Wisconsin PRAMS 2014 data are available for analysis. See "How to request PRAMS data" on page 2 for more information!

Wisconsin PRAMS received the CDC PRAMS Notice of Award for Year 2 of the current five-year competitive grant. Year 2 covers data collection for 2017 births.

PRAMS began data collection for 2017 births starting in April 2017 and will go through March 2018.

Summer 2017 PRAMS Newsletter

The PRAMS team at the Wisconsin Department of Health Services provides quarterly newsletters to continuously engage the PRAMS Advisory Board and other agencies and organizations invested in maternal and infant health outcomes in Wisconsin.

If there is any specific content you would like to see in future newsletters, please contact the Wisconsin PRAMS team at DHSPHPRAMS@wi.gov.

Featured Data

PRAMS 2012-2013 data on home visiting services were shared with the Family Foundations Home Visiting Grantees. Home visiting programs in Wisconsin aim to support pregnant women and their families, help parents connect with community resources after the birth of their child, and improve both maternal and child health outcomes. Here are some key data points from 2012-2013 PRAMS:

- About 7% of mothers, approximately 4,000 women per year, reported receiving a home visit during their pregnancy to help prepare for their new baby.
- During 2012-2013, 14% of mothers, around 7,500 women per year, said a home visitor came to their home after their new baby was born to help them learn how to take care of themselves or their baby.
- Approximately 9,500 mothers receive home visiting services each year. About a quarter of these women saw a home visitor both while pregnant and after the birth of their child.

Mothers were asked to report whether a home visitor spoke with them about the topics below following the birth of their baby.

Both the Zika supplement and the reward experiment will end October 2017. The PRAMS team will analyze results as soon as we can!

The next PRAMS Advisory Committee Meeting will be held jointly with MCH on October 4, 2017.
How to request PRAMS data

If you would like to request aggregate data or a presentation on one of the many topics on which PRAMS collects information, please send an email to the PRAMS team with the details of your request. Aggregate data requests may require Division of Public Health Data Governance Board approval.

If you would like to access the PRAMS research file for your own analysis using appropriate statistical software, please email the PRAMS team to request an application.

Your completed application will be reviewed by the Division of Public Health Data Governance Board. Upon approval, a Data Use Agreement will be drafted granting you access to PRAMS data for your stated purpose.

If you have any questions about what type of data request would be appropriate based on your research question, email Wisconsin PRAMS and someone from the team will get back to you!

Acknowledgments

Funding for PRAMS is provided by the Cooperative Agreement 1U01DP006229-01 from the U.S. Centers for Disease Control and Prevention (CDC).

Additional support is provided by the Title V Maternal and Child Health Block Grant Program. The Wisconsin Partnership Program, University of Wisconsin School of Medicine and Public Health, provides invaluable support for PRAMS by funding an oversample of non-Hispanic black mothers in key counties with community collaboratives supported by the UW Lifecourse Initiative for Healthy Families.
