- Based on the meeting with DHS senior leadership, IRIS and Family Care are going to draft a letter for people with disabilities to take with them to medical appointments and treatments and draft some guidance for providers. These documents will be reviewed by external stakeholders including GCPD before they are finalized.
- The hope is to have these documents completed by mid-December 2020.
- The Executive Committee thanked Fred Ludwig for his work on this issue.
- The Executive Committee also discussed that in some situations, even when a person has guardianship or Power of Attorney papers, they are still being denied the opportunity to attend medical appointments and treatments with the individuals they are caring for.
- The Executive Committee also discussed that accommodations being denied due to the state of emergency in medical settings is leading to increased reliance on a disability support person to accompany a person with a disability so they can effectively communicate and understanding information being provided by medical providers.
 - Margaret Kristan stated that maybe sending the IRIS and Family Care guidance documents along with a reminder about accommodations to providers such as the Hospital Association might be helpful.
 - Fred Ludwig said this is something the Lieutenant Governor's office may be able to do.
 - Fred Ludwig also stated he will be attending the GCPD Bi-Monthly meeting on December 2, 2020 and can provide further updates to the full Committee at that time.
