: 01/01/2016

Run date: 02/15/2016

Programs Providing Funds for this Objective

Immunization: \$7,528

Agency Funds for this Objective:

Data Source for Measurement

Wisconsin Immunization Registry Records.

Baseline for Measurement

The 2013 end of year population based standard benchmark report will be used to determine the baseline for the 2015 population based objective.

For the baseline the following parameters will be used to run the benchmark report:

Birthdate Range: 01/01/2011 thru 12/31/2011

Evaluation Date: 01/01/2014

Run Date: After: 02/15/2014

Parameters for the baseline are: Benchmark age @ 24 months

Total clients: 230; 154 clients (67%) met all benchmark criteria, 76 clients did not

Context

Children will be assessed using the standard benchmark report for having 4 DTaP, 3 Polio, 1 MMR, 3 Hib 3 Hepatitis B, 1 varicella and 4 Pneumococcal Conjugate (PCV) vaccination by 24 months of age. Progress towards reaching 90% will be measured using a WIR Benchmark report. Only children who have moved out of the agency's jurisdiction may be removed from the cohort for

Contract Agreement Addendum: Exhibit II(B)

Contract #: 27487
Program: Immunization

Agency: Taylor County Health Department
Objective #: 1 of 1

Contract Year: 2015
Objective Value: \$7,528

analysis. Unless you can prove that a child has moved out of your jurisdiction, you cannot remove them from your cohort.

Guidelines for determining increase needed for progress towards 2015 goals:

2013 Calendar Year Baseline Required Increase:

50-59% - 5% Above Baseline;

60-69% - 4% Above Baseline;

70-79% - 3% Above Baseline;

80-85% - 2% Above Baseline;

86-89% - 1% Above Baseline;

> 90 - Maintain.

Agencies should consult with their Regional Immunization Program Advisor for assistance in determining activities and interventions that will help them achieve the required increase for their population assessment.

Context Continued

Input Activities

The Wisconsin Immunization Program recommends the following activities to help ensure success of this objective:

- Contacting parents of infants without immunization histories
- Tracking
- Coordination of immunization services with other LHD programs
- Sharing information with area physicians
- Requesting that information is entered into the WIR.
- Reminder/recall

The Wisconsin Immunization Program requires a minimum of 3 attempts to personally contact a responsible party.

Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that a child has moved out of your jurisdiction you cannot remove them from your cohort.

Reminder/recall activity is not listed in a particular order and we suggest you use the method that is the most successful for your community:

- Letter
- Phone call
- Home visit
- Email
- Text message

Contract Agreement Addendum: Exhibit II(B)

Contract #: 27487
Program: Immunization

Agency: Taylor County Health Department
Objective #: 1 of 1

Contract Year: 2015
Objective Value: \$7,528

Additional interventions/activities are in an addendum to the Immunization Program Boundary Statement. These are suggested interventions/activities that LHD's may want to consider in order to achieve this objective.

We continue to provided reminder/recall notices for children by mail in the cohort for one year for the entire county. Due to staffing and insufficient data, we cannot provide the additional outreach methods except mail. We have a large amish population who does not comply with immunizations. Our last report run demonstrates 20% of the identified population. They continue to receive letters until they notify us in writing or by phone they do not want the reminder letters. We have also seen a decrease in parents who can access our services due to change in requirements for delivery service population. Due to hours and number of local providers, increase deductible costs not covered, parents do not access local medical providers for immunizations and delaying immunizations which creates an access barrier. Another identified barrier are the number of parents who request only one immunization per visit because of fear of reactions to immunizations. These all have an impact on our % of children immunized.

Contract Agreement Addendum: Exhibit II(B)

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

Program: Maternal and Child Health Block Grant

Objective #: 1 of 1

Objective Value: \$13,857

Objective: Primary Details

Objective Statement

Template Objective 1

By December 31, 2015 implementation activities for the Wisconsin Healthiest Families Initiative will be undertaken by the Taylor County Health Department in collaboration with community partners focusing on mental health.

Deliverable Due Date: 01/31/2016

Contract Deliverable (Evidence)

1. A completed baseline assessment of agency core competencies by 1-31-15, updated throughout the year and completed by marking Final for Contract Year by 1-31-16.
2. A completed Partnership Report for the Focus Area(s) that directly align with the objective.
3. Documentation of the number of life course trainings held, audience, and the number of participants in Sphere.
4. Completed evaluation surveys as requested by the MCH Program.
5. Documentation of agency participation in the MCH/KKA annual summit.
6. A completed Wisconsin Healthiest Families Report related to the step identified in the Objective Statement.

Reporting forms are available at: <http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems>.

Programs Providing Funds for this Objective

Maternal and Child Health Block Grant: \$13,857

Agency Funds for this Objective:

Data Source for Measurement

1. SPHERE Report of the MCH Core Competencies
2. SPHERE Partnership Report to include data from the following tab/screen: Partnership Tool. Data entry on this screen includes partner Representation and Contribution of Partnership
3. SPHERE Community Report to include data from the following screens: Community Activity (all appropriate fields), Intervention: health Teaching; Subintervention: Life Course Framework
4. Evaluation and/or survey tools
5. MCH/KKA Summit attendee list
6. Reporting forms related to selected step(s) for Wisconsin Healthiest Families (available at: <http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems>)

Baseline for Measurement

Baseline information as identified in the 2015 Wisconsin Healthiest Families Supplement to GAC Objective.

Context

Note: This work will be accomplished over multiple years with progressive steps negotiated annually. The populations to be served are all infants and children, children and youth with special health care needs, and expectant and parenting families with young children with a special focus on those at risk for poor health outcomes.

All local health departments need to propose reasonable use of their allocated MCH dollars. Those agencies receiving greater allocations of MCH dollars will be expected to provide multiple steps, focus areas, input activities, and/or objectives.

Contract Agreement Addendum: Exhibit II(B)

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

Program: Maternal and Child Health Block Grant

Objective #: 1 of 1

Objective Value: \$13,857

Goal: To assure that all families in Wisconsin have access to a coordinated, integrated and sustainable system of services and supports focused on health promotion and prevention. For more information go to:
<http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems>.

Focus Areas: The focus areas for the Wisconsin Healthiest Families Initiative includes: family supports, child development, mental health, and safety and injury prevention. Go to
<http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems/WHFdefinitions.htm> for definitions. Agencies need to identify separate objectives for each focus area selected.

Framework: Key concepts of the Life Course Framework link to the Wisconsin Healthiest Families Initiative. The focus is on early childhood because it is a critical, sensitive period with life-long impacts on health. The objective promotes a plan for a community system that supports early childhood health and development that can build on protective factors and reduce risk factors for young children and families. Collaborations with community partners are important because the broader community environment strongly affects the capacity to be healthy. The lead for this work may vary from one community to the next and from one focus area to the next. Strengths of community partners should be promoted and supported through strategies identified by the collaborating partners. It is expected that education and/or training and utilization of the Life Course Framework concepts will be provided and implemented on an ongoing basis with community partners.

Outcomes: See sample outcomes at: <http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems/WHFdefinitions.htm>.

Context Continued

Primary Activities: The Wisconsin Healthiest Families Initiative will be implemented in collaboration with community partners. Sequential steps will be implemented to complete: 1) assessment, 2) plan, 3) implementation, and 4) evaluation and sustainability. These steps will be completed over multiple years. Reporting documents for these steps are located at:
<http://www.dhs.wisconsin.gov/health/mch/EarlyChildhoodSystems>.

Step 1: Assessment - Complete a community, population focused assessment that identifies the community program needs or other resources related to family supports, child development, mental health, and/or safety and injury prevention within the agency's jurisdiction. Assessment of multiple focus areas can be reported on one Assessment Findings form.

Step 2: Plan In collaboration with community partners, develop a plan that addresses the strengths and gaps identified in the assessment completed in Step 1. The plan should promote integrated, multi-sector service systems to assure services are easily accessed by expectant families and families with infants and young children, with special focus on those at risk for poor health outcomes. Coalitions/collaboratives will identify strategies and specific activities that map out their process to complete the initiative. The plan will be reported as a Community Logic Model (with one logic model submitted for each focus area) and must reflect the activities of the agency and partners.

Step 3: Implementation The agency and partners will implement strategies and activities identified in the plan completed in Step 2 to strengthen the system of early childhood services. Step 3 will be reported on the Implementation Report with one report submitted for each focus area addressed by the agency and partners.

Contract Agreement Addendum: Exhibit II(B)

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

Program: Maternal and Child Health Block Grant

Objective #: 1 of 1

Objective Value: \$13,857

Step 4: Evaluation and Sustainability ζ Evaluate the impact on the community of the strategies and activities implemented and identify how this system will be sustained long term.

Input Activities

Required activities to support assessment, planning, implementation, and evaluation/sustainability steps include the following:

- Complete an initial agency assessment of MCH Core Competencies and enter in SPHERE by January 31, 2015; review at mid-year; and update in SPHERE by contract reporting deadline.
- Participate in education to support the ongoing development of MCH Core Competencies.
- Identify existing and new community partners, their contributions, and level of collaboration via the Partnership Tool in SPHERE.
- Provide and implement education and/or training and utilization of the Life Course Framework on an ongoing basis with community partners and enter in SPHERE.
- Participate in MCH Program requests related to evaluation efforts throughout the contract year.
- Participate in the 2015 Wisconsin Healthiest Families and Keeping Kids Alive Summit.
- Engage in activities with community partners to accomplish assessment, planning, implementation and/or evaluation/sustainability, as identified in the 2015 Wisconsin Healthiest Families Supplement to GAC Objective.
- Request technical assistance from MCH contract administrator as needed.
- Promote the MCH Hotline.
- (Optional) Participate in a Learning Community.

Contract Agreement Addendum: Exhibit II(B)

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

Program: Radon Indoor Radon RICs

Objective #: 1 of 1

Objective Value: \$9,782

Objective: Primary Details

Objective Statement

This is a multi-year objective, from 2015 through 2017. Throughout calendar years 2015, 2016, and 2017, residents of North Central (Ashland, Bayfield, Iron, Lincoln, Price, Rusk and Taylor) Counties will be served by a regional Radon Information Center managed by the Taylor County Health Department.

Deliverable Due Date: 10/31/2016

Contract Deliverable (Evidence)

Six-month reports, emailed by 7/31/15 and 1/31/16 to the Division of Public Health, document the activities and progress toward the negotiated annual target quantities specified in the Context section of this contract. Each report should be emailed as a single file, with all documents, photographs, etc. incorporated in the file, as required for our reports to US EPA.

Programs Providing Funds for this Objective

Radon Indoor Radon RICs: \$9,782

Agency Funds for this Objective:

Data Source for Measurement

Agency records:

Report of DHS bi-annually on the: number of media responses to news releases and other outreach with journal publications and broadcasts: journal and/or broadcast station names; the dates, lengths, and scanned images or the media's website versions of the stories. For Outreach to Professional, Trade and Other Groups needing to know about radon for their work: names of meetings and shows, venues, dates, attendance, and supporting information like announcements and agendas. For Response to Requests for Radon Information and Consulting: A tally of public requests from all channels: telephone, email, walk-in, etc. For Radon Proficiency Certification: Who at the agency is currently certified for radon measurement and mitigation proficiency. For Training and Stocking of Cooperating Local Agencies: A list of local public health agencies in the region and how they are trained and stocked with handouts, detectors and literature as appropriate, with brief information on what they have done. For Statewide and Regional Meetings: meetings RIC staff attended. For Database Development: Summary of measurement results added to the database. Field Site Visits: Number of sites visited. Quality Control Results: spreadsheet of duplicate and sample results.

Baseline for Measurement

Context

These activities shall be completed in 2015: 1) **OUTREACH VIA MEDIA:** Staff will have issued news releases and other public outreach, stimulating reports on radon risk, testing, and mitigation in major journal and broadcast media. Some of the outreach will have been done during January (National Radon Action Month), for synergy with outreach by other LPHAs, WI DPH and US EPA. Media interviewing the RIC will have been encouraged to also contact local businesses and residents for their radon stories; and to include the RIC telephone number and state website address, www.lowradon.org. 2) **OUTREACH TO PROFESSIONAL AND TRADE GROUPS:** Presentations will have been delivered by staff at meetings, shows, or conferences of groups that need to deal with radon as part of their work, such as realtors, home builders, code officials and health professionals. 3) **RESPONSE TO REQUESTS FOR RADON INFORMATION:** Respond to public requests for radon information and consulting. 4) **RADON PROFICIENCY CERTIFICATION:** National proficiency certification for radon measurement and mitigation will have been maintained by at least one staff working on radon, unless they have attended all recent annual RIC meetings, in which case after eight years of an individual being certified they may let their certification lapse. 5) **TRAINING AND STOCKING OF COOPERATING LOCAL AGENCIES:** Staff will train cooperating local public health agencies in their region as interest arises and help with follow-up for elevated measurement results as needed. 6) **MEETINGS:** Staff will attend statewide conference calls and meetings of RICs and DPH. 7) **DATABASE DEVELOPMENT:** Staff will have add new results of radon measurements that they facilitated to a database. 8) **FIELD SITE VISITS:** Staff will visit sites to consult and become informed about challenging radon mitigations or measurements as funding and schedules permit. 9) **QUALITY ASSURANCE:** Staff will submit radon test kits on a routine basis for duplicate and blank samples, and maintain records of sample results on a spreadsheet. Submission of sample results will be included in 6 month reports to the Division of Public Health.

Contract #: 27487

Agency: Taylor County Health Department

Contract Year: 2015

Program: Women Infants Children Supplemental Nutrition

Objective #: 1 of 1

Objective Value: \$93,757

Objective: Primary Details

Objective Statement

Template Objective 1

During the contract budget period of January 1, 2015 through December 30, 2015, the Taylor County Health Department WIC Project will maintain an average monthly participation that is at least 97% of the assigned case load.

Deliverable Due Date: 12/31/2015

Contract Deliverable (Evidence)

The State WIC Office will be responsible for providing this deliverable. Monthly participation, 3-month average participation, and/or 12-month average participation per the monthly participation report will be maintained and monitored by the State WIC Office.

Programs Providing Funds for this Objective

Women, Infants, and Children (WIC) Supplemental Nutrition: \$ 93,757

Agency Funds for this Objective:

Data Source for Measurement

WIC Participation Reports. Baseline for Measurement:

Current caseload is 365 participants.

Programs Providing Funds for this Objective

Women Infants Children Supplemental Nutrition: \$93,757

Agency Funds for this Objective:

Data Source for Measurement

Baseline for Measurement

Context

WIC participation means the number of "total participating" on the monthly participation report maintained and monitored by the State WIC Program Office. It is defined as the number of WIC participants, who receive WIC food instruments for one calendar month,

including the number of exclusively breastfed infants.

Context Continued

Input Activities

Policies and procedures as outlined in the Wisconsin WIC Operations Manual.

Objective Statement

Template Objective 1:

By June 30, 2015, 10 Taylor County residents ages 35-64 years will be screened through the Wisconsin Well Woman Program.

Deliverable Due Date: 10/31/2016

Contract Deliverable (Evidence)

An agency generated report to document an unduplicated count of Taylor County residents ages 35-64 years who received screening services through the Wisconsin Well Woman Program.

Programs Providing Funds for this Objective

Wisconsin Well Woman: \$5,293

Agency Funds for this Objective:

Data Source for Measurement

Agency records.

Baseline for Measurement

We have provided 17 screening through August 2014

Context

Screening services supported by the Wisconsin Well Woman Program include breast cancer and cervical cancer. Refer to the program boundary statement and program updates for exceptions for women ages 35-44.

The Wisconsin Well Woman Program also provides staged assessment for Multiple Sclerosis for high risk women.
