Transportation will not be denied for non-payment of the co-payment. SECTION 3 – SERVICES: GENERAL PROVISIONS

28.a. Transportation (provided in accordance with 42 CFR 440.170) as an optional medical service) excluding "school-based" transportation, continued.

X (D) The State assures that no agreement (contractual or otherwise) exists between the State or any form of local government and the transportation broker to return or redirect any of the Medicaid payment to the State or form of local government (directly or indirectly). This assurance is not intended to interfere with the ability of a transportation broker to contract for transportation services at a lesser rate and credit any savings to the program.

X (E) The State assures that payments proposed under this State plan amendment will be made directly to transportation providers and that the transportation provider payments are fully retained by the transportation providers and no agreement (contractual or otherwise) exists between the State or local government and the transportation provider to return or redirect any of the Medicaid payment to the State or form of local government (directly or indirectly).

X□ (7) The broker is a non-governmental entity:

X The broker is not itself a provider of transportation nor does it refer to or subcontract with any entity with which it has a prohibited financial relationship as described at 42 CFR 440.170(4)(ii).

□ The broker is itself a provider of transportation or subcontracts with or refers to an entity with which it has a prohibited financial relationship and:

Transportation is provided in a rural area as defined at 42 CFR 412.62(1) and there is no other available Medicaid participating provider or other provider determined by the State to be qualified except the non-governmental broker.

Transportation is so specialized that there is no other available Medicaid participating provider or other provider determined by the State to be qualified except the non-governmental broker.

28.a. Transportation (provided in accordance with 42 CFR 440.170) as an optional medical service) excluding "school-based" transportation, continued.

☐ (8) The broker is a governmental entity and provides transportation itself or refers to or subcontracts with another governmental entity for transportation. The governmental broker will:

- The broker is not a governmental entity.
  - Maintain an accounting system such that all funds allocated to the Medicaid brokerage program and all costs charged to the Medicaid brokerage will be completely separate from any other program.
  - Document that with respect to each individual beneficiary's specific transportation needs, the government provider is the most appropriate and lowest cost alternative.
  - Document that the Medicaid program is paying no more for fixed route public transportation than the rate charged to the general public and no more for public para-transit services than the rate charged to other State human services agencies for the same service.

(9) Please describe below how the NEMT brokerage program operates. Include the services that will be provided by the broker. If applicable, describe any services that will not be provided by the broker and name the entity that will provide these services.

Response: The Wisconsin transportation manager will create a transportation network to meet all non-emergency medical transportation (NEMT) for all qualifying members of Wisconsin Medicaid and BadgerCare Plus. This transportation network will be comprised of Specialized Medical Vehicles (SMV), ambulance, common carrier and volunteer modes of transportation.

The transportation manager will provide all NEMT services for certain Wisconsin Medicaid and BadgerCare Plus members, with the exception of the following:

- Members residing in a nursing home. The nursing homes will continue to provide NEMT services under Medicaid nursing home transportation guidelines.
- Members enrolled in Wisconsin FamilyCare. The FamilyCare program will continue to provide Medicaid NEMT services.

Approval Date _______________ Effective Date: 07/01/2011
The manager will operate a call center located in Wisconsin that takes requests from members, their families or healthcare providers, affirming the member's eligibility, gate-keeping the member's need for NEMT, determining the correct mode of transportation and affirming that the requested destination is a participant in the State's Medicaid program.

The manager will then contract with a transportation provider. The manager will affirm the transportation provider's insurance, vehicle and driver compliance and then route the trip to and pay the contracted transportation provider and/or volunteer driver.

The manager will accept, respond to and solve transportation and other related service issues and complaints. They will review utilization and investigate and report to the Department suspected abuse or misuse of NEMT services. They will provide a number of reports to the Department regarding services provided and quality of services provided. The manager will host quarterly advisory committee meetings and conduct periodic satisfaction surveys.

No-shows. The transportation manager will contact the case manager or social worker to ensure the member attends all scheduled treatments and services. Transportation will not be denied, although certain days of the week may change if, for example, case notes indicate that a member frequently misses appointments on a particular day of the week. Appointments would then be changed to an alternate, more successful, day of the week.
