2.

A. LHD Template Objective

By December 31, 2014, xx% children residing in (insert health department) jurisdiction who turn 24 months of age during the contract year will complete 4 DTaP, 3 Polio, 1 MMR, 3 Hib, 3 Hepatitis B, 1 Varicella and 4 Pneumococcal Conjugate (PCV) vaccination by their second birthday.

- B.** A Wisconsin Immunization Registry (WIR) generated population based standard benchmark report documenting the number of children in (insert health department) jurisdiction who turned 24 months of age in 2014 contract year. Reports should be run with a 45 day buffer to ensure that all updated data has been received by the WIR. If the objective is not met, include a report of the accountability targets and the progress achieved including the activities and interventions conducted; include any barriers that may have been identified.

For your information the cohort of children for this objective is:

Date of Birth 01/01/2012- 12/31/2012

Criteria for the 2014 End of the Year Report:

The date of birth for End of Year Benchmark: 01/01/2012 ; 12/31/2012

Evaluation date: 01/01/2015

Run date: 02/15/2015

- C.** Children will be assessed using the standard benchmark report for having 4 DTaP, 3 Polio, 1 MMR, 3 Hib 3 Hepatitis B, 1 varicella and 4 Pneumococcal Conjugate (PCV) vaccination by 24 months of age. Progress towards reaching 90% will be measured using a WIR Benchmark report. Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that a child has moved out of your jurisdiction, you cannot remove them from your cohort.
- D.** The Wisconsin Immunization Program recommends the following activities to help ensure success of this objective:
- Contacting parents of infants without immunization histories
 - Tracking
 - Coordination of immunization services with other LHD programs
 - Sharing information with area physicians
 - Requesting that information is entered into the WIR.

G For Your Information

- Reminder/recall

The Wisconsin Immunization Program requires a minimum of 3 attempts to personally contact a responsible party.

Only children who have moved out of the agency's jurisdiction may be removed from the cohort for analysis. Unless you can prove that a child has moved out of your jurisdiction you cannot remove them from your cohort.

Reminder/recall activity is not listed in a particular order and we suggest you use the method that is the most successful for your community:

- Letter

- Phone call

- Home visit

- Email

- Text message

Additional interventions/activities are in an addendum to the Immunization Program Boundary Statement. These are suggested interventions/activities that LHD's may want to consider in order to achieve this objective.

- E. The 2012 end of year population based standard benchmark report will be used to determine the baseline for the 2014 population based objective. There is no percentage increase for 2014; health departments need to meet or exceed the baseline percentage.

For the baseline the following parameters will be used to run the benchmark report:

Birthdate Range: 01/01/2010 thru 12/31/2010

Evaluation Date: 01/01/2013

Run Date: After: 02/15/2013

- F. Wisconsin Immunization Registry Records.

- G. Criteria for the Mid-Year Report:

There will not be a mid-year review for 2014. The criteria below are provided for those who choose to run a mid-year benchmark.

The date of birth for Mid-Year Benchmark: 01/01/2012 - 06/30/2012

Evaluation date: 07/01/2014
