

## 2016 MCH/CYSHCN Program Parameters

The Title V Maternal and Child Health (MCH) Services Block Grant creates Federal-State-Local partnerships to develop state and local systems to meet the critical challenges facing women, children and families. Local health departments and tribal agencies are encouraged to work with community and state partners to achieve common program goals. The Program wants to assure coordination with Regional Centers for Children and Youth with Special Health Care Needs (CYSHCN) as appropriate. States are required to use at least 30% of Title V Block Grant funds for preventive and primary care programs serving children; and at least 30% of funds must support programs for children and youth with special health care needs.

### Target Populations

The populations to be served are all infants and children, including children and youth with special health care needs, and expectant and parenting families with young children, with a special focus on those at risk for poor health outcomes.

### State MCH Priorities

The Wisconsin 2016-2020 MCH Program's priorities emphasize life-long prevention, increased understanding of the impact of a community's physical, social, economic and environment on health and use of the life course framework. The priorities are not specific health risks or protective factors, but identify key priorities for identify specific activities and interventions to target a myriad of factors as early as possible. These priorities acknowledge the role of families, health systems and communities on the risk and protective factors that may impact an individual's health.

New MCH priorities and performance measures address the following: 1) **Safety and Injury Prevention:** Adolescent Injury and Safe Sleep; 2) **Healthy Behaviors:** Breastfeeding; 3) **Mental Health and Healthy Relationships:** Postpartum Depression/Screening and Tobacco Cessation and Exposure; 4) **Preventive Screening and follow-up:** Developmental Screening; 5) **Health Care Access and Quality:** Medical Home, Transition and Annual Preventive Visits (women 18-44 and adolescents).

### CYSHCN Objectives and Required Activities

The Wisconsin MCH Title V Program continues to fund five Regional Centers for CYSHCN, Great Lakes Inter-Tribal Council (GLITC) CYSHCN, and statewide hubs of expertise. Objectives and strategies support national performance measures for CYSHCN which are medical homes and transition to adult life. In addition, there is a focus on strengthening parent leadership. **Required activities include:**

1. Attend and participate in all Directors, Collaborators and Information &Referral meetings and or calls.
2. Participation in CYSHCN Medical Home Systems Integration Grant Initiative.
3. Advance knowledge in the following areas: basic understanding of Wisconsin children with special health care needs survey data, basic understanding of quality improvement concepts and terminology, understanding of the medical home model and concepts, understanding of youth health transition concepts and Got Transition domains, understanding of family engagement and leadership, basic understanding of CYSHCN

standards, cultural competence, basic understanding of disability and healthcare disparities, health equity, life course theory and application, and population health. See attached list of links to information for each of the knowledge areas.

4. Complete an annual ABC for Health's health benefits staff competency assessment.
5. In consultation with the CYSHCN Program, serve in leadership roles on statewide committees and boards to advance and promote awareness of CYSHCN mission and goals.
6. Establish a link to the MCH Hotline website at <http://www.mch-hotlines.org/> and provide hotline numbers after hours: MCH Hotline 1-800-722-2295 & Wisconsin First Step 1-800-722-2295 and, add or link to the CYSHCN Networks of Support for Families one-pager.
7. Attend the 2016 MCH/CYSHCN Summit.
8. Reported 75% match to CARs using the following profile ID 193001 for CYSHCN by January 3, 2017.

### **MCH Objectives and Required Activities**

Local public health departments and tribal agencies continue to receive Title V MCH funds for objectives supporting the new MCH National Priorities. The objectives and strategies outlined for agencies will help measure and accomplish our overall goals. LHDs can use local community health assessments, surveillance data, Wisconsin County Maternal and Child Health Profiles and other data sources to assist with strategy selection and systematic program planning and policy development to implement and evaluate each selected strategy.

#### **Required Activities include:**

1. Attend the 2016 MCH/CYSHCN Summit.
2. Exhibit and/or advance knowledge in the following areas: basic quality improvement concepts and terminology, family engagement and leadership, cultural competence, life course theory, Adverse Childhood Experiences, trauma informed care and application.
3. Establish a link to the MCH Hotline website at <http://www.mch-hotlines.org/> and provide hotline numbers after hours: MCH Hotline 1-800-722-2295 & Wisconsin First Step 1-800-722-2295 and, add or link to the CYSHCN Networks of Support for Families one-pager.
4. Report 75% match to CARs using the following profile ID 193002 for MCH by January 31<sup>st</sup> 2017.
5. Participate in MCH Program evaluation efforts throughout the contract year.
6. Request technical assistance as needed from the MCH contract administrator.

### **Data Collection, Analysis and Reporting**

Contractees funded with Title V MCH Block Grant dollars must use SPHERE (Secure Public Health Electronic Record Environment) to collect and analyze data as defined within the objective's Data Source for Measurement. Other reporting requirements will be determined before and during contract negotiations and defined in the contract deliverable.

**Match Requirement**

Contractees must provide 75% match (\$0.75 local contribution for every \$1.00 federal) for all Title V MCH Block grant funds and report through the CARS system as described in the contract. Agencies that do not meet their MCH match requirements may be subject to repayment of awarded grant funds.

*Note: see required activity above for CYSHCN and MCH objectives.*

**Outreach and Promotion**

All materials for public distribution developed by a contractee funded by the Title V MCH Block Grant must identify the funding source on the publication as follows: “Funded in part by the MCH Title V Services Block Grant, Maternal and Child Health Bureau, Health Resources and Services Administration, U.S. Department of Health and Human Services.”

## 2016 CYSHCN Regional Center Parameters – Knowledge Topic Areas

These websites are available to advance Regional Center staff knowledge in the following areas:

### Wisconsin Children and Youth with Special Health Care Needs Survey Data

Home page for the National Survey for CSHCN: <http://www.cshcndata.org/>

Wisconsin CSHCN state profile: <http://www.cshcndata.org/browse/snapshots/cshcn-profiles?rpt=9&geo=51>

Home page for National Survey of Children: these surveys also identified children with special health care needs [www.childhealth.data.org](http://www.childhealth.data.org)

### Quality Improvement Concepts and Terminology

Basis understanding of the Model for Improvement

Institute for Healthcare Improvement Resources – How to Improve pages describe the Model for Improvement <http://www.ihl.org/resources/Pages/HowtoImprove/default.aspx>
