

WALA's 83.15 CBRF Administrators Course Overview

This DHS approved educational course is taught by professional trainers with real life industry experience. We combine expert instruction with hands on classwork for a well rounded adult learning experience.

**Mary
D.**

I thought the class and all the presentations were very informative. Being new to this role, information can be very intimidating and overwhelming. I highly recommend the course.

I loved the class. The speakers knew what they were talking about and were willing to help us out with anything. I feel like I have an arsenal of knowledge in my back pocket.

**Cynthia
B.**

**Taylor
V.**

Not only did this experience teach me proper techniques and regulations, but it also taught me how to run my CBRF on a day to day clinical and operations side.

*This course was amazing.
The content was
excellent!*
