* With the help of an interdisciplinary team, participants in a Family Care or Family Care Partnership (also known as Partnership program) choose their long-term care providers (and their health care providers in Family Care Partnership) from the network offered by the Managed Care Organization (MCO).

**IRIS participants purchase services, supports and goods within an individualized budget amount based on an approved care plan. Participants make purchases and hire service providers directly, or with the help of an employment agency.

*** Note: Individuals living in a nursing home or a Community Based Residential Facility (CBRF) cannot be enrolled in IRIS.

Note: Individuals who have a diagnosis of **End Stage Renal Disease** are ineligible to enroll in Partnership, unless these individuals are enrolling in a Managed Care Organization (MCO) that has a federally authorized exemption to this rule. Only one MCO, Community Care Inc., has a federally authorized exception to enroll individuals with End Stage Renal Disease at this time. Individuals who have a diagnosis of End Stage Renal Disease may enroll in PACE.

Note: **Estate Recovery** provisions apply for Family Care, Partnership, IRIS, and will apply to PACE as of July 1, 2014. In addition, individuals who choose PACE do not pay prescription co-pays or deductibles.

Note: To be eligible for Partnership, you must be enrolled in every part of Medicare for which you are eligible.
