# What is BadgerNet

BadgerNet is the replacement to what is commonly referred to today as BCN.

The BadgerNet network has been designed as an *affordable, scalable, futureproof, and secure high speed* broadband service that can be delivered to any location in Wisconsin. It is a network designed to maximize public and private service delivery with significant cost savings for the customers. In addition, BadgerNet is designed to support Wisconsin's growing high speed broadband needs.

## BadgerNet

**ABOUT US**

The new BadgerNet broadband technology program is replacing the existing BadgerNet Converged Network (BCN) as of December 31st, 2017. For more information about this transition, please reference the [Customer Information Packet](#).

BadgerNet is Wisconsin's state-wide network serving all 72 counties by providing wide area network, Internet transport and video applications to state government and educational entities. BadgerNet also provides network services to authorized users and other governmental entities such as municipalities, Tribal nations, and technical colleges in the state. BadgerNet is a flexible high-capacity network for the transportation of electronic information across the State in an efficient and cost effective manner.

**CONTACT US**

If you are an agency or authorized user, or you have general questions, please contact:  
DOADETBadgerNet@wisconsin.gov

If you are a TEACH customer such as a school, library, technical college, Tribal nation, or municipality contact:  
TEACH@wisconsin.gov
