<b>C Context</b>	<b>F Data Source for Measurement</b>	

### 1.

#### A. Template Objective 1

School-Based Fluoride Mouthrinse Program: By December 31, 2015, (insert number) children in first grade and above from non-fluoridated communities will participate in a weekly school-based fluoride mouthrinse program administered by the (insert name) Health Department during the 2014-2015 school year.

B. A report to document, by grade and community, the number of children who participated in a school-based fluoride mouthrinse program administered by the (insert name) Health Department during the 2014-2015 school year.

C. School-based fluoride mouthrinse programs are evidence-based prevention strategies that prevent dental caries (cavities). The children targeted by this objective must be in first grade or above. School-based fluoride mouthrinse programs are not indicated in fluoridated communities or where the natural fluoride level is at an appropriate level.

C.

D.

E.

F. 1. Wisconsin Oral Health Program Annual Report will be provided and must be completed and submitted with documentation of the number of children, including grade and community, who participated in the fluoride mouthrinse program during the 2014-2015 school year.

2. SPHERE Community Report to include the data from the following screens: Community Activity (all appropriate fields) and Fluoride Mouthrinse (no detail screen).

G. Technical assistance is available through the DHS Oral Health Program. Contact Robbyn Kuester, BSDH, RDH at (608) 266-0876 or Robbyn.Kuester@wisconsin.gov.
