#Access4All Video Watch Party

GCPD Video Series Documents Barriers to Healthcare for People with Disabilities

The Governor's Committee for People with Disabilities (GCPD) is dedicated to enhancing the health and well-being of Wisconsin citizens who have disabilities. As a committee of Governor-appointed volunteers with cross-disability council representation and GCPD serves to advise the Governor, state agencies, and the state legislature on issues of concern for people who have disabilities.

GCPD is asking our community partners and stakeholders to share information about our upcoming launch party on their websites, social media, print, and other publications.

GCPD has included a sample twitter message, Facebook message, email message, and outreach flyer for your agency's use.

The Governor's Committee for People with Disabilities (GCPD) recently completed a video series documenting the barriers to healthcare experienced by people with disabilities. GCPD is hosting the #Access4All Video Watch Party via teleconference, on world accessibility day, Thursday, May 19, 2022, from 3:30-5:00 P.M.

GCPD's #Access4All video project highlights testimonials from people with disabilities and their caregivers about the physical and communication barriers experienced in healthcare settings. It is critically important that we listen and learn from the experiences and stories of individuals with disabilities, so that Wisconsin can continue to be a strong leader in offering the best quality of health care to all citizens.

During the Watch Party, the audience will view videos from GCPD's #Access4All video project, learn about communication and other tools available to address barriers in healthcare settings in the Emergency Preparedness Folder, and participate in a facilitated discussion about the videos and challenges faced by people with disabilities in healthcare settings.

The Watch Party can be accessed via Zoom or by phone. Meeting materials are attached.
