Program Quality Criteria

Generally high program quality criteria for the delivery of quality and cost-effective administration of health care programs have been, and will continue to be, required in each public health program to be operated under the terms of this contract.

This Exhibit contains only applicable quality criteria for this contract.

Contract Agreement Addendum: Exhibit I

Contract #: 30554

Agency: Portage County Health & Human Services Department

Contract Year: 2016

Program: Immunization Program Quality Criteria

- 1) Assessment and surveillance of public health to identify community needs and to support systematic, competent program planning and sound policy development with activities focused at both the individual and community levels.
 - A) a. Contractees must assure reported vaccine preventable diseases (VPD) are investigated and controlled as detailed in the most current edition Wisconsin Disease Surveillance Manual (EPINET) and/or written disease-specific guidance from DPH (e.g. Pertussis Guidelines). Local Health Departments (LHDs) should maintain regular contact with local required reporters of VPDs to encourage and assure prompt reporting. Contractees should solicit the help of the Wisconsin Immunization Program when needed to help assure that an adequate system is in place to report and investigate VPD.
 - B) b. Contractees must annually formally evaluate immunization delivery and the use of vaccine preventable disease surveillance systems and improve the use of those systems in their jurisdictions where needed (e.g., the Wisconsin Electronic Disease Surveillance System (WEDSS)).
 - C) c. Contractees must work in collaboration with the Wisconsin Immunization Program to increase the use of existing electronic data collection systems for vaccine record keeping and vaccine preventable disease data systems
- 2) Delivery of public health services to citizens by qualified health professionals in a manner that is family centered, culturally competent, and consistent with the best practices; and delivery of public health programs for communities for the improvement of health status.
 - A) Contractees must assure the delivery of immunization services in a safe, effective and efficient manner as detailed in the Wisconsin Immunization Program Policies and Procedures Manual and in section 252, HFS 145, Wis. Admin. Code. Contractees must assure the immunization of children is consistent with Healthy People 2020 goals.
- 3) Record keeping for individual focused services that assures documentation and tracking of client health care needs, response to known health care problems on a timely basis, and confidentiality of client information.
 - A) Contractees must use the Wisconsin Immunization Registry (WIR) or an electronic immunization population-based data system that links with the WIR. The data system must have a tracking and recall function to identify children whose immunization records are behind schedule according to the ACIP recommendations. Tracking and recall shall be conducted at least every other month as required by the Wisconsin "Policies and Procedures Manual for Immunization Programs".
 - B) Contractees immunization practice must assure the immunization of children, and share children's immunization records with parents or guardians, schools and day care centers and other healthcare providers as provided by the Wisconsin School Immunization Law HFS 144 (section 252).
- 4) Information, education, and outreach programs intended to address known health risks in the general and certain target populations to encourage appropriate decision making by those at risk and to affect policy and environmental changes at the community level.
 - A) a. Contractees must engage in community partnerships to identify and address the needs of high-risk populations, reduce racial and ethnic health disparities, and to educate families and the community on the importance of immunizations.

Contract Agreement Addendum: Exhibit I

Contract #: 30554

Agency: Portage County Health & Human Services Department

Contract Year: 2016

- b. Contractees should engage in improving health literacy for the public and for the healthcare personnel working with immunizations to better understand, evaluate, and communicate immunization information.
- 5) Coordination with related programs to assure that identified public health needs are addressed in a comprehensive, cost-effective manner across programs and throughout the community.
- A) Contractees must coordinate public and private immunization services with local child healthcare (service) providers: e.g., WIC projects, Medical Assistance programs, and other local public health programs to assess the immunization status of, refer, and provide immunization services to under-immunized children.
- 6) A referral network sufficient to assure the accessibility and timely provision of services to address identified public health care needs.
- A) Contractees must develop relationships among public and private healthcare providers to facilitate access by children and families to immunization services. Contractees should work with these providers to assure that current immunization guidelines are followed.
- B) The LHD should promote the medical home concept by referring vaccine recipients to their medical home provider for subsequent immunizations and coordinate with this medical provider to assure adherence to the recommended immunization schedule.
- C) LHDs should promote the exchange and sharing of immunization data using immunization registries.
- D) The LHD will assure adequate surveillance, prompt reporting and epidemiologic follow-up of vaccine preventable diseases. When prompt reporting of a vaccine preventable disease does not occur, the LPHD will formally address the issue with the reporting agency to assure that reports are made according to the latest EPINet Manual.
- 7) Provision of guidance to staff through program and policy manuals and other means sufficient to assure quality health care and cost-effective program administration.
- A) Contractees will ensure program staff is competent in current immunization program policy and processes, including that provided through the Centers for Disease Control and Prevention (CDC) distance learning course and CDC updates.
- B) The LHD will follow the Wisconsin "Policies and Procedures Manual for Immunizations" developed and distributed by the Wisconsin Immunization Program, unless otherwise agreed upon; as well as Immunization Policy Memos periodically issued from the Wisconsin Immunization Program. The LHD must have written policies on the proper handling and storage of state-supplied vaccine as required by the Vaccines for Children (VFC) Program. These policies must be reviewed with all immunization program related staff on at least an annual basis.
- 8) Financial management practices sufficient to assure accurate eligibility determination, appropriate use of state and federal funds, prompt and accurate billing and payment for services provided and purchased, accurate expenditure reporting, and, when required, pursuit of third-party insurance and Medical Assistance Program coverage of services provided.
- A) Billing for payment of childhood immunization services is not required under this section.
- B) LHDs must assure that parents of children who are on Medical Assistance will not be charged a vaccine administration fee or be requested to make a donation for vaccine or vaccine related services.

Contract Agreement Addendum: Exhibit I

Contract #: 30554

Agency: Portage County Health & Human Services Department

Contract Year: 2016

Administration fees cannot be mandatory and clients must be informed that failure to pay the administration fee or make a donation does not preclude them from receiving state-supplied vaccine. This information must be added to immunization advertising materials used by the LHD for state supplied vaccines. The message must be given to the client in a way and in a language the client understands.

- C) Grantees must screen for insurance eligibility in accordance with current DPH guidelines for state supplied vaccines.
- 9) Data collection, analysis, and reporting to assure program outcome goals are met or to identify program management problems that need to be addressed.
- A) Contractees must collect and analyze agency and available private provider immunization data for children 12-35 months of age, school immunization law reports and other available population-based information needed to identify strengths and weaknesses in local delivery systems and plan improvements. Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis.
 - B) LHDs will utilize the WIR for immunization level data analysis.
 - C) LHDs and Tribes will assure staff competence with the WIR system. LHD and Tribal health staff must attend at least one Regional WIR User Group Meetings or Wisconsin VFC Workshops where WIR is included in the agenda. Attendance at these meetings is necessary for staff to maintain a thorough working knowledge of the functionality of the WIR.

Deliverable Due Date: 01/31/2017

Contract Deliverable (Evidence)

A Wisconsin Immunization Registry (WIR) generated population based standard benchmark report documenting the number of children in Portage County Health and Human Services Department's jurisdiction who turned 24 months of age in 2016 contract year. Reports should be run with a 45 day buffer to ensure that all updated data has been received by the WIR. If the objective is not met, include a report of the accountability targets and the progress achieved including the activities and interventions conducted; include any barriers that may have been identified.

Baseline for Measurement

The 2014 baseline for measurement from the WIR Benchmark report is: Total clients: 761; 573 clients (75%) met all benchmark criteria, 188 clients did not

The 2014 end of year population based standard benchmark report will be used to determine the baseline for the 2016 population based objective.

For the baseline the following parameters will be used to run the benchmark report: Birthdate Range: 01/01/2012 thru 12/31/2012

Evaluation Date: 01/01/2015

Run Date: After: 02/15/2015

Context

Children will be assessed using the standard benchmark report for having 4 DTaP, 3 Polio, 1 MMR, 3 Hib 3 Hepatitis B, 1 varicella and 4 Pneumococcal Conjugate (PCV) vaccination by 24 months of age. Progress towards reaching 90% will be measured using a

- Coordination of immunization services with other LHD programs

- Sharing information with area physicians

- Requesting that information is entered into the WIR.

- Reminder/recall

The Wisconsin Immunization Program requires a minimum of 3 attempts to personally contact a responsible party. Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless

you can prove that a child has moved out of your jurisdiction you cannot remove them from your cohort.

Reminder/recall activity is not listed in a particular order and we suggest you use the method that is the most successful for your community:

- Letter

- Phone call

- Home visit

- Email

- Text message

Additional interventions/activities are in an addendum to the Immunization Program Boundary Statement. These are suggested interventions/activities that LHD's may want to consider in order to achieve this objective.

Context

A school-based fluoride mouthrinse program is an evidence-based prevention strategy that prevents dental caries (cavities). The children targeted by this objective must be in first grade or above. School-based fluoride mouthrinse programs are not indicated in fluoridated communities or where the natural fluoride level is at an appropriate level. Programs should follow the guidelines for implementation, training, record keeping, and safety outlined in the School Based Fluoride Mouthrinse Manual: A Guide and Training Manual for Mouthrinse Coordinators, Administrators, Teachers, and Volunteers.
