

**DIVISION OF PUBLIC HEALTH
DPH CONTRACT 30519
AMENDMENT #2**

WIC Project # 47

The Department of Health Services, on behalf of the Division of Public Health and the Forest County Health Department agree to amend their original agreement for the following program(s) as follows: Adult Immunization (Profile 155032), WIC Farmers Market (Profile 154720) and WIC Peer Counseling (Profile 154760).

REVISION: SECTION 5. SERVICES

Additional projects to be completed as detailed in attached Exhibit(s).

Adjustment will be made to the Community Aids Reporting System (CARS) based on the information in the table below.

Agency #	Agency Type	Profile #	Current Contract Level	Contract Change Amount	New Contract Level	Funding Period
21	730	155032	\$0	\$1949	\$1949	5/1/2016-6/30/2017
21	630	154720	\$0	\$705	\$705	1/1/2016-12/31/2016
21	630	154760	\$0	\$7102	\$7102	1/1/2016-12/31/2016

All other terms and conditions of the original agreement remain unchanged.

Contract Objective Details - Complete

Contract #: 30519

Agency: Forest County Health Department

Contract Year: 2016

Program: Adult Immunization

Objective #: 1 of 1

Objective Value: \$1,949

Objective: Primary Details

Objective Statement (Template Objective)

Select at least one adult immunization objective (A). The Adult Immunization contract cycle will be May 1, 2016 through June 30, 2017 (14 months).

By June 30, 2017, 33% adults aged greater than or equal to 19 years residing in Forest County will have received a dose of 2016-2017 seasonal influenza vaccine.

Deliverable Due Date: 07/31/2017

Contract Deliverable (Evidence)

A Wisconsin Immunization Registry (WIR) generated population-based standard benchmark report documenting the number of adults in Forest County with an age-appropriate indication during the 14-month contract cycle. Reports should be run with a 45 day buffer to ensure that all updated data has been received by the Wisconsin Immunization Registry (WIR). Include a report of the accountability targets and the progress achieved including the activities and interventions conducted; include any barriers that may have been identified. A summary of progress made on the selected objective(s) will be required at project mid-point.

Date of birth range:

19-26 years: 7/1/1990-6/30/1998

greater than or equal to 19 years: less than or equal to 6/30/1998 (use 1/1/1900-6/30/1998 in benchmark report)

greater than or equal to 60 years: less than or equal to 6/30/1957 (use 1/1/1900-6/30/1957 in benchmark report)

greater than or equal to 65 years: less than or equal to 6/30/1952 (use 1/1/1900-6/30/1952 in benchmark report)

Evaluation date: 6/30/2017

Run date: 8/15/2017

Data Source for Measurement

Directions on how to pull benchmark reports from the WIR:

1. For all objectives: LHDs should choose "Clients Residing in Forest County" and Tribes should choose "Clients Associated with (your tribal health division)".
2. Choose "All Clients, regardless of whether they met the benchmark report or not".
3. Use the birth date range (outlined above) associated with your objective and the timing of the report you are running.
4. Choose a "Standard Assessment".
5. Use the evaluation date (outlined above) associated with the timing of the report you are running.
6. Select the benchmark that is associated with the objective you chose.

Tdap:

Hep B Influenza Pneumo-Poly Td Tdap Zoster

Adult COMPLETE UTD COMPLETE UTD *1* 1

3-Dose HPV Series:

Hep B HPV Meningo MMR Td Tdap Varicella

Adolescent COMPLETE 1 1 2 UTD 1 2

Adolescent Complete COMPELTE *3* 1 2 UTD 1 2

Zoster:

Hep B Influenza Pneumo-Poly Td Tdap Zoster

Adult COMPLETE UTD COMPLETE UTD 1 *1*

PCV13 and PPSV23

Hep B Influenza Pneumo-Poly Td Tdap Zoster

Adult COMPLETE UTD *COMPLETE* UTD 1 1

Baseline for Measurement

The WIR Benchmark Report was run using the criteria for influenza vaccine. The baseline for clients is 25% up to date with influenza vaccine. The benchmark result is:

Wisconsin Immunization Registry

Forest County Health Department

Filter conditions used for this report:

Clients Residing in County: FOREST

Both clients who DID or did NOT meet the selected benchmark(s)

Just consider immunizations as meeting the benchmark

Birth date between 01/01/1900 and 06/30/1996

Evaluation date: 06/30/2015

Adult Benchmark

Total clients: 10270; 2592 clients (25%) met all benchmark criteria, 7678 clients did not

Late up-to-date: 2592 clients (25%) met all benchmark criteria as of report generated date, 7678 clients did not

Selected benchmarks: Influenza (UTD)

Influenza Season From 07/01/2014 to 06/30/2015

The 2015 end of year population based standard benchmark report will be used to determine the baseline for the current adult population based objective.

For the baseline the following parameters will be used to run the benchmark report:

Date of birth range:

19-26 years: 1/1/1989-12/31/1996

greater than or equal to 19 years (Tdap): less than or equal to 12/31/1996 (use 1/1/1900-12/31/1996 in benchmark report)

greater than or equal to 19 years (Influenza): less than or equal to 7/1/1996 (use 1/1/1900-6/30/1996 in benchmark report)

greater than or equal to 60 years: less than or equal to 12/31/1955 (use 1/1/1900-12/31/1955 in benchmark report)

greater than or equal to 65 years: less than or equal to 12/31/1950 (use 1/1/1900-12/31/1950 in benchmark report)

Evaluation date: 1/1/2016 (for Tdap, HPV 3, Zoster and Pneumococcal), 6/30/2015 to assess the 2014-2015 influenza season coverage rates.

Run date: 2/15/2016

Context

Adults will be assessed using the benchmark report for having a dose or doses of Seasonal Influenza Vaccine. Progress towards reaching 90% will be measured using a WIR benchmark report. Only adults who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that an adult has moved out of your jurisdiction, you cannot remove them from your cohort.

Guidelines for determining increase needed for progress toward contract cycle goals:

20%-29% - 8% above baseline

30%-39% - 7% above baseline

40%-49% - 6% above baseline

50%-59% - 5% above baseline

60%-69% - 4% above baseline

70%-79% - 3% above baseline

80%-85% - 2% above baseline

86%-89% - 1% above baseline

greater than or equal to 90% - maintain

Agencies should consult with their Regional Immunization Representative for assistance with determining activities and interventions that will help them achieve the required increase for their population assessment.

Context Continued

Input Activities

Forest County Health Department will conduct the following activities for this objective:

Coordination of immunization services with other LHDs, clinics, and tribal health clinics through the Northwood's Immunization Coalition.
