

**DIVISION OF PUBLIC HEALTH  
DPH CONTRACT 30562  
AMENDMENT #2**

WIC Project # 43

The Department of Health Services, on behalf of the Division of Public Health and the Shawano County Health Department agree to amend their original agreement for the following program(s) as follows: Adult Immunization (Profile 155032) and WIC Farmers Market (Profile 154720).

REVISION: SECTION 5. SERVICES

Additional projects to be completed as detailed in attached Exhibit(s).

Adjustment will be made to the Community Aids Reporting System (CARS) based on the information in the table below.

Agency #	Agency Type	Profile #	Current Contract Level	Contract Change Amount	New Contract Level	Funding Period
58	730	155032	\$0	\$4278	\$4278	5/1/2016-6/30/2017
58	630	154720	\$0	\$1319	\$1319	1/1/2016-12/31/2016

All other terms and conditions of the original agreement remain unchanged.

## Contract Objective Details - Complete

Contract #: 30562

Agency: Shawano-Menominee Counties Health Department

Contract Year: 2016

Program: Adult Immunization

Objective #: 1 of 1

Objective Value: \$4,278

### Objective: Primary Details

#### Objective Statement (Template Objective)

Select at least one adult immunization objective (A). The Adult Immunization contract cycle will be May 1, 2016 through June 30, 2017 (14 months).

By June 30, 2017, 60% adults aged greater than or equal to 19 years residing in Shawano and Menominee Counties will have received a dose of Tdap.

**Deliverable Due Date:** 07/31/2017

#### Contract Deliverable (Evidence)

A Wisconsin Immunization Registry (WIR) generated population-based standard benchmark report documenting the number of adults in Shawano and Menominee Counties with an age-appropriate indication during the 14-month contract cycle. Reports should be run with a 45 day buffer to ensure that all updated data has been received by the Wisconsin Immunization Registry (WIR). Include a report of the accountability targets and the progress achieved including the activities and interventions conducted; include any barriers that may have been identified. A summary of progress made on the selected objective(s) will be required at project mid-point.

Date of birth range:

19-26 years: 7/1/1990-6/30/1998

greater than or equal to 19 years: less than or equal to 6/30/1998 (use 1/1/1900-6/30/1998 in benchmark report)

greater than or equal to 60 years: less than or equal to 6/30/1957 (use 1/1/1900-6/30/1957 in benchmark report)

greater than or equal to 65 years: less than or equal to 6/30/1952 (use 1/1/1900-6/30/1952 in benchmark report)

Evaluation date: 6/30/2017

Run date: 8/15/2017

#### Programs Providing Funds for this Objective

Adult Immunization: \$4,278

#### Agency Funds for this Objective:

#### Data Source for Measurement

Directions on how to pull benchmark reports from the WIR:

1. For all objectives: LHDs should choose "Clients Residing in (your jurisdiction)" and Tribes should choose "Clients Associated with (your tribal health division)".
2. Choose "All Clients, regardless of whether they met the benchmark report or not".
3. Use the birth date range (outlined above) associated with your objective and the timing of the report you are running.
4. Choose a "Standard Assessment".
5. Use the evaluation date (outlined above) associated with the timing of the report you are running.
6. Select the benchmark that is associated with the objective you chose.

Tdap:

Hep B Influenza Pneumo-Poly Td Tdap Zoster

Adult COMPLETE UTD COMPLETE UTD \*1\* 1

3-Dose HPV Series:

Hep B HPV Meningo MMR Td Tdap Varicella

Adolescent COMPLETE 1 1 2 UTD 1 2

Adolescent Complete COMPELITE \*3\* 1 2 UTD 1 2

Zoster:

Hep B Influenza Pneumo-Poly Td Tdap Zoster

Adult COMPLETE UTD COMPLETE UTD 1 \*1\*

PCV13 and PPSV23

Hep B Influenza Pneumo-Poly Td Tdap Zoster

Adult COMPLETE UTD \*COMPLETE\* UTD 1 1

Influenza

Hep B Influenza Pneumo-Poly Td Tdap Zoster

Adult COMPLETE \*UTD\* COMPLETE UTD 1 1

Contract #: 30562

Agency: Shawano-Menominee Counties Health Department

Contract Year: 2016

Program: Adult Immunization

Objective #: 1 of 1

Objective Value: \$4,278

7. Click "Generate".

### Baseline for Measurement

Shawano Menominee Health Department WIR benchmark baseline report result: Birth date between 01/01/1900 and 12/31/1996

Evaluation date: 01/01/2016

Adult Benchmark

Total clients: 40064; 22009 clients (55%) met all benchmark criteria, 18055 clients did not. Add 5 % for a deliverable of 60%

The 2015 end of year population based standard benchmark report will be used to determine the baseline for the current adult population based objective.

For the baseline the following parameters will be used to run the benchmark report:

Date of birth range:

19-26 years: 1/1/1989-12/31/1996

greater than or equal to 19 years (Tdap): less than or equal to 12/31/1996 (use 1/1/1900-12/31/1996 in benchmark report)

greater than or equal to 19 years (Influenza): less than or equal to 7/1/1996 (use 1/1/1900-6/30/1996 in benchmark report)

greater than or equal to 60 years: less than or equal to 12/31/1955 (use 1/1/1900-12/31/1955 in benchmark report)

greater than or equal to 65 years: less than or equal to 12/31/1950 (use 1/1/1900-12/31/1950 in benchmark report)

Evaluation date: 1/1/2016 (for Tdap, HPV 3, Zoster and Pneumococcal), 6/30/2015 to assess the 2014-2015 influenza season coverage rates.

Run date: 2/15/2016

### Context

Adults will be assessed using the benchmark report for having a dose or doses of Tdap. Progress towards reaching 90% will be measured using a WIR benchmark report. Only adults who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that an adult has moved out of your jurisdiction, you cannot remove them from your cohort.

Guidelines for determining increase needed for progress toward contract cycle goals:

20%-29% - 8% above baseline

30%-39% - 7% above baseline

40%-49% - 6% above baseline

50%-59% - 5% above baseline

60%-69% - 4% above baseline

70%-79% - 3% above baseline

80%-85% - 2% above baseline

86%-89% - 1% above baseline

greater than or equal to 90% - maintain

Agencies should consult with their Regional Immunization Representative for assistance with determining activities and interventions that will help them achieve the required increase for their population assessment.

### Context Continued

### Input Activities

The Shawano Menominee Counties Health Department will do the following activities recommended by the The Wisconsin Immunization Program activities to help ensure the success of this objective:

1) Host a provider breakfast seminar, inviting the five health systems and two tribal clinics to participate. Topics to be covered include:

- Sharing information on the Adult Immunization Standards with local health care providers (e.g., during educational sessions or coalition symposiums)

- Requesting that adult vaccine doses administered are entered into the WIR

- Share best practices and communication strategies to improve referrals and immunization information to clients.

Additionally, SMCHD will attend an Immunization Program-approved adult immunization conference (using up to \$500 of adult immunization grant funds) and plan for disseminating information gathered during an educational session with local health care providers.
