

Asbestos Certification Disciplines, Fees and Expiration Dates

Discipline	Initial Training	Allowed Activities	Annual Fee	Initial Expiration	Renewal Expiration ¹	Refresher Training
Exterior Asbestos Worker	1-day exterior asbestos worker	When a certified supervisor is onsite, conduct exterior (roofing, siding, windows) abatement on non-friable ACM ² that remains non-friable throughout project, including setting up, repairs and removal and loading out of ACM.	\$125	Certification does not expire if annual training documented	No certification renewal required if refresher training taken annually.	Annual - (not DHS accredited)
Exterior Asbestos Supervisor	1-day exterior worker and 1-day exterior supervisor	Oversee and conduct exterior abatement on non-friable ACM that remains non-friable throughout project, require changes in work practices or halt project, collect exterior bulk samples to test for asbestos, and function as air sampling professional ³ for exterior work.	\$75	1 year after most recent training	1 year after current expiration date if refresher taken within 3 months before expiration	2 hours – Annual in-state before next renewal (DHS Accredited)
Asbestos Worker	4-day asbestos worker	When a certified supervisor is onsite, conduct asbestos abatement, including set-up, repairs, removal, encapsulation, enclosure, loading out of ACM waste from a building.	\$75	1 year after most recent training	1 year after current expiration date if refresher taken within 3 months before expiration	8 hours - Annual in-state before next renewal (DHS Accredited)
Asbestos Supervisor	5-day asbestos supervisor	Oversee and conduct asbestos abatement, function as an air sampling professional, and require work practices changes or halt the project.	\$125	1 year after most recent training	1 year after current expiration date if refresher taken within 3 months before expiration	8 hours – Annual in-state before next renewal (DHS Accredited)
Asbestos Project Designer	3-day project designer	Writes asbestos abatement project designs for abatement projects.	\$175	1 year after most recent training	1 year after current expiration date if refresher taken within 3 months before expiration	8 hours – Annual in-state before next renewal (DHS Accredited)
Asbestos Inspector	3-day asbestos inspector	Conduct asbestos inspections, including determining the presence, location, or condition of friable and non-friable ACM, whether by visual or physical examination or by collecting samples.	\$175	1 year after most recent training	1 year after current expiration date if refresher taken within 3 months before expiration	4 hours - Annual in-state before next renewal (DHS Accredited)
Asbestos Management Planner	3-day inspector and 2-day management planner	Develop a plan to manage asbestos in a building and make recommendations for the best response actions to be taken to manage ACM in the building.	\$125	1 year after most recent training	1 year after current expiration date if refresher taken within 3 months before expiration	4 hour inspector AND 4 hour management planner – Annual in-state before next renewal (DHS Accredited)

¹ When refresher training is taken more than 3 months before the certification expiration date, or, when taken after certification expires but within 24 months of previous training date, the new expiration date will be 12 months from the refresher training date. Initial training must be retaken when previous training completion date exceeds 24 months.

² ACM = asbestos-containing material.

³ Air sampling professional = asbestos supervisor or exterior asbestos supervisor who oversees the progress and condition of a project or conducts visual clearance and air sampling.
