

# New IP Lunch and Learn

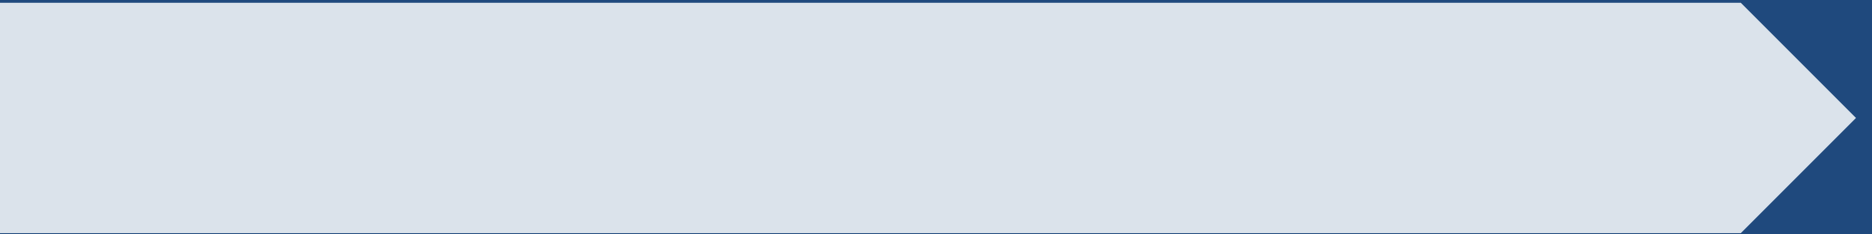

Ashley O'Keefe, MLS(ASCP)<sup>CM</sup>, CIC

September 13, 2022

# Infection Preventionist Lunch and Learn Series

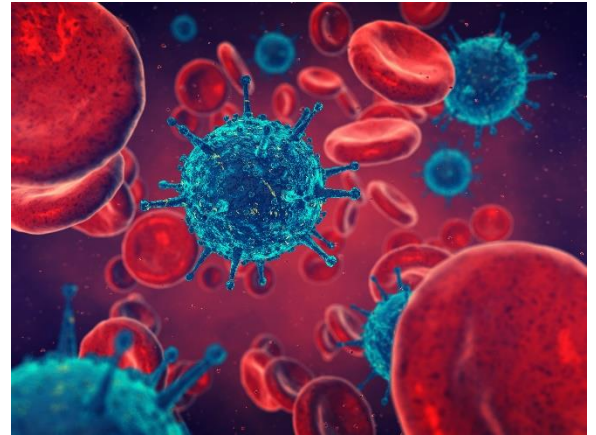

- A new call series for Infection Preventionists (IPs) of all care settings that:
  - Encourages learning, growing, and networking.
  - Provides education and information that is non-regulatory.
  - Discusses topics relevant to new IPs.
- Each session will have time set aside for Q&A.

# Bloodborne Pathogens: What Does the IP Need to Know?

# What Are Bloodborne Pathogens (BBPs)?

- The microorganisms found in blood and other bodily fluids including:
  - Hepatitis B
  - Hepatitis C
  - HIV/AIDS

# What is the BBP Standard?

- Occupational Safety and Health Administration (OSHA) requirement to protect employees:
  - Establish an exposure control plan
  - Update the plan annually

# Exposure Control Plan

- Designed to minimize or eliminate employee exposure to BBPs.
- Required elements include:
  - Exposure determination
  - Implementation of standard precautions
  - Engineering and work practice controls
  - Personal Protective Equipment (PPE)
  - Hepatitis B vaccine

# Exposure Control Plan

- Required elements continued:
  - Post exposure evaluation and follow-up\*
  - Communicate hazards via labels and signs
  - Staff training and information
  - Maintain exposure and training records

\*CDC Post Exposure Prophylaxis Hotline (PEpline) 1-888-448-4911
